Sir/Madam,

Sub: Conducting of Short-term Management Development Programmes for the year 2019-20 at CTARA/Secunderabad.
oo0oo

CTARA, Centralized Training Academy for Railway Accounts, was established by the Ministry of Railways, Government of India in May 2005. Since then, this Academy has been imparting quality training in the areas of management, computers and Railway working to Indian Railways personnel.

The training courses comprise of various management subjects related to Finance and Accounts in general and Indian Railway's Finance and Accounts, in particular. Apart from these, various other integrated courses for other departments are also conducted by the Academy, keeping in view the needs of these departments and the latest developments in their respective fields.

Over the years, to impart quality training, CTARA has been engaging reputed management schools & training institutes. Continuing this practice, Academy invites reputed institutions engaged in imparting management education to design and impart short term Management Development Programmes(MDP) to the participants at its premises in the following areas;

i. Human Resource Management
ii. Transport Economics/Management
iii. Managerial Economics
iv. Alternate Finance with focus on PPP & FDI
v. Advanced Financial Management & Accounting Techniques
vi. Project Appraisal with latest Cost & Finance Analysis
vii. Core Accounting (Accrual & Actual Accounts)
viii. Accounting & Costing methods and any other Management subject

While the above are core areas, any other relevant subject connected to Management may also be suggested. The course design, content and pedagogy may be designed in the best possible manner suitable for the top and middle management level officers & supervisory staff of Indian Railways.

Scope of Service:

Sl. No.	Offering Phase	Particulars	Timelines of Delivery	Amount in INR
1.	MDP on Business Communication - 3 modules for each batch spanning 6 working days across all ITC PSPD locations – Hyderabad, Bhadrachalam, Kovai, and Tribeni	INR 3,00,000/- per batch	As per the dates scheduled by ITC - PSPD	3,00,000
	Total Amount			3,00,000

Payment Schedule:

Sl. No.	Details of Payment Cycle	Amount in INR	Payment Timeline
1	After the completion of 3 modules (6 working days) for each batch	3,00,000	5 days after invoice is raised

Terms and Conditions:

1. The MDPs would be conducted in 3 modules for each batch. Each module will consist of 8 sessions in a span of 2 days. Hence the total number of days of training for each batch will be 6 working days. There would be a gap of at least 15 days between each module to enable participants to assimilate and work towards the assignments.
2. Each module will have a main faculty who will conduct the sessions and a support faculty who will provide additional help to the main faculty and review the participants' during the sessions. Participants will be closely monitored on their performance and suggestions for improvement will be provided. The participants are also bound to complete all the assignments during the program.
3. The program coordinator and resource persons will conduct a review of oral, written and presentation skills during the 3rd module of each batch and submit the evaluation to the participants and concerned authorities along with suggestions for improvement.
4. The certificates with the grade scored by the participant will be provided by IBS Hyderabad, IFHE University after completion of 3 modules for each batch.
5. The MDPs will be conducted only in ITC premises across its four locations – Hyderabad, Bhadrachalam, Kovai and Tribeni. The travel expenses (rail and air tickets, including local cab charges in the base location), boarding and lodging for the resource persons will be borne by ITC. IT support in terms of computers to be provided to participants by ITC for the second module on Written Communication.
6. The cost of each MDP is Rs. 3,00,000/- + 18% GST (which includes 36 hours of training + 12 hours of home assignment + reading and study material) to be paid after completion of all modules for each batch.
7. All payments (cheque/ DD) would be made in favor of 'ICFAI Foundation for Higher Education' payable at Hyderabad.
8. In case of online payments, transfer to be done to 'ICFAI Foundation for Higher Education', Account No: 020201007037, Name of the account: IFHE – Seminars & Workshops A/c, ICICI Bank, Nerella House, No. 4 Nagarjuna Hills, Punjagutta, Hyderabad 500082. RTGS/NEFT IFSC Code: ICIC0000202.
9. In case this agreement is terminated from the client's end before the end of the agreed term above, amount received would not be liable for refund.
10. Video recording of our trainer's classroom without prior approval and clicking photos of our training content is strictly prohibited.
11. We seek your permission to use your Company name and Logo in our List of client's page in our website.

ONGC Academy, Dehradun

14. Evaluation of Training Programme:-

(1) Special attention to be given on topics mentioned in your proposal during the course.

(2) In order to ascertain the effectiveness of the program, Pre-Course & Post-Course Evaluation of Participants will be conducted by the Faculty through a questionnaire of around 20/25 multiple choice questions. These questions are to be provided by the Agency/Faculty along with the course material. The answer sheets pertain to pre and post course test will be evaluated by Faculty and the mark sheets should be handed over to the respective course co-ordinator of ONGC Academy.

(3) Training Agency/Faculty should ensure the Registration of the Trainiees/Participants on the date of commencement of the programme in the prescribed **proforma/Registration Sheet** attached herewith and forward the same to the ONGC Academy.

(4) Training Agency/Faculty should ensure and obtain the attendance of the Trainees/Participants in the Forenoon and Afternoon per Day of Training in the Prescribed **Profoma/Attendance sheet** attached herewith and forward the same upon the successful completion of the training to ONGC Academy..

(5) Following attached Standard Performa/Forms of ONGC Academy for the Evaluation of the Training has to be collected by Training Agency/Faculty(s) from the Participants and Faculty(s)/Chief Faculty respectively after they have duly filled and signed the same on completion of the training and to be furnished to ONGC Academy upon successful completion of the training programme:-

(a) End of the Course Feedback by Trainees/Participants.
(b) Feedback on Faculty/Chief Faculty by Trainees/Participants.
(c) Faculty/Chief Faculty Feedback on the Training Program/and on Trainees.

(6) As per the policy of the ONGC Academy, Overall Feedback of the Program should be more than 7.5 on 1-9 scale. If feedback of any faculty is less than 7.5 on 1-9 scale, he or she will not be considered in future program.

15. Training Agency/Provider shall have to provide the following facilities for **Residential program**:-

(i) Class room with projection system, sound system and PC/Laptop.

(ii) Tea/ Coffee with light refreshments/snacks, Working Lunch during training period for faculty (ies) and participants.

(iii) All participants are to be provided with boarding and lodging in single occupancy AC Room from one day prior to start of the program till next day of the end of the program. While normally participants of all programmes stay on campus, in case accommodation is not available in campus suitable alternate arrangements will be made outside the campus including transport facility to reach the training class room/Hall and back to accommodation.

ABOUT HYDERABAD

Hyderabad, Capital of newly formed State of Telangana is hailed as City of Pearls, rich in its culture, heritage and tradition. Being famous for its secular prosperity, Hyderabad is universally known for its heterogeneous culture, ethnic structure and multitudinal mastery. The grandeur of Hyderabadi culture is unassailable and invincible. Charminar, Golconda Fort, Salarjung Museum and the grandiose of Buddha Statue, reflecting the iconic Hyderabadi ethos are most acclaimed mammoth monuments. It is place for higher learning with institutes like NALSAR, ISB, IBS, IIIT, University of Hyderabad, Osmania University etc. The Industrial image, Information Technology and Infrastructural inventions of Hyderabad are beyond comparison. It is a place for Medical Tourism from all over the world. At present, the climate at Hyderabad is moderate. This City is well connected with Roadways, Railways and Airways.

ABOUT IFHE CAMPUS

The ICFAI Foundation for Higher Education, Hyderabad, a Deemed University established under Section 3 of UGC Act, 1956 and accredited by the UGC NAAC with "A" Grade. The campus is lush green; equipped with the state of art facilities like amphitheaters, auditoriums, academic blocks, library, computer center, language lab, hostels, canteen, faculty accommodation, ATM center, sports and recreation facilities.

IFHE has evolved a comprehensive student-centric learning approach consisting of several stages, designed to add significant value to the learner's understanding in an integrated manner, covering relevant knowledge, practical skills and positive attitudes. IFHE offers Management, Engineering and Law Courses.

ABOUT THE FACULTY OF LAW

The Faculty of Law (FOL) is a significant segment of the IFHE and recognized by Bar Council of India. The FOL offers BBA.LLB (Hons) and BA.LLB (Hons) integrated five year courses, One Year LLM in Corporate and Commercial Laws and Tax Laws, Ph.D, PG Diplomas in IPR, Cyber Laws and Tax Laws and Five Certificate Courses in Cyber Law, Infrastructure Laws, Law of Financial Services, Immigration Laws and Solid Waste Management and Law.

THEME OF THE SEMINAR

The present age of globalization and liberalization in trade, rapid societal and technological changes in 21st century have led to new trends in consumer habits, tastes and preferences and also poses new challenges for consumer protection. The main objective of the traders is to earn maximum profits neglecting the interests of the consumers and indulging into various activities such as selling of poor quality and adulterated goods, under weighing and in some cases overcharging. They are also misleading the consumers with false advertisements and befool by unscrupulous trade practices by market forces. The need of the hour necessitated to bring awareness in the consumers towards their rights and obligations. The government of India's 'jago grahak jago' campaign through media is to empower consumers in resolving identified challenges regarding product, service and food safety, is not sufficient to overcome major issues and challenges associated with the digital revolution, sustainable consumption and social exclusion.

It is universally accepted that the extent of consumer protection is the true indicator of the level of progress of a Nation. To mark the significance of the consumer as 'consumer is king', World's Consumer Rights day is celebrated on 15th March and National Consumers Rights day on 24th December every year. To effectively protect a consumer buying goods or services through e-commerce would need a separate law, as other countries have, such as UK Consumers Rights Act, 2015. It is felt that the Consumer Protection Act, 1986 in India is not sufficient to meet new challenges and issues in digital era and there is a need to bring changes to protect online consumers. In E-commerce, numerous problems arise due to the buyer and seller being at a distance. The various issues regarding defective goods as buyer does not have an opportunity to inspect or sample the goods or services, problems of fraudulence in card payments, lack of trust in regard to the safety of personal data discourage consumers from taking part in e-commerce and accepting new online services.

Consumer is the focal point and real deciding factor for all economic activities. The Consumer Affairs ministry has proposed many changes to the Consumer Protection Act, 1986 to protect consumer rights and simplify the judicial process to ensure swift and inexpensive justice by a new bill called Consumer Protection Bill 2015 keeping in view e-commerce boom and misleading advertisements posing new challenges. The Bill proposed to create separate adjudicatory authorities to decide consumer disputes which results in parallel jurisdiction to the authorities already in existence under the Act of 1986.The Bill also has not addressed the dichotomy with reference to VAT between online and physical purchase and it's impact on the consumer. The question of the non-alignment of VAT rates for similar goods and services when supplied online or offline and the subsequent question of the visible price differences to the consumers has therefore not addressed. The consumers need minimum skills and literacy to face new complex products and services, especially in the financial, medical and insurance sectors. Consumers have new requirements, e.g. demand for green products, which imply a need for special information.

In addition to this, complex and not comparable pre-contractual information prevents consumers to act as empowered consumers. The seminar will focus on the issue whether the existing legal framework is adequate to protect the interests of the consumer in contemporary India and what changes are required to the existing laws to accord protection to the online and offline consumers.

OBJECTIVES OF THE SEMINAR

As the empowered and aware consumer is an asset to the country, it is necessary to look at the specific issues with regard to consumer welfare and protection.

- To cover complexities in interpreting and implementing the consumer law both from business and legal perspective
- To study the latest developments on consumer protection front and discussions on decisions of various consumer foras
- To illuminate and empowering consumer by education and knowledge sharing
- To provide a platform to interact various stakeholders on issues of consumer protection
- To research and evaluate studies in the field of consumer welfare
- To evaluate the interface between consumer laws and competition laws
- To suggest effective measures to protect consumers from new challenges in technology and competitive markets

Report on Two Day National Seminar on Consumer Protection and the Law: Issues and Challenges" 22nd and 23rd October, 2016

This seminar is organised by the Faculty of Law, ICFAI Foundation for Higher Education (IFHE), Hyderabad in collaboration with National Law School of India University, Bengaluru on 22nd and 23rd of October 2016. It is the first event held in the light of the Memorandum of Understanding which the faculty of Law ICFAI Foundation of Higher Education has entered in January 2015. The seminar has the presence and participation of the delegates and paper presenters from all parts of the country along with the enthusiastic participation of the student's of the ICFAI Law School. Further, the faculty of law is also fortunate to have the presence of the legal luminaries on the area of consumer law for the seminar. Prof Venkatrao Vice Chancellor, NLSIU Bengaluru, Prof. Ashok R. Patil, Chair Professor in Consumer Law and Practice at NLSIU Bengaluru, Prof. Rajendra Prasad, VC, Acharya Nagarjuna University, Prof. Ramasubbaiah, Prof Haragopal Reddy and Hon'ble Justice Seshasayana Reddy and others.

The seminar was on five themes conducted in five technical sessions.

1. Consumerism and Competition Law
2. Consumer Redressal Mechanism and Consumer Empowerment
3. Consumer and Media: Reflections and Resolutions
4. E-Consumerism: Problems and Perspectives
5. Medical Mishaps: Legal and Ethical Issues

We received 48 abstracts and had 50 participants from various law colleges, institutions, universities that include Osmania University Hyderabad, NLSIU Bengaluru, Christ Unversity Bengaluru, ICFAI University Sikkim, Acharya Nagarjuna University Guntur, Padmavathi

Mahila College, Tirupati, University College of Law, Kakatiya University, Warangal, Tengana University, Nizamabad, Gulbarga University and the faculty members and students of the ICFAI Law School.

The seminar was inaugurated by the Chief Guest, Hon'ble Justice Shri. U. Durga Prasad Rao, Judge, High Court of Judicature at Hyderabad for the state of Telangana and the state of Andhra Pradesh, followed by an address by Prof. Rajendra Prasad, VC, Acharya Nagarjuna University Guntur Guest of Honour and key note speaker. and other dignitaries.

The first technical session was on the theme Consumer Protection and Competition Law and five speakers presented their papers in this technical session on the areas such as the role of FSSAI in the protection of consumers, anti-dumping and competition, critical analysis of Consumer Protection Bill 2016 and so on. The session was chaired by Ashok R. Patil, Assistant Professor NLSIU Bengaluru and was co- chaired by Dr. Lakshmi, Assistant Professor, FOL, IFHE Hyderabad.

In the second technical session there were papers on various aspects of consumer redressal mechanism by eminent scholars which included Consumer Protection in Sikkim, Analysis of Bureau of Indian Standards Act, 2016, Role of Supreme Court in Consumer Protection and so on. The session was chaired by Prof. Y. Pratap Reddy, Professor, Osmania University, Hyderabad and Co-chaired by Dr. Veena Assistant Professor, FOL, IFHE. The session was also made lively by the creative interaction of the Dean, Dr. AV Narasimha Rao, FOL, IFHE, Anita Patil, Assistant Professor, NLSIU Bengaluru, and the students on the practical aspects of the consumer law and concluded with a resolution by the participants and delegates to take a step further for the effective implementation of the consumer law and to pass the message of consumer welfare and aims of the Act to the grass root levels of the society.

The third session of the seminar was on the theme 'Consumer and Media: Reflections and Resolutions.' The session was chaired by Prof. Y.P. Rama Subbaiah, Dean Faculty of Law, ANU Guntur and was co-chaired by Dr. Irfan Rasool, Assistant Professor, Faculty of Law, IFHE Hyderabad. Seven speakers of the session presented papers on various area of the theme like misleading advertisements and the consumer, comparative analysis of the misleading advertisement and its prevention in US, UK and India, Impact of misleading advertisement on the consumers and the Chair of the session Dr. Y.P. Subbaiah presented paper on the role of Consumer Guidance Society of Vijayawada, a success story of villagers of Vijayawada who were successful in getting 3 crores as compensation from the consumer dispute forum with the help of the Consumer Guidance Society.

The fourth technical session was E-Consumerism: Problems and Perspectives. The session was chaired by Prof. Hemalatha Devi, Former Dean FOL IFHE and co-chaired by Dr. SV Damodar Reddy, Assistant Professor, FOL IFHE. The paper presentations were on emerging areas of the theme like impact of surrogate advertising on consumers, liability in celebrity endorsements and the liability for the misleading advertisement, interface of intellectual

property and competition policy, problems in e-consumer protection and so on. About 7 delegates presented their papers in this session.

The fifth technical session was on 'Medical Mishaps: Legal and Ethical Issues.' The session was Chaired by Hon'ble Mr. Justice Sheshasayana Reddy, Retd. Judge, High Court of Andhra Pradesh and was co-chaired by Dr. Madhuri Irene, Assistant Professor, FOL IFHE. The session saw the successful participation of students and other delegates and the papers were on consumerism and medical accountability, ethical medical practices vis-a-vis COPRA Act, 1986, stem cell advertisement and regulations, need for regulation on NEET to have more professionals to reduce medical mishaps, rights of the consumers with disability in India and so on. The technical sessions of the seminar successfully concluded at 1:00 pm.

Prof. V Bala Kista Reddy, Registrar, NALSAR, Hyderabad, was the Chief Guest for the valedictory session and Prof. A.V. Narsimha Rao, Director, ICFAI Law School, IFHE, Hyderabad and Prof. Ashok R. Patil, Chair Professor in Consumer Law and Practice, NLSIU, Bengaluru, shared the dais.

It has been ranked 1st among the top 10 promising law colleges in India for the year 2017 by Higher Education Review in August 2018.

INSOLVENCY AND BANKRUPTCY BOARD OF INDIA

The Insolvency and Bankruptcy Board of India (IBBI) is the most important institutional arrangement for the new Insolvency and Bankruptcy regime and was established on 1st October, 2016 under the Insolvency and Bankruptcy Code, 2016. It is a key pillar of the ecosystem responsible for implementation of the Code that consolidates and amends the laws relating to reorganization and insolvency resolution of corporate persons, partnership firms and individuals in a time bound manner for maximization of the value of assets of such persons, to promote entrepreneurship, availability of credit and balance the interests of all the stakeholders. It is a unique regulator: regulates a profession as well as processes. It has regulatory oversight over the Insolvency Professionals, Insolvency Professional Agencies, Insolvency Professional Entities and Information Utilities. It writes and enforces rules for processes, namely, corporate insolvency resolution, corporate liquidation, individual insolvency resolution and individual bankruptcy under the Code. It has recently been tasked to promote the development of, and regulate, the working and practices of, insolvency professionals, insolvency professional agencies and information utilities and other institutions, in furtherance of the purposes of the Code.

DELAWARE LAW SCHOOL, U.S.A

Delaware Law School is affiliated to the Widener University Wilmington, Delaware. It offers legal degrees for undergraduates, graduates, and international students and online courses. The Law School is rich in its unique legal culture, civility and mostly respectable within the bench and bar in USA and its alumni leading locally and globally in public service, professional training. The Law School is premier in corporate law, bankruptcy, and intellectual property and emphasizes on applied learning and community engagement with a new curriculum. The pedagogical model gives chance to every student to express best and emphasize their role as best lawyers. It provides them abundant opportunities for clerkships, externships, pro bono experiences, and permanent employment after graduation. Emphasize on the tools students need to do what lawyers do best and helps those who face legal challenges needing practical solutions. It facilitates distinctive experiential and interdisciplinary signature programs give students additional opportunities to specialize in corporate law, environmental law, family and health law, and advocacy. The local courts in Delaware also providing a range of opportunities for legal externships and employment for the Students.

ABOUT THE CONFERENCE

As part of the high profile reforms in the economy in general and law relating to financial sector, enactment of the 'Insolvency and Bankruptcy Code 2016' is a milestone achievement. With the widening of horizons of business and growing competition, new challenges are surged leading to failures of business having significant impact upon the national GDP and goodwill.

The Government of India has taken many initiatives to protect the interests of the investors, stakeholders and promote the entrepreneurship by assuring the strong support from the legal arena. As a gesture of such commitment is the enactment of the Insolvency and Bankruptcy Code 2016 by adapting the best practices prevailing across the globe. The Code is enacted to consolidate and amend the laws relating to reorganization and insolvency resolution of corporate persons, partnership firms and individuals in a time bound manner for maximization of value of assets of such persons, to promote entrepreneurship, availability of credit and balance the interests of all the stakeholders including alteration in the order of priority of payment of Government dues and to establish an Insolvency and Bankruptcy Board of India, and for matters connected therewith or incidental thereto.

The Code has huge impact on the debtor-creditor relationship that also contributes to improve the credit culture of the country. Apart from the uniform comprehensive insolvency legislation and a separate framework for bankruptcy resolution in failing banks and financial sector entities, the Code primarily allows the creditors to assess the viability of debtors to mitigate the early identification of the impending financial failures. The Code also concentrates in adjudicating the dispute of the cross border insolvency.

The Insolvency and Bankruptcy Code, 2016 is a one stop solution for resolving insolvencies which at present is a long process and does not offer an economically viable arrangement. It is a strong insolvency framework that minimizes the cost and the time incurred in attaining liquidation has been long overdue in India. The code will be able to protect the interests of small investors and make the process of doing business a less cumbersome process. Although the Code is very much effective in its recent enforceability, yet facing the relentless process and research works are going to be initiated to strong bind its tentacles around the Indian Credit System.

With this background, the ICFAI Law School Hyderabad, a constituent of ICFAI Foundation For Higher Education (deemed-to-be University established under Section 3 of the UGC Act 1956) Hyderabad, Telangana India is organizing the three day International Conference on 'The Insolvency and Bankruptcy Law and Global Response' on March 1, 2 and 3, 2019, in association with Delaware School of Law, Widener University, Wilmington, USA and the Insolvency and Bankruptcy Board of India (IBBI). The International Conference aims to bring the stakeholders to the one platform to discuss issues and challenges faced, opportunities and prospective on the introduction of new code.

CALL FOR PAPERS

The International conference on Insolvency and Bankruptcy code, organized by the ICFAI Law School will be held from 1st to 3rd March 2019 at ICFAI Law School, IFHE, Hyderabad, India. The conference invites contributions in all the areas of Insolvency and bankruptcy code in the form of full length scholarly papers documenting original and substantial research work. Contributions are invited on theoretical, methodological, and empirical investigations with emphasis on insolvency law and policy.

The conference encourages submission of papers focusing on the emerging areas of Insolvency and Bankruptcy Code. Papers may be in any of the substantive areas of Insolvency and Bankruptcy, including but not limited to the themes of the conference. The themes of the conference are only indicative. We invite and encourage papers from other allied areas of Insolvency and Bankruptcy Code.

The proposals should consist of an abstract of 500 words that clearly outline the research questions, methodological approach, and relevance to the field of insolvency law.

GUIDELINES FOR PAPER SUBMISSION

The full papers should preferably be formatted in the APA Style. It should be written in less than 6000 words, including tables, exhibits, references and appendices.

The manuscript should begin with a separate title page containing: the Paper Title, Author(s)' affiliation and email ID, Abstract (Max 300 words), and five keywords. The rest of the manuscript should not contain any author identifying information. The authors should submit their abstracts/ full-papers through email only. Please send your abstracts and full papers to: *bankintcon.law@ifheindia.org*

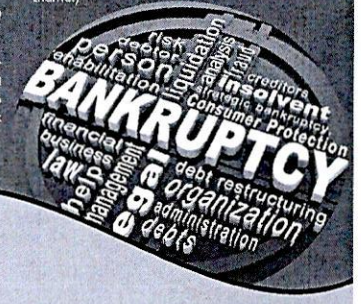

CONFERENCE PROCEEDINGS AND PUBLICATION

The organizers will publish the full papers shortlisted for presentation in a Conference proceeding/book with ISBN number/journal. However the organizer has a right to retain papers submitted, not accepted or submitted but not presented for the purposes of publication.

Report on

3-Day International Conference on 'Insolvency and Bankruptcy Laws: Global Response

The ICFAI Law School, Icfai Foundation for Higher Education (IFHE), Hyderabad organized 3 DAY INTERNATIONAL CONFERENCE ON 'INSOLVENCY AND BANKRUPTCY LAWS: GLOBAL RESPONSE', during March 1-3, 2019 in association with, Delaware Law School, Widener University, Wilmington, USA and Insolvency and Bankruptcy Board of India (IBBI).

The Insolvency and Bankruptcy Code 2016 (Code) is a milestone achievement in relation to financial sector reforms and to protect the interest of investors, stakeholders and promote entrepreneurship. The Code consolidates and amends the laws relating to insolvency, resolution of corporate persons, partnership firms, and individuals in a time bound manner to maximize the value of assets of such persons. The Code has a greater impact on creditor-debtor relationship, concentrates on adjudicating cross border insolvency disputes, and able to protect small investors. It also established a regulatory body, IBBI. The Code was enacted by adopting best practices across the globe. As it was facing relentless process to make effective in enforceability, the ICFAI Law School has taken an initiative to bring the insolvency and legal professionals, academicians, students, officials dealing in insolvency process and the business houses to a single platform. The 3 day international conference on "Insolvency and Bankruptcy Laws: Global Response" was organized with an aim to bring the stakeholders to one platform to discuss issues and challenges, opportunities and prospective on the introduction of new code, Insolvency and Bankruptcy Code 2016.

The organizing team of the conference consist Chairman, Prof. AV Narsimha Rao, Director, ICFAI Law School, Hyderabad, Coordinator Dr. Veena, Associate Professor, Dr. K Ravi Kumar and Dr. Kannan, Assistant Professors as co-coordinators.

THE ICFAI FOUNDATION FOR HIGHER EDUCATION (IFHE), HYDERABAD

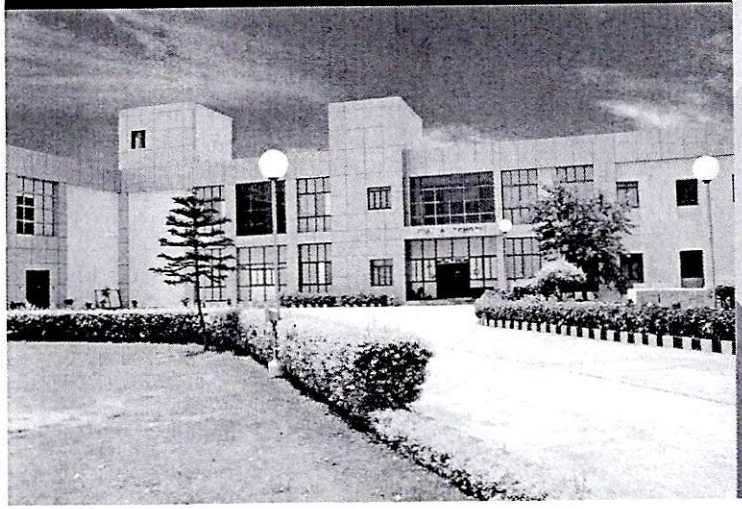

The ICFAI Foundation for Higher Education, Hyderabad, is a Deemed to-be University established under Section 3 of the UGC Act, 1956 and accredited by NAAC with "A+" Grade. IFHE has evolved as a comprehensive student-centric learning approach designed to add significant value to the learner's understanding in an integrated manner, covering relevant knowledge, practical skills and positive attitude. IFHE offers Management, Engineering and Law Courses.

IFHE provides world class, innovative, career-oriented professional programs through inclusive technology-aided pedagogies to equip students with the requisite professional and life skills as well as social sensitivity and high sense of ethics. The University strives to create an intellectually stimulating environment for research, particularly into areas bearing on the socio-economic and cultural development of the state and the nation.

ABOUT ICFAI LAW SCHOOL, HYDERABAD, INDIA

The ICFAI Law School, Hyderabad is a promising destination for the students desirous of making law as their "Dream Career". The ICFAI Law School is a significant segment of the IFHE and recognized by Bar Council of India. It offers BBA.LLB (Hons.) and BA.LLB (Hons.) integrated five year courses, One Year LLM in Corporate and Commercial Laws and Tax Laws, Ph.D. full-time and part-time programs and Eight Certificate Courses in Cyber Law, Infrastructure Laws, Law of Financial Services, Immigration Laws, Solid Waste Management and Law, Goods and Services Tax Laws, International Trade Law and Forensic Science and Law.

The law school envisions to develop a new cadre of professionals who will not only command high level of domain proficiency but also have the ability to integrate activities for developing scientific and technological solutions and work standards. It has been ranked 1st among the top 10 promising law colleges in India for the year 2018 by Higher Education Review in August 2018.

NEW CASTLE UNIVERSITY, NEW SOUTH WALES, AUSTRALIA

Established as an independent University in 1965, the University of Newcastle is defined by its commitment to equity, performance in innovation and our global impact. It is ranked in the Top 300 Universities in the world by Times Higher Education World University Rankings 2018.The University of Newcastle provides state-of-the-art teaching, learning and research facilities, including the $95 million New Space facility, which opened to students in 2017. All the facilities offer innovative approaches to education at all of its locations-Newcastle (Callaghan), Newcastle CBD, Central Coast, Sydney, Port Macquarie and Singapore. With over 40,000 students, the University's learning community is vibrant and dynamic, offering students and researchers a world-class academic experience and a diverse professional, cultural and social learning environment.

ABOUT THE CONFERENCE

The ICFAI Law School, Hyderabad has taken an initiative to organize a three day International Conference on Insurance Law and Regulations: Global Practices from 1st to 3rd February 2019 to evaluate the existing insurance laws, regulations and other practices for healthy growth of the insurance business. This conference is being organized jointly with New Castle University, Australia.

THEMES FOR THE CONFERENCE

- Insurance business: Post IRDA Regulations
- Insurance Business: Foreign Joint Ventures
- Insurance Product Designing: Innovations and Inventions
- Insurance Companies: Insolvency and Liquidation
- Rural and Micro Insurances: Impact on living standard
- Insurance Business Marketing and Intermediaries
- Claims Management
- Insurance Disputes: Resolution Mechanism
- Investments in Insurance Business: Global Practices
- Secondary Market in Insurance Business
- Life Insurance: Challenges in Claims Settlement
- Insurance Companies and Corporate Governance
- Social Security Insurances
- Catastrophe Insurance and Natural Calamities: Risk Managements
- Information Technology and Insurance Business
- Medical and Health insurances
- Insurance Business and Corporate Social Responsibility

(The above themes are not exhaustive but only indicative. We invite papers from any other allied areas relating to the Conference theme).

THE INTERNATIONAL INSURANCE CONFERENCE

The insurance business plays a critical and sustainable role in the economic development of a country. The economic reforms in India and globally have furthered healthy competition among the national and multinational companies to capture untapped markets and resulted in rapid surge of economic activities including the capital formation, risk distribution, social security, protection against uncertainties and catastrophes. The Indian insurance sector has shown its clout during the turbulences in US and other countries because of the economic crisis resulting from subprime lending, natural calamities and terrorist activities.

The insurance industry in India has remained unshaken even during turbulences in the global economy because of strong fundamental practices followed under the aegis of the Insurance Regulatory and Development Authority of India (IRDAI). The effective and efficient monitoring of the insurance business by IRDAI has provided a healthy platform for the growth of the insurance industry vis-à-vis the total economy of the country.

The insurance business is governed by legislations, allied enactments, regulations and notifications issued by IRDAI from time to time. The proactive role of IRDAI motivated by the guidelines of International Association of Insurance Supervisors is contributing for the positive growth of insurance business and ultimately the nation's economy. However, with the changing time and the challenges posed by the global economy, there is every need to re-visit, rectify and mitigate the gaps in the regulatory legal regime and economy governing the insurance business.

CALL FOR PAPERS

The International Conference on Insurance Law and Regulation: Global Practices, will be held from 1st to 3rd February 2019 at ICFAI Law School, IFHE, Hyderabad, India. The conference invites full length scholarly papers in the emerging areas of Insurance law, regulation and practices. Contributions are invited on theoretical, methodological, and empirical investigations with emphasis on insurance law, regulation and practices, including but not limited to the themes of the conference. The themes of the conference are only indicative. We invite and encourage papers from other allied areas of Insurance law, regulation and practices.

The researchers intending to participate in the conference must submit an abstract of 500 words denoting clearly the focus of the paper, research and relevance to the theme of the conference. Abstracts should be sent to incon.inslaw@ifheindia.org by 25th November 2018 which will be reviewed by a review panel. After the approval of the abstract, a code will be assigned for each paper which shall be intimated to the participants after which they can register for the conference.

Co-authorship up to two authors is permissible for each paper.

GUIDELINES FOR PAPER SUBMISSION

The full papers should preferably be formatted in the APA Style. It should be written in less than 6,000 words, including tables, exhibits, references and appendices.

The manuscript should begin with a separate title page containing: the Paper Title, Author(s)' affiliation and e-mail ID, Abstract (Max 300 words), and five keywords. The rest of the manuscript should not contain any author identifying information. The authors should submit their abstracts/ full-papers through e-mail only. Please send your abstracts and full papers to: incon.inslaw@ifheindia.org

CONFERENCE PROCEEDINGS AND PUBLICATION

The organizers will publish the full papers shortlisted for presentation in a Conference proceeding/book with ISBN number/Journal. However the organizer has a right to retain papers submitted, not accepted or submitted but not presented for the purposes of publication.

Webinar Report on Arbitration: The United States and India

The ICFAI Law School, Hyderabad in collaboration with Centre for International Legal Education (CILE), University of Pittsburgh School of Law organized a webinar on "Arbitration: The United States and India" on July 17, 2020 during 7 PM to 9 PM (IST). The esteemed speakers were Professor Ronald A Brand, Chancellor Mark A Nordenberg Professor of Law and Academic Director for the Centre for International Legal Education, University of Pittsburgh School of Law and Mr. Raj Panchamatia, Partner, Dispute Resolution Team, Khaitan & Co. Mumbai. The webinar was moderated by Mr. Rishav Soni, Faculty Associate, ICFAI Law School, Hyderabad. The webinar received a overwhelming response as more than 150 participants attended. The participants were from varied sections of life including professionals, academicians, advocates, chartered accountants, students and others.

The webinar commenced with introductory remarks by our esteemed Prof. A V Narsimha Rao, Director, ICFAI Law School, IFHE, Hyderabad. He explained about the importance of Alternative Dispute Resolution in general and Arbitration in specific pertaining to international Commercial disputes in the current scenario of ease of doing business and how it allows to avoid litigation in the courts which of time consuming due to docket explosion and costly affair. The Arbitration and Conciliation Act of 1996 in India amended several times, lastly in 2019 to settle disputes on time bound manner in the current scenario of ease of doing business. Then touched upon the advantages of Arbitration so as to have an amicable settlement and maintain good business relationship between the conflicting parties. Highlighted few issues and challenges regarding enforcement of arbitration awards and left the floor to eminent speakers to share their views on national and international disputes resolution mechanism with special reference to arbitration for the benefit of the participants.

Professor Ronal A Brand expressed happiness for jointly organizing the first webinar after executing Memorandum of Understanding (MoU) between ICFAI Law School, Hyderabad and University of Pittsburgh School of Law and expressed to work together to reach many mile stones in achieving academic excellence. In his lecture, he stated that more than 90% of international

contracts has now governed by arbitration clause. In the emerging markets of rapid globalization, America, Europe, Asia has high growth of economy and the traditional centre's of international arbitration are busy facing competition. The number of countries modernized the arbitration laws in tune with UNCITRAL Model Law on International commercial Arbitration to harmonize and bring the international standard approach in resolving the disputes amicably he highlighted about the advantages of arbitration especially in international trade disputes such as Neutrality, confidentiality and privacy, expertise, coordinated dispute resolution, cost, speed finality of decision which attract the number of countries. As standard approaches followed, less scope for amendments at national laws and easy process to enforce the foreign awards. He further advised the legal professionals to mitigate the problems and encourage the clients for resolving commercial disputes by arbitration mechanism which will be a win-win situation for both the parties. He encourages the students to pursue their education and career in the specialized area of alternative dispute resolution which has gained a momentum and have greater job avenues including foreign students and expressed that the colleges and universities imparting law should regularly update the curriculum and impart education to suit the requirements of industry.

Mr. Raj Panchamatia shared his experiences of practice in the area of arbitration. He elaborately discussed about the landmark cases and dealt various issues and challenges regarding recognition and enforcement of foreign awards, viz., Renusagar power co ltd vs General Electric co., Bhatia International vs Bulk trading SA, Oil and Natural Gas Corporation vs Saw Pipes ltd, Venture Global Engineering vs Satyam computer Service Ltd., etc. He further shared his experiences while dealing the cases he represented of French client and Japanese client in huge claims decided by arbitration. He defended the claim of approximately EUR 1, 597, 000 dispute regarding a alleged breach of shareholder agreement. In another matter recovery of dues of USD 2 million in a dispute arising of EPC contract in the energy and infrastructure sector. He emphasized on the disputes of huge claims, the parties always go with arbitration clause in the inception of the contracts and try to resolve by arbitration so as to avoid litigation cost and strain business relationship. He expressed that even during arbitration some parties even prefer to go for mediation during the arbitration, which may also result in fruitful outcome, as it will be an amicable settlement agreement and leave no scope for any further legal process. He dealt latest cases, amendments in arbitration law at national and international level regarding expertise of arbitrators, role of institutional arbitration,

time bound process of resolution which help in resolving the disputes at the earliest. He shared his views on various opportunities available for law graduates in the field of alternative dispute resolution across the globe and wished all success in their future endeavors.

About Speakers:

1. Prof. Ronald A Brand: He is the driving force for creating CLIE, University of Pittsburgh and introducing Master of Law programs for foreign law students. He has been a Full bright scholar Universiteit Brussels His areas of expertise include rule of law, private international law, international trade and arbitration law, etc. His excellence in teaching was rewarded with the Chancellor's Distinguished Teaching Award, and Law School's, excellence -in-Teaching Award. He has also recipient of the Chancellor's Distinguished Public Service Award. To his credit numerous articles, book chapters published in reputed national and international journals. He has authored and edited many books in the area of exporting legal education, international business transactions, rules of jurisdiction in enforcement of foreign judgements, international civil dispute resolution are few to be mentioned.

2. Mr. Raj Panchamatia: He is currently a partner in dispute resolution practice group of Khaitan &Co., Mumbai. He pursued his Master of law from Mumbai University and a fellow member of Supreme Court Bar Association, Bombay Chambers of Commerce and Industry, ICC India Arbitration Group, Malaysian Institute of Arbitrators, Law Society England and Wales, UK to name few. He has professional affiliations to SIAC India Users Counsel, Mumbai Centre of International Arbitration, Bombay Incorporated Law Society and Indian Merchants Chamber. Report on Webinar

"India's Internal Security Challenges – Policing in Pandemic Times" held on 16-08-2020

The Centre for Excellence in Criminal Law, ICFAI Law School, Hyderabad had successfully conducted its webinar in the series of webinars on 16th August 2020 at 07:00 pm. The title of the webinar was "India's Internal Security Challenges – Policing in Pandemic Times" and the webinar was conducted on the Zoom Platform. The link used for the webinar can be found below:

Topic: India's Internal security challenges --Policing in Pandemic times organized by CHSS & ICFAI Law School Zoom Meeting

Time: Sunday Aug 16, 2020 07:00 PM India

Join Zoom Meeting

https://us02web.zoom.us/j/8214986815?pwd=WUxsd2JMTm0yOGZIb0FicFMwY3FsQT09

Meeting ID: 821 498 6815

Passcode: Chss@123

In the webinar, the Centre had invited two eminent personalities to share their thoughts on the subject: Mr. N. Sanjay, IPS, IGP – Training, AP Police; Dr. Gajarao Bhoopal IPS, DCP – Hyderabad City Police. They discussed the lesser-explored world of policing and the changes it has undergone and the challenges it has faced during the pandemic times.

The event was conducted in collaboration with the Centre for Human Security Studies, A Think-Tank on Internal Security & External Affairs of India. The event was moderated by Mr. Ramesh Kanneganti, Founder and Executive Director of CHSS.

At the beginning of the webinar, the introductory remarks were given by Prof. (Dr.) A V Narsimha Rao, Director, ICFAI Law School, Hyderabad. The webinar saw a total participation of around 80 persons from all over the country. In the mix of attendees were criminal justice stakeholders like members of police, judiciary, prison officials, research scholars, academicians, students among others.

The speakers, Mr. N Sanjay IPS and Mr. Dr. Gajarao Bhoopal IPS gave their insights on internal security issues in India that had cropped up in the wake of the pandemic and how the police have been able to deal with the same. Dr. Bhoopal had a lot of interesting opinions on the origin of the virus and issues that India has been facing with its neighbouring nations. They discussed the challenges faced by the police system policing the pandemic and policing in the pandemic times. There is a lot of pressure on the police and the police organisation because of internal security issues. He emphasised on the fact that being frontline workers during the pandemic, the police at every level risk their and their family members' lives. They are pressurised by their higher officials and by the state government and at the same time face condemnations from the general public at large for trying to create awareness to stop the spread of the pandemic.

This was followed by an interactive session. Some of the questions asked by the participants can be put down as follows:

Q) How can we as citizens contribute to reduce the woes of the police?

A) We can be self-aware and create awareness among the public so that the police is burdened a little less.

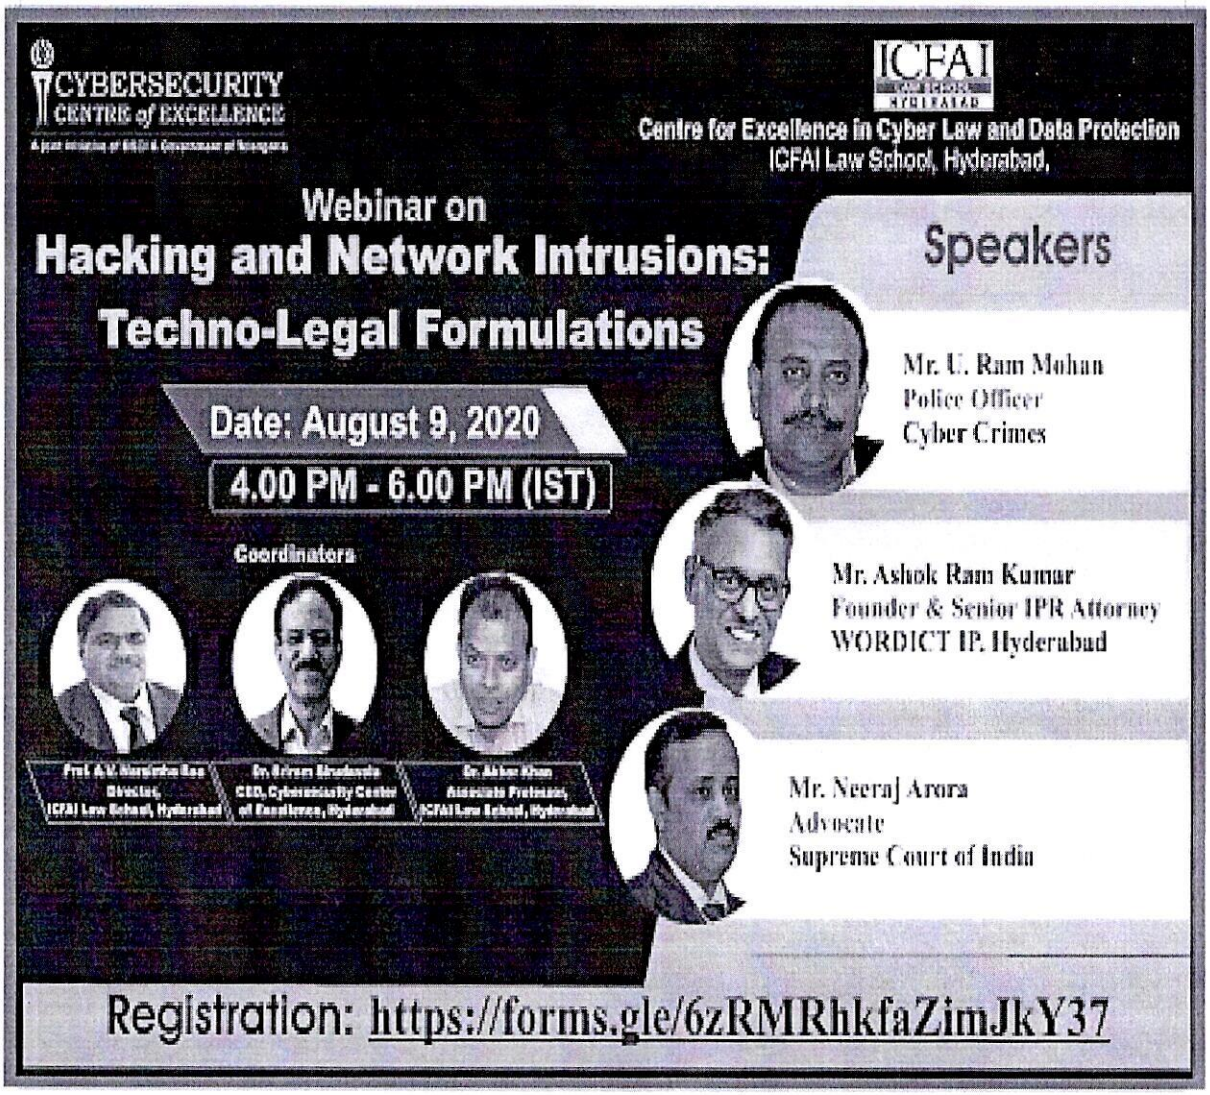

Q) How can police-public relationship be bettered in these times?

A) The police are trying at their end to be as friendly and helpful to the community as possible. In the pandemic times, although there are allegations against increasing violence by police, as an institution they are trying to contribute as much as public servants. It is needed now for the people to support them and encourage them.

At the end of the webinar, the concluding remarks were given by Dr. A. V. N. Rao, Director, ICFAI Law School, Hyderabad and a vote of thanks was given by Ms. Anwesha Panigrahi.

The Brochure of the Webinar is as below:

Centre for Excellence in Cyber Law and Data Protection Law

Fwd: Webinar on 9th August 2020, 4 pm - 6 pm.

ICFAI Law School, Hyderabad

REPORT OF WEBINAR ON TECHNO-LEGAL FORMULATIONS ON 09-08-2020

On behalf of ICFAI Law School, ICFAI Foundation for Higher Education, Hyderabad, under the auspices of Center for Excellence in Cyber Law and Data Protection organised the National Webinar on Hacking and Network Intrusions: Techno - Legal Formulations in association with Cyber security center of Excellence, Hyderabad, on 9th August,2020.

Director, Prof.A.V. Narsimha Rao sir, Icfai Law School, ICFAI Foundation for Higher Education, Hyderabad, delivered opening and concluding remarks.

Dr. Md Akbar Khan, Associate Professor, coordinator, Center for Excellence in Cyber Law and Data Protection delivered a welcome note.

Dr.Sriram Birudavolu, CEO, Cyber security center of Excellence, Hyderabad, Mr. U.Ram Mohan, SP,CID , Cyber Crimes , Mr. Ashok Ram Kumar , Founder & Senior IPR Attorney, WORDICT IP, Hyderabad were the team of guest speakers on the said ocassion.

All the attendees representing different educational institutions - colleges, Universities, and professional organizations, colleagues and students attended the programme.

Cybersecurity vulnerabilities in information technology (IT) systems and the resulting attacks that often occur in the form of hacking, cracking, including denial-of-service and distributed denial-of-service attacks, insider attacks, data theft (exfiltration), sabotage and extortion attacks.

The reasons for increase in data breaches are inadequacy of laws, lack of awareness about data thefts, weak security measures by organization which possess process or transfer sensitive data.

Malware is malicious software which includes viruses, worms, trojans, ransomware, spyware that infiltrates a computer and confidential personal information without the knowledge of owner of such information.

Technology and Legislations go hand in hand. Regulatory, compensatory and punitive mechanisms have been incorporated in legislations like IT Act 2000 and Amended Act, 2008, Privacy Rules, 2011 and the Personal Data Protection Bills of 2018 and 2019 respectively that are yet to sublimate and culminate in to an Act.

It is my honour and privilege to introduce our Director Sir, Prof A.V. Narsimha Rao to the online august gathering.

Prof. A.V. Narsimha Rao is a Doctorate in Environmental Law. He has 15 years of teaching and research experience in addition to the industry experience of 20 years. He has written more than 50 research articles published in National and International Journals. He is specialized in Corporate Law, IPR, Environmental law, Banking and Insurance laws. He has guided LLM and MBA students for dissertation / thesis. He participated in Annual Fest of Association of American Law Schools during 2012, on their invitation.

Dr. Sriram Birudavolu, CEO, Cyber security center of Excellence, Hyderabad, the head of Information Sciences at T-Hub, Dr. Sriram Birudavolu is focused on developing and driving the Digital Innovation and ICT Strategy for the T-Hub ecosystem.

He has extensive global experience in the IT/ICT/Telecom/Media industry, including senior leadership and management roles with reputed MNCs like Siemens, Hewlett-Packard, VeriSign and Oracle.

He has led multi-million dollar global engagements with top and mid-tier customers in the ICT/Telecom/Analytics industry in several countries including the USA, Germany, Japan, Singapore, Malaysia, UK, the Middle-East, Africa, Philippines and India. He is also a TOGAF 9 Certified Enterprise Architect and a PMP.

Rama Mohan sir is working as Superintendent of Police, In AP

Mr. U.Ram Mohan worked in APFSL as Computer Forensic Expert and Explosives expert, and also designed and developed CLUES teams for crime scene investigation.

He took part in technical investigation of around 5000 cases of bombs and bombings and defused more than lakh bombs of various types.

He has handled over 400 cases involving digital evidence and 500 cases of digital crime investigation including Satyam case, Navy Warroom leak case and Amway case etc,.

He is decorated with two UN International police medals for working in Kosovo during 2000-01 and in Haiti during 2009 -10 as peace keeping officer and trained many police officers of those countries. He is also decorated with Indian police medal for the year 2006.

His meritorious service has won him Two National Awards from Ministry of Home Affairs.

He received all the three A P state police medals in the combined state, for the distinguished service.

Recently he has been awarded with LIFETIME ACHIEVEMENT AWARD by Digital Investigators Association of India.

He has authored books and published many papers in International Publications.

He is a regular guest faculty for National Police Academy, AP Police Academy, CBI Academy, AP Judicial Academy, Central Detective Training School and various universities all over the country.

We extended our heartfelt thanks to the legal luminaries and dignitaries, Honble Justice Prakash Rao sir and Honble Justice Yethirajulu sir Dr.Sriram Birudavolu, Mr. U.Ram Mohan, Mr. Ashok Ram Kumar for sparing their valuable time in enlightening the virtual audience through their practical impressions and valuable insights in to the subject, explaining the nitty gritty and different shades and nuances of the webinar topic Hacking and Network Intrusions: Techno - Legal Formulations with an unambiguous perspective , lot of clarity and immaculate perspicacity.

We extended our bouquet of thanks to our Director Sir for his untiring efforts, unflinching support and relentless guidance in boosting our morale, reinvigorating and reinforcing our enthusiasm by providing a robust academic horizon for students and faculty together. Of course without his help; it would not have been possible to coordinate the webinar.

We expressed and extended vase of thanks to the attendees representing different educational institutions - colleges, Universities, and professional organizations, dear colleagues and students whose presence made the programme lively and dynamic through their gracious virtual presence and online inquisitive queries.

Report on World IP Day 2021

Theme: IP & SMEs: Taking Big Ideas to the Market

1. **Speaker: Prof. Dr. AV Narsimha Rao**

Topic: Importance of the theme for World IP Day 2021

It was important to understand the very topic and it is a crucial moment to develop and reorganize our small and medium enterprises. This is more important for country like India which has a very large population dependency on requiring employment and livelihood. It can be noted that leveraging IPR can provide these SMEs with a wherewithal to build resilient business and become more competitive. A suitable IPR would be able to help the SME to protect their innovation in technology or otherwise (patents), build their brand (trademarks), secure their designs and creative works and not only this the local producers may also get geographical indications (GI) and agricultural producers may benefit from plant variety protection. Cultural and Traditional Knowledge of indigenous SMEs may also be protected and prospered.

2. **Speaker: Prof. Dr. G.B. Reddy**

Topic: SMEs contribution to Global Economy

SMEs play a major role in contribution to the Global GDP and this has been further encouraged by the World Bank Organisation. It has been observed that SMEs play a very critical role in the world economy by contributing to the employment. As per a report published in 2015, approximately 600 million jobs would be required over the next 15 years and predominantly most of the formal jobs that are available in developing markets are created by SMEs which is almost 4 out of 5 jobs available in the market. Despite playing a vital role in the development of the economy, it has been observed that around 50% of the SMEs lack access to finance or capital investment. At any given point of time, the formal SMEs create around 33% of the national income and 45% of the total employment in developing countries. When we include the informal SMEs in the list, the numbers rise even higher.

3. **Speaker: Prof. Dr. P. Sree Sudha**

Topic: Role of MSMEs & IPR in promotion of Bioprospecting and Benefit Sharing.

Biodiversity and its relation with IPR are very booming topic in the current discussion of IPR. Studies are underway about its relation yet biodiversity conservation, accesses and benefit sharing (ABS) in the use of genetic resources and the protection of IPR to stimulate innovation is an internationally agreed objective now and the ABS legal regime for South Africa which governs biodiversity and the use of indigenous biological resources and it involves the use of indigenous genetic and biological resources and their exportation for the purpose of bioprospecting or any other research purpose and various interests groups does see

the value of potential grow in both ABS and IPR yet IPR assets in MSME can be beneficiary in making the legal monopolies investments in which it will allow them to be ahead of their competition as IPRs being negative rights, outrightly stop others from practising, using or selling any product or service that infringes on any of their IPRs.

4. **Speaker: Mrs. V. Swapna**

Topic: MSME Schemes for innovation support

MSME provides economical benefits and hence there has been schemes and steps taken in order to grow this specific field. Many a times our Hon'ble Prime Minister Mr. Narendra Modi had given emphasis on the growth of skill India through MSME support. The Scheme of PRISM (Promoting Innovations in individuals, Start-ups and MSME) is one such where aims at to support individual innovators which will enable to achieve the agenda of inclusive development - one of the thrust areas of 12th five-year plan (2012-2017) and also programs for India which has been commissioned by BMZ whose objective has been that with the support of the programme, selected MSMEs have enhanced their capacities for developing inclusive and sustainable developments.

5. **Speaker: Adv. Ashok Ram Kumar**

Topic: Indigenous Inventions and SMEs.

SMEs run by indigenous people's do have a chance that they may face additional challenges and concerns as they begin to navigate the IP Systems and while that may seem daunting at first glance, there are some key approaches that can be taken and indigenous SMEs can take the benefit of the IP. These are can be done by these 8 approaches. 1. Protect your contemporary traditional culture expressions with copyright. 2. Use industrial design rights to protect the way your products look and feel. 3. Register distinctive indigenous words, names and symbols as trademark. 4. Distinguish your goods/services with certification/collective marks. 5. Link your goods and services to a place with geographical indication. 6. Protect your innovations based on traditional knowledge. 7. Keep your traditional knowledge confidential with trade secrets. 8. Use unfair competition laws as a Défense mechanism.

WEBINAR ON IP & SMES: TAKING BIG IDEAS TO THE MARKET

LIST OF PARTICIPANTS

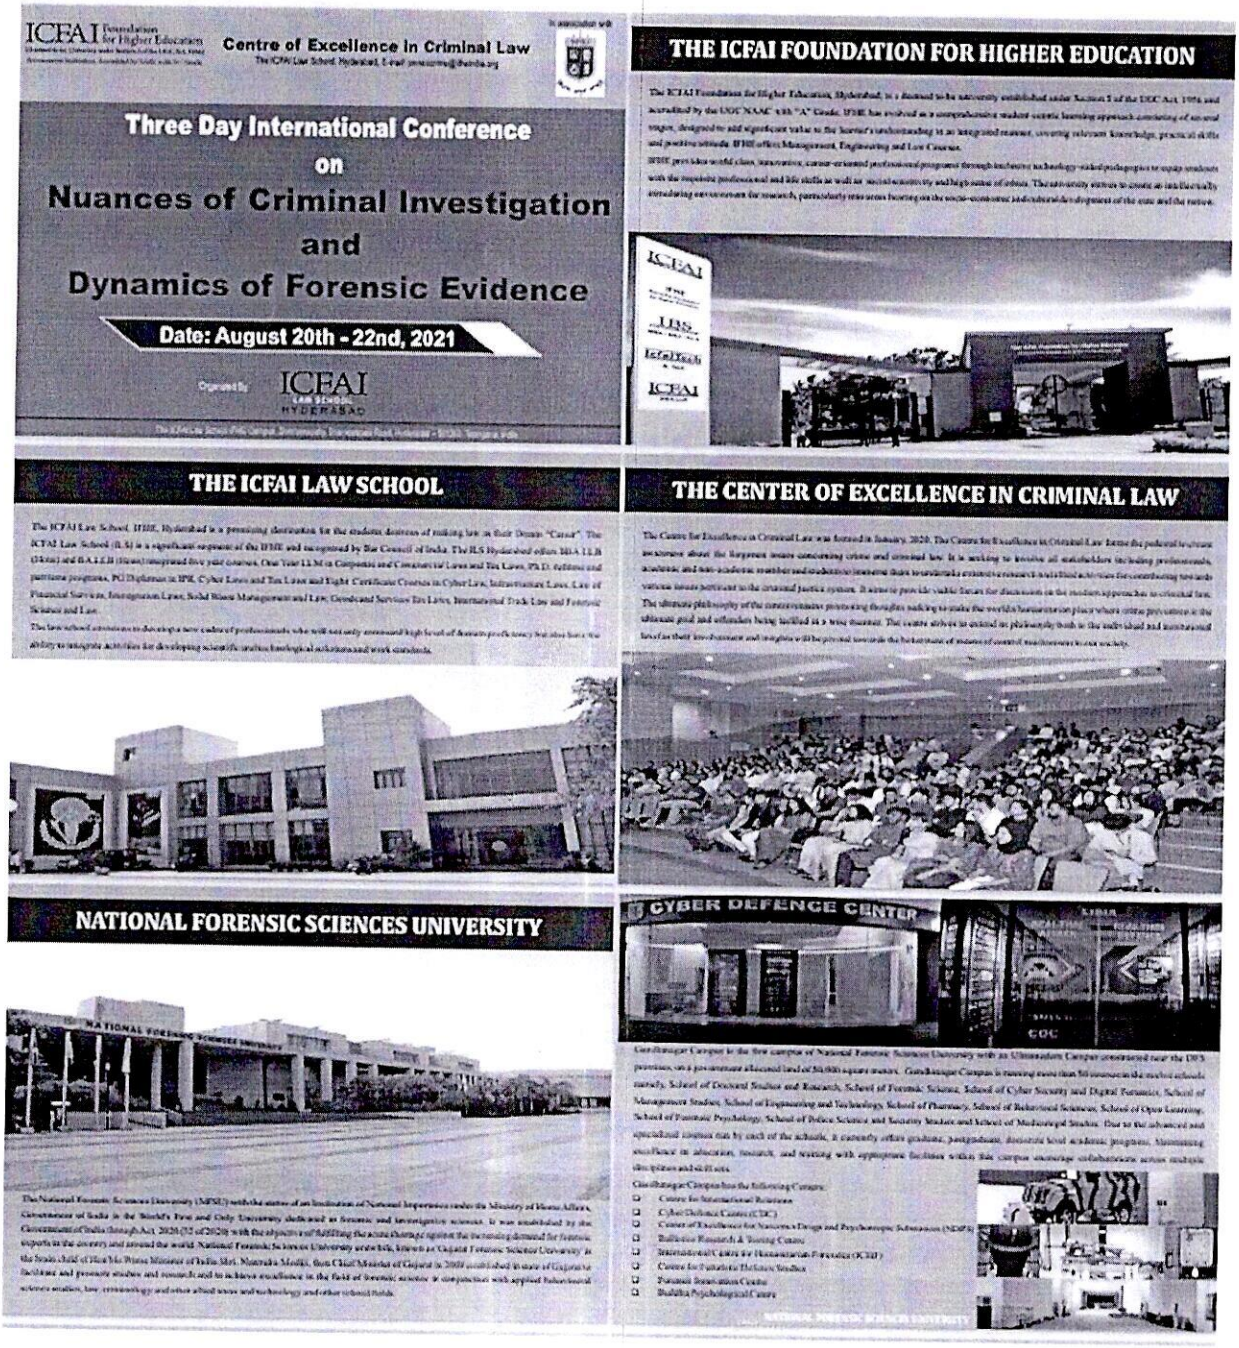

1. Sneha Dutta ,
   Student, Dibrugarh University
2. Abhisekh Rath,
   Student, KiiT School of Law

INTERNATIONAL CONFERENCE ON "NUANCES OF CRIMINAL INVESTIGATION AND DYNAMICS OF FORENSIC EVIDENCE"

The Centre for Excellence in Criminal Law proposes to organise an international conference on "Nuances of Criminal Investigation and Dynamics of Forensic Evidence". The entire foundation of justice delivery in criminal cases depends in most jurisdictions on the evidence available to the court. From mere witness examination to high level forensic investigation, evidence has travelled multidimensionally in the past few decades. Forensic evidence enters the criminal justice system through a crime scene and continues to remain even past a judgment of acquittal or conviction. The interaction of the criminal justice processes with forensic evidence is nuanced and its intricacies are difficult to decipher sometimes. Beginning with maintaining a chain of custody to appreciation of the forensic expert's testimony by the judge, the evidence itself travels through many stakeholders and the decision based on it ultimately impacts the perpetrator and the victims.

This conference is an attempt to provide a platform for discussion of the current issues involving forensic evidence and criminal investigation. We aspire to make it a holistic event by bringing in interaction in various aspects of the subject. The conference aims to amalgamate theory and practice in the field by gathering stakeholders including forensic experts, police personnel, academicians and criminal justice professionals.

In this regard, it is proposed that the conference be hosted by ICFAI Law School, Hyderabad in collaboration with the National Forensic Science University, Gujarat. The said international conference will be hosted on a virtual platform.

Proposed dates of the conference: 20th August 2021 – 22nd August 2021.

The event will be subdivided into individual sessions in addition to the inaugural and valedictory ceremonies. All other details of the said conference are to be decided by mutual deliberations between the two institutions.

ICFAI Law School Hyderabad and NFSU, Gandhinagar are organizing a conference on Nuances of Criminal Investigation and Dynamics of Forensic Evidence, on August 20th-22nd, 2021.

About the Organizer

The ICFAI Law School, IFHE, Hyderabad is a promising destination for the students desirous of making law as their Dream "Career". The ICFAI Law School (ILS) is a significant segment of the IFHE and is recognized by the Bar Council of India. The ILS Hyderabad offers B.B.A.LL.B (Hons) and B.A.LL.B (Hons) integrated five-year courses, 1-Year LLM in Corporate and Commercial Laws and Tax Laws, PhD full-time and part-time programs, PG Diplomas in IPR, Cyber Laws and Tax Laws and Eight Certificate Courses in Cyber Law, Infrastructure Laws, Law of Financial Services, Immigration Laws, Solid Waste Management and Law, Goods and Services Tax Laws, International Trade Law and Forensic Science and Law.

The law school envisions to develop a new cadre of professionals who will not only command a high level of domain proficiency but also have the ability to integrate activities for developing scientific and technological solutions and work standards.

The National Forensic Sciences University (NFSU) with the status of an Institution of National Importance under the Ministry of Home Affairs, Government of India is the World's First and Only University dedicated to forensic and investigative sciences. It was established by the Government of India through Act, 2020 (32 of 2020) with the objective of fulfilling the acute shortage against the increasing demand for forensic experts in the country and around the world. National Forensic Sciences University erstwhile, known as 'Gujarat Forensic Science University is the brainchild of Hon'ble Prime Minister of India Shri Narendra Modiji, then Chief Minister of Gujarat in 2009 established in the state of Gujarat to facilitate and promote studies and research and to achieve excellence in the field of forensic science in conjunction with applied behavioural science studies, law, criminology and other allied areas and technology and other related fields.

Details about the Event

The Centre for Excellence in Criminal Law proposes to organise an international conference on "**Nuances of Criminal Investigation and Dynamics of Forensic Evidence**". The entire foundation of justice delivery in criminal cases depends in most jurisdictions on the evidence available to the court. From mere witness examination to high-level forensic investigation, evidence has travelled multidimensionally in the past few decades. Forensic evidence enters the criminal justice system through a crime scene and continues to remain even past a judgment of acquittal or conviction. The interaction of the criminal justice processes with forensic evidence is nuanced and its intricacies are difficult to decipher sometimes. Beginning with maintaining a chain of custody to the appreciation of the forensic expert's testimony by the judge, the evidence itself travels through many stakeholders and the decision based on it ultimately impacts the perpetrator and the victims. This conference is an attempt to provide a platform for discussion of the current issues involving forensic evidence and criminal investigation.

They aspire to make it a holistic event by bringing in interaction in various aspects of the subject. The conference aims to amalgamate theory and practice in the field by gathering stakeholders including forensic experts, police personnel, academicians and criminal justice professionals. The conference is hosted by ICFAI Law School, Hyderabad in collaboration with the National Forensic Science University, Gujarat. The said international conference will be hosted on a virtual platform.

Themes

- Exploration of Forensics in the Criminal Justice System
- Crime Scene Investigation and Forensic Evidences
- Admissibility of Forensics and Digital Evidence in Criminal Courts
- Cyber Security Forensics / Relevancy of Forensics in Cyber Security
- Innovations and Challenges in Forensic Investigation

Sub-themes

- Forensic Epistemology
- Crime scene process, management and construction
- Forensic analysis and tools
- Crime scene Investigators and Technicians
- Evidentiary value of Forensics and legal implications
- Forensic encryption
- Digital Forensics Techniques and Tools
- Transforming Forensics

THREE-DAY INTERNATIONAL CONFERENCE ON NUANCES OF CRIMINAL INVESTIGATION AND DYNAMICS OF FORENSIC EVIDENCE

20TH AUGUST 2021 – 22ND AUGUST 2021

The Centre for Excellence in Criminal Law, ICFAI Law School, Hyderabad during this pandemic time, fighting against the odds and with tremendous motivation and spirit, in collaboration with the National Forensic Science University, Gandhinagar has organized a Three-Day International Conference on "Nuances of Criminal Investigation and Dynamics of Forensic Evidence", from 20th to 22nd August 2021. Today, i.e., 20th August 2021 marked the inaugural day for the three-day event.

The three-day International Conference on 'Nuances of Criminal Investigation and Dynamics of Forensic Evidence' marked its beginning on 20th August 2021 at 2:30 pm, only to continue for a period of three days till 22nd August 1:30 pm as a successful venture.

The inaugural session of the three days' event has been graced by Shri Dwaraka Tirumala Rao IPS, Vice Chairman and Managing Director, APSRTC, DG AP Police, Prof. Dr. J. M. Vyas, Vice Chancellor, National Forensic Science University Gandhi Nagar, Prof. Haragopal Reddy, Advisor to the ICFAI Group and former Vice Chancellor, Acharya Nagarjuna University and Prof. Dr. A. V. N. Rao, Director, ICFAI Law School Hyderabad ICFAI University, IFHE, Hyderabad.

The ceremony also witnessed the launching of the Conference Proceeding Book containing the contributions by the participants; messages by Dr. J Mahender Reddy, Vice Chancellor, IFHE, Prof. A. V. N. Rao, Director, ICFAI Law School, IFHE, Dr. J. M. Vyas, Vice Chancellor, National Forensic Science University, Gandhinagar, Dr. S. O. Junare, Campus Director, National Forensic Science University, Gandhinagar, Dr. K. S. R. R. Jain, Coordinator, Centre for Excellence in Criminal Law, ICFAI Law School Hyderabad. It was a virtual launch.

All the sessions of the conference including the inaugural and the valedictory ceremonies were conducted on the zoom platform.

TECHNICAL SESSION-I –EXPLORATION OF FORENSICS IN THE CRIMINAL JUSTICE SYSTEM on 20th August 2021, from 4:00 pm to 5:45 pm.

Keynote speaker - Dr. WILLIAM BELCHER, Associate Professor, University of Nebraska-Lincoln, USA.

Chair: Dr. Abraham Johnson, Assistant Professor, National forensic science University, Gandhinagar

Co-Chair- Dr. Himavathi. T, Assistant Professor, ICFAI LAW SCHOOL, IFHE, Hyderabad.

In his keynote address, Dr. Belcher has thrown light on concept of anthropology in USA and its division into 4- forensic archaeology, physical anthropology, cultural /social sciences and

linguistics. He highlighted on 1]significance in protection of evidence, 2] as to how to conduct activities in an ethical manner while collecting evidence,3]and the process involved in achieving the goals of forensic archaeology both on land and in water.4] needs lot of skills to record forensic evidence .5 and so held that proper training for the same is required and more so spatial relationship outdoor/indoor - in evidence is a must, lastly he said that documentation and meticulous recording of evidence ethically of evidence so collected plays an important role in forensics.

The presenters in this session have deliberated on the need for forensic evidence, the various kinds of forensic evidence available for the fair trial in criminal jurisprudence, while throwing light on requirement of more authenticity for forensic evidence.

TECHNICAL SESSION-II – CRIME SCENE INVESTIGATION AND FORENSIC EVIDENCE on 21st August 2021, from 10 am to 11:45 am.

Keynote speaker- Dr. Asha Srivastava, Principal Scientific Officer, CFSL, Central Bureau of Investigation, New Delhi

Chair- Dr. N. Venkanna, HOD, Clues Team, Hyderabad City Police

Co-chair - Dr. K. S. Rekh Raj Jain, Assistant Professor, ICFAI Law School, Hyderabad

In the keynote address Dr. Asha has thrown light on procedure of investigation done on report of commission of crime, through her practical experiences and aid that forensic evidence helps in coping with proper prosecution evidence as in India its adversarial system needs to be beyond doubt.

Dr. Venkanna sir has elucidated the significance of forensic evidence and the clue teams which have given breakthrough in many cases –to provide justice in true sense by punishing the offenders and also the efficiency of teams of forensics and clues team of police team .

The co-chair also has emphasized on the need for support to prosecution/police in collection of evidence for fair trial.

The paper presentations reflected on the techniques of forensic scientific methods in investigation and the legal implications of evidentiary value of forensics .

The presentations also referred to digital crime and financial crimes and the need for forensic accounting to adduce evidence in economic offences at large.

TECHNICAL SESSION-III - ADMISSIBILITY OF FORENSICS AND DIGITAL EVIDENCE IN CRIMINAL COURTS on 21st August 2021, from 12 noon to 1:45 pm.

Keynote speaker - Judge Keith Barnes, Fifth District Court Judge, 206W, Tabernacle Street, Saint George, Utah, U. S. A.

Chair- Dr. Anita Evangelin, Joint Director, Telangana State Forensic Science Laboratory, Hyderabad

Co-chair – Ms. Anwesha Panigrahi, Assistant Professor, ICFAI Law School, Hyderabad.

Keynote speaker Judge Barnes has addressed on the administration of justice in criminal law in USA while discussing on few American cases as such and he has emphasized on the need for truthful evidence by using latest technology by forensics so that NO INNOCENT PERSON SHOULD BE PUNISHED. Judge has also cited certain cases where because of lack of proper evidence innocent were punished AND so held that a JUDGE IS GATEKEEPER and must work with highest integrity in adjudication. He also has thrown light on organization – INNOCENT PROJECT, which mainly investigates the victims of wrong adjudication by courts, who have been punished. He stated that the need of the hour is for all to come together and more so the Judge must apply higher sense of legal logical approach in adjudication of criminal cases for proper justice to be rendered.

And chair Anita mam has spoken on the evidence of forensics in reaching to identify the true culprit.

The presenters have vociferously presented on forensic evidence like - digital, DNA evidence, narco-analysis test, electronic evidence and the limitations on forensic evidence -as only corroborative evidence, wherein it's a relevant evidence, but used only in certain circumstances. THE Presentations have thrown light on the necessity for legislation to make forensic evidence as a relevant evidence, where in the court must look at not as discretionary.

TECHNICAL SESSION-IV - CYBER SECURITY FORENSICS /RELEVANCY OF FORENSICS IN CYBER SECURITY on 21st August 2021, from 3:00 pm to 4:45 pm.

Keynote speaker - Sri U. Rama Mohan, Superintendent of Police, Andhra Pradesh

Co-Chair - Dr. Md. Akbar Khan, Associate Professor, ICFAI Law School, Hyderabad.

Sri. U. Rama Mohan sir has addressed by giving practicalities in cyber security n the role played by the police who are trained by the latest technical knowhow. Also, the fixed state of police in collection of evidence beyond doubt. He has also thrown light on open-source techniques of collection of evidence. Sir also clarified that data and information are not synonyms and subtle differences between them.

Cochair- Dr. Akbar has also emphasized on the lines of chair for the necessity of forensic technology in cyber security.

The presenters have thrown light on role of forensics in digital technology- mobile devices, artificial intelligence, and in crime investigation. The deliberations also were critical in thinking of cyber security techniques and need for structural reconfiguration and to rethink of use of forensics sciences in the age of privacy .and need / look in for amendments in legal system and governance to curb cyber terrorism.

TECHNICAL SESSION-V - INNOVATIONS AND CHALLENGES IN FORENSIC INVESTIGATION on 22nd August 2021, from 10:00 am to 11:45 am.

Chair- Dr. T. R. Baggi, Director (Retd.), Central Forensic Science Laboratory, Hyderabad and Founder, Forensic Science Unit, Dept. of Chemistry, Osmania University

Co-chair-Dr. Sumanta Meher, Assistant Professor, ICFAI Law School Hyderabad.

Chair has addressed on the various innovations in forensic in investigation.

And co-chair has added by addressing those forensic sciences is a dynamic subject and laid emphasis that it must be helpful in adducing truth, only truth for an investigation to be ethical n proper.

The paper presenters have deliberated on the investigation methods and the significance of forensic techniques in removing the illegalities in investigation and on in deciphering crypto currencies in the internet era and the neurobiological variants in adjudicating the criminal culpability.

The Chair has thrown light on misuse of forensic technology in prosecution cited Birmingham train case and said for trained and certified forensic labs NABL accreditation is authentic. EVERY LAB HAS TO BE ACCREIDITED is the need of the hour and training for judicial officers and police officers periodically.

Also, to train them to appreciate the value of forensic evidence. Secondly, person collecting samples must be well trained. Lastly, evidence must be collected properly.

It is necessary to plug out loopholes in collecting evidence. And also focused on toxic substances and their dose – therapeutic, toxic or overdose/homicidal.

Cryptocurrency and the dark web tremendous misuse of technology –ex illicit sale of drugs, liquor, lacunae present day Forensic labs r not well equipped in tackling narco-terrorism and presently a project -CAPACT by Netherlands is looking into for cooperation in reducing the offences. Neuro-criminology can be a new forensic evidence but needs certain tests /techniques validation to adopt. Medical Engineering Dept of Bangalore EEG –ELECTRO ENCEPHALOGRAPH, claim that new development instead of brain mapping.

The valedictory ceremony was conducted on 22nd August 2021, from 12:30 pm to 1:30 pm. The best paper prizes for the first, second and third best paper were announced in the ceremony. The first best paper prize was awarded to Dr. J. R. Gaur, Kanika Gaur and Shakti Prakash Mishra for their paper on 'Police Ills: Forensic Solutions', second best paper prize to Abhishek Sharma Padmanabhan and Dr. Sapna S. for their paper on 'The role of DNA Evidence in Criminal Trials – An enquiry into the extent of its relevancy and conclusiveness' and the third best paper prize to Ms. Sumiti Ahuja for her paper on 'Challenges to the Admissibility and Evidentiary Value of Forensic Evidence in Criminal Justice System'. The programme was concluded by a vote of thanks by Ms. Anwesha Panigrahi.

SOFTWARE PATENT PROTECTION: GLOBAL SCENARIO
BY: MARKPATENT.ORG

Today, many technological innovations rely on software advances. Take the software-related innovations that have revolutionalized the smartphone. Between 2009 and 2013, the total aggregate lines of code in the chips – the brains of the smartphone – shipped by Qualcomm increased from 330 million to 3.3 billion. These phenomenal and unprecedented developments were the result of years of high-risk R&D investment.

Software-implemented functionality is making an expanding range of everyday products safer and more efficient with higher performance. It is creating entirely new offerings and capabilities, such as intelligent power grids, digital manufacturing, real-time farm management systems, smart cities powered by interconnected (Internet of Things) platforms, and digital healthcare.

Estimates suggest that the digital economy – which relies heavily on software-related innovations – already represents 22.5 percent of the global economy.

Global R&D spending on software offerings has also grown rapidly, rising from USD 86 billion in 2010 to USD 142 billion in 2015, an increase of 65 percent.

The United States has one of the most software-intensive industries in the world (see Robert J. Shapiro, *The U.S. Software Industry: An Engine for Growth and Employment,* SIIA, 2014). In 2014 alone, the industry directly added an estimated USD 475.3 billion – and USD 1.07 trillion indirectly – to the country's GDP, directly employing 2.5 million people and indirectly supporting some 9.8 million jobs.

The benefits of patent protection

As a general rule, new inventions in any field of technology qualify for patent protection if they are novel, non-obvious, and useful (criteria of patentability are set out in national patent laws). Patent protection offers significant benefits to innovators:

- ensuring inventors get a reasonable return on their commercially successful innovations;

- making it easier for innovation-based startups and small businesses to establish fruitful business collaborations;
- promoting the systematic sharing of knowledge through patent disclosure, itself an important driver of innovation; and
- helping attract investment partners and support business expansion.

Yet patent laws generally do not treat software-related inventions in the same way as other novel technological advances. This may be due to a lack of understanding of either the nature of software innovation or of the protection afforded by different IP rights.

Which IP rights are relevant to software protection?

Historically, IP laws have influenced the success of the software industry by providing software developers with a legal mechanism through which to capture at least some of their innovation's market value. Since at least the 1960s, the software industry has relied on three distinct IP protection regimes: trade secrets, copyright, and patent law. The scope of protection offered by each has varied significantly over time, as has the software industry's reliance on them.

History shows that patent law offers the most effective framework for protecting an invention's functionality. In many countries, however, a distinction is drawn between inventions implemented in hardware, which are patentable, and inventions implemented in software (i.e. computer programs), which are protected by copyright law. But in a world in which the Internet – and not hardware such as CDs – is the prime channel for software distribution, this legal distinction makes it difficult for inventors of software-related inventions to effectively protect and leverage the commercial value of their inventions through IP systems.

These innovative contributions are no less significant than hardware-based innovations. Computer programs, including software-related inventions, are products in their own right regardless of how they are distributed.

INTERNATIONAL WEBINAR ON SOFTWARE PATENT PROTECTION : GLOBAL SCENARIO

LIST OF PARTICIPANTS

1. R.LAKSHMI SANJANA,
   FACULTY IN LAW, GOVERNMENT LAW COLLEGE,VELLLORE
2. Swati, Student, Delhi university
3. Dr. Y Gangi Reddy,
   Associate Professor, ICFAI Law School, IFHE, Hyderabad

ICFAI Law School

Career Guidance Series

Program Title : "Professional Opportunities in the New Age"

Date : 21/09/2021; 3.00 pm

Speaker : Mr.Ravikumar, CEO - EzLaw

About EzLaw:

ezLAW Technologies Pvt. Ltd. is a new-age Legal-Tech Company based in Hyderabad that provides various services with the aim of revolutionizing conventional legal practice in the Country. ezLAW provides services that allow lawyers to focus on their work and perform to their best abilities while ensuring that clients have easy access to legal services.
Building a network and gaining experience are two key factors that determine the success of legal professionals across the world.

About the Speaker:

Mr.Ravikumar, CEO – EzLaw is an IIM-A graduate and passionate for technology, new ideas and disruptive innovation.

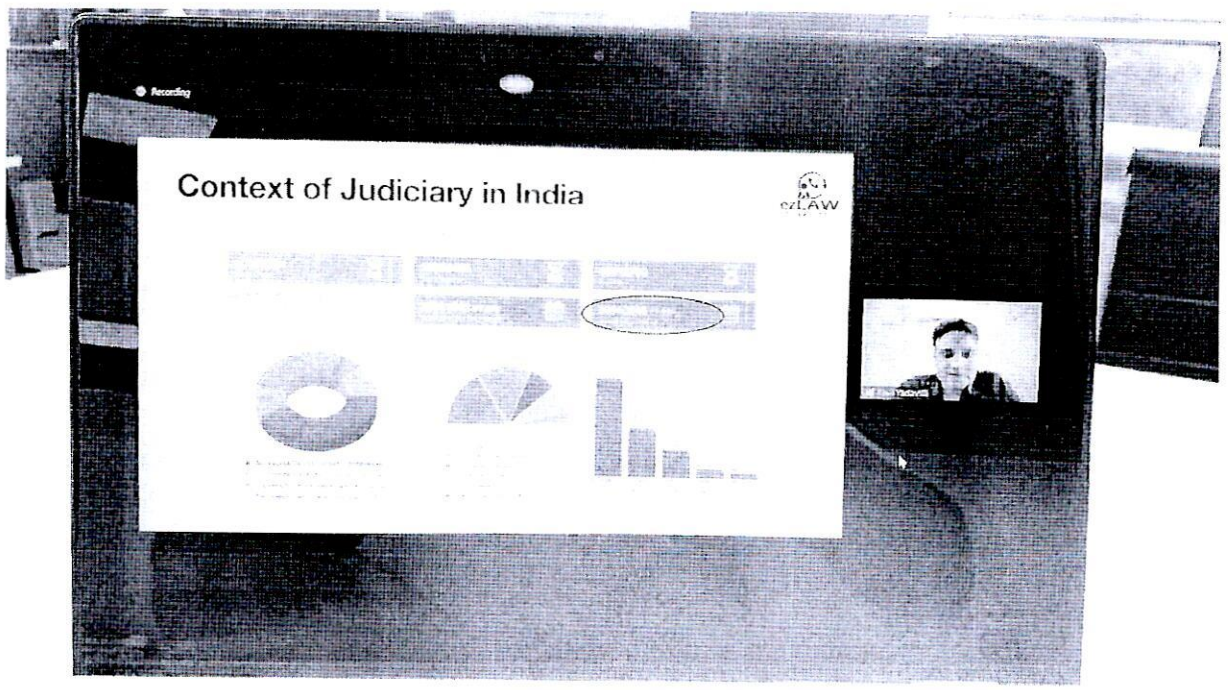

The program began with Dr.K.Hariharan introducing the speaker and briefed on how the session will help students to enlarge their knowledge base in the era of New Age Business.

Prof. A.V. Narasimha Rao, Director – ICFAI Law School in his speech highlighted the importance of students planning their career path and taking the right decisions leading to Higher Education or Litigation or Employment. He spoke in depth on the various aspects of career guidance programs which will enlighten the students and that domain experts will help them to deep dive into Professional Avenues, Competencies, soft skills, CV building & Interview process. He also advised students to pursue their goals and stay committed, unmindful of adversities.

Ravikumar opened up with how the Legal Profession is transforming with the advent of technology. He showcased data of various aspects of pending cases in the courts. The speaker threw light on Law Commission Reports on Reforms in Judiciary and changing canvas in the legal arena. He also added how Legal Tech companies add value to the process and highlighted the importance of Skill sets -Communication, Analytical, Negotiation and Out of the box thinking plays a vital role.

A brief Q&A window was open for students to interact.

The meeting ended with a formal vote of thanks.

Report on

International Webinar on "Intellectual Property Prosecution, Filing & Enforcement during Covid-19 Pandemic

(10^{th}& 20^{th} July 2020)

Session 1 : 10^{th} July 2020

Speakers: Mr. Ramakrishna Damodharan, Managing Director, Adipven, Malaysia, Mr. Ashok Ram Kumar, Founder, Wordict-IP, Hyderabad

In this webinar the speakers highlighted on the various procedures and practices adopted in prosecuting, filing and enforcement of Intellectual Property Rights during the COVID-19 Pandemic period in Malaysia and in India along with the Court decisions.

He highlighted the importance of Intellectual Property Prosecution and stated that The Government Authorities including Police are bound to execute and enforce the orders of Court, and as such the Courts are empowered to direct any government authority to do or not to do or prevent / compel any person to comply with the orders of the Court. There are effective methods for the enforcement of the orders of the Court, including Contempt of Court proceedings, which provides for a fine as well as imprisonment, in case of non-compliance of the order of the Court. Execution/ compliance of the orders of the court are also done by way of appointment of the Local Commissioner/Receivers by the Court. In India, certain State Governments have formed Special Intellectual Property Cells, which deal with offences relating to infringement of IPR.

In any civil action for enforcement of Intellectual Property Rights, the following reliefs may be claimed in such suit i.e. Permanent Injunction; Interim Injunction; Damages; Accounts and handing over of profits, Anton Pillar Order (Appointment of Local Commissioner by the Court for custody/ sealing of infringing material/accounts), Delivery up of goods/packing material/dies/plates for destruction.

Additionally, in case of infringement of Trademark, infringement of Copyright, Geographical Indication, Plant Variety and Semiconductor Integrated Circuits Layout Design following Criminal action can also be initiated, Registration of First Information Report (FIR); or Filing of a Criminal Complaint before a Competent Magisterial Court with application for issue of search and seizure warrants directing the police to raid of the premises of the accused for seizure of the infringing material and arrest of the infringers.

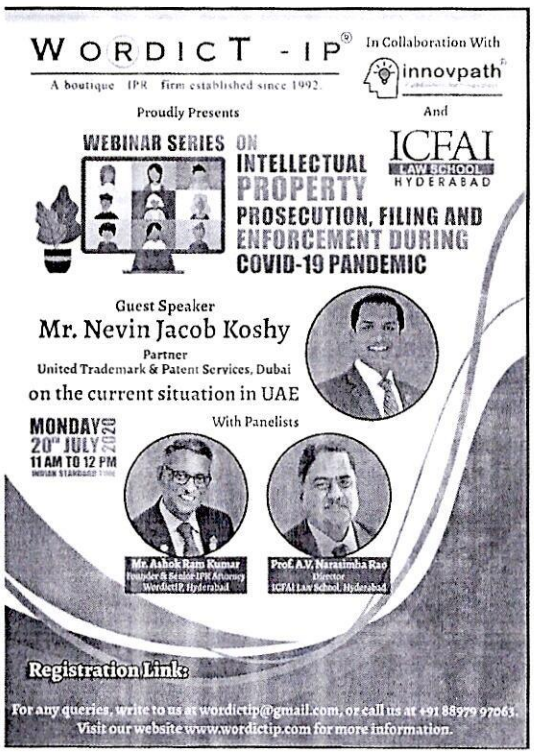

To enjoy most types of intellectual property (IP) rights in India, you should register them. For patents, individual registrations must be made in India, but for rights other than industrial designs you can apply under the terms of the Patent Cooperation Treaty, which is usually easier and quicker. For trade-marks, you should register them within India, either through the domestic trade mark system or under the Madrid system. For copyright, no registration is required but registering copyrights with the copyright authorities is advisable. 'Priority rights' under the Paris Convention can help in the local registration of trade marks, designs and patents by allowing rights previously registered elsewhere to become effective in India, if filed within a time limit. Intellectual Property Rights in India Enforcing IP rights in India IP rights can be enforced by bringing actions to the civil courts or through criminal prosecution. India's IP laws set out procedures for both civil and criminal proceedings, as does the Competition Act. Criminal proceedings do not apply to patent and design infringements.

He stated that the disadvantage of civil litigation is that you are unlikely to recover large damages, and punitive damages against an infringer are rare. However, if you have an identified infringer, it may be advisable to launch civil litigation, because if an interim injunction is granted the infringement can be halted pending the outcome of the case. Damages are routinely awarded in cases of copyright piracy and trade mark infringement (which come under criminal litigation); less so in patent cases. Over the years, however, decisions in favour of foreign companies against local infringers have demonstrated the judiciary's impartial approach. As in other countries, the Indian Government brings actions in criminal cases, although in most cases actions follow complaints to magistrates or police authorities by rights owners. Criminal proceedings against infringers carry the prospect of much harsher remedies, including fines and imprisonment. Mediation or negotiation with an infringer can also be effective as an alternative form of dispute resolution. The Civil Procedure Code provides for a formal mediation process.

Session 2 : 20th July 2020

Speaker : Mr. Nevin Jacob Koshy, Partner, United Trademark and Patent Services, Dubai

The speaker spoke on the protection of Intellectual Property Rights in the UAE Countries in general and Dubai in particular. The presentation includes on the methods and practices which are adopted in the filing, enforcement and prosecution of the issues of Intellectual Property Rights during COVID-19 Pandemic in Dubai.

INTELLECTUAL PROPERTY PROSECUTION FILING AND ENFORCEMENT DURING COVID-19 PANDEMIC

LIST OF PARTICIPANTS

   Associate Professor, ICFAI Law School, Hyderabad
3. Dr. Y. Gangi Reddy,
   Associate Professor, ICFAI Law School, Hyderabad
4. Dr. Madhuri Irene M.,
   Associate Professor, ICFAI Law School, Hyderabad
5. Dr. Md. Akbar Khan,
   Associate Professor, ICFAI Law School, Hyderabad
6. Dr. P. Kesari,
   Associate Professor, ICFAI Law School, Hyderabad
7. Dr. K. Durga Prasad,
   Associate Professor, ICFAI Law School, Hyderabad
8. Mr. Ashok Ram Kumar,
   Associate Professor, ICFAI Law School, Hyderabad
9. Mr. S. Ravi,
   Assistant Professor, ICFAI Law School, Hyderabad
10. Dr. K.S.Rekhraj Jain,
    Assistant Professor, ICFAI Law School, Hyderabad
11. Mrs. Sridevi D. Shet,
    Assistant Professor, ICFAI Law School, Hyderabad
12. Dr.. P.L. Jayanthi Reddy,
    Assistant Professor, ICFAI Law School, Hyderabad
13. Dr. S. Uma Devi,
    Assistant Professor, ICFAI Law School, Hyderabad
14. Mr. D.V.N. Murthy,
    Assistant Professor, ICFAI Law School, Hyderabad
15. Mrs. Geetha Priyadarshini,
    Assistant Professor, ICFAI Law School, Hyderabad
16. Dr. K.V.Ravi Kumar,
    Assistant Professor, ICFAI Law School, Hyderabad
17. Mrs. Astha Srivastava,
    Assistant Professor, ICFAI Law School, Hyderabad
18. Mr. Dilip Sharma,
    Assistant Professor, ICFAI Law School, Hyderabad
19. Ms. Anwesha Panigrahi,
    Assistant Professor, ICFAI Law School, Hyderabad
20. Mr. K. Raja Sekhar Reddy,
    Assistant Professor, ICFAI Law School, Hyderabad
21. Mr. S. Rakesh,
    Assistant Professor, ICFAI Law School, Hyderabad
22. Dr Y. Sai Krishna,
    Assistant Professor, ICFAI Law School, Hyderabad
23. Dr. A. Arun Kumar,
    Assistant Professor,
    ICFAI Law School, Hyderabad
24. Dr. Iti Vyas,
    Assistant Professor, ICFAI Law School, Hyderabad
25. Dr. K. Hari Haran,

Assistant Professor, ICFAI Law School, Hyderabad

26. Ulviyan Ghani,
Student, Aligarh muslim university malappuram centre kerala
27. Daksha Gautam,
Law Student 3rd year,
Fairfield institute of technology management
28. RENJI T ROY,
Student, Kerala Law Academy, Law College
29. Shivani Gupta,
Assistant professor, Srms College of law
30. Linu m, Student,
Kerala law academy law college
31. Niddhi , Advocate, Delhi High Court
32. Triyasa Gope,
Student, Siddhartha Law College, Dehradun
33. Triyasa Gope,
Student, Siddhartha Law College, Dehradun
34. Azeem Parvez,
Student, Jamia Millia Islamia, New Delhi
35. Darshana Suresh,
Student , RV Institute of Legal Studies
36. Dr.Gowri B Chanal,
Former Research Scholar , PG Dept. Of Studies in Law, Karnatak University Dharwad
37. Tarigopula Sarala Devi,
Student , Sri prasunna college of law kurnool
38. vaibhav shukla, Student, IIL Indore
39. Shelar Swati Naresh,
Student, MCT College of Law, Airoli
40. Sudipendu Pathak,
Student, The Assembly of God Church School, Purulia
41. Triyasa Gope,
Student, Siddhartha Law College, Dehradun
42. Triyasa Gope,
Student, Siddhartha Law College, Dehradun
43. Sudipendu Pathak,
Student, The Assembly of God Church School, Purulia
44. Viswanathan w k,
Student, Dr. Ambedkar Law University, Chennai
45. Yash Tonday,
Student, PIMR (Department Of Law)
46. Anita Childhood ,
Student , Karnavati university
47. Bhumi Tejra.
Student, Unitedworld school of law
48. Jai Mani Trivedi,
Student, Institute of Legal Studies, C.S.J.M. University Campus, Kanpur
49. Dr. B. Vijayalaxmi,
Principal, University College of law, Osmania University
50. Rizwan Ahmad,
Law Student, Aligarh Muslim University Malappuram Centre Kerala
51. Jigyasa Jain,
Student, Renaissance law college, Indore M. P.
52. Sayanika Saha,
Law Student, Aligarh Muslim University
53. Prasanna Kumar P,
Assistant professor, Sri kengal hanumanthaiya law college, kgf
54. Mohd Jahangeer, Student, Aligarh Muslim University
55. Bhargov Bikash Dutta,

Assistant Professor , SIPE Law College

56. Nitika Grover,
Student, Amity Law School, Noida
57. Kashifuzzama Khan Shaukat Khan,
Student, Adv Ramkrushnji Rathi Law College Washim
58. Barasha Kalita,
Advocate, National Law University and Judicial Academy, Assam
59. Sourodip Nandy,
Student, Symbiosis Law School
60. Vaishnavi Gupta,
Student, Symbiosis Law School
61. Sahida Yeasmin,
Student, Aligarh Muslim University
62. Dr Shrutimala Goswami,
Asst prof , NERIM Law College
63. Mohd Saleem Abdul Aziz Deshmukh, Student, Self
64. Muhammad Imran Ali,
Lecturer Department of Law, Lahore Leads University Pakistan
65. Urvashi Manocha,
Law Student, Chanderprabhu Jain College of Higher Studies & School of Law
66. Rishabh, Student,
Unity p.g. & Law college
67. Mohammad Talib Khan,
Student (LI.B), Shia College Of Law (University Of Lucknow)
68. Ranjita Biswas, Advocate, Legal
69. Binita Topno,
Law Student , S.I.P.E. Law college Dibrughar Assam
70. Sargun Kaur Sahni,
Student, Symbiosis Law School, NOIDA
71. Mokshita Sharma,
Law student , Symbiosis Law School
72. Sarthak Arora,
Research fellow, Guru Gobind Singh Indraprastha University
73. Megha Anand,
Research Assistant, High Court Jammu
74. Khushal Chand Agarwal,
Student, RNB Global University
75. Nisha,
Advocate, District court, kaithal
76. Neeru Mittal,
Assistant professor, Lovely professional university phagwara Punjab
77. Rajnish Jindal,
Assistant Professor, Symbiosis Law School, Noida
78. Sukriti Verma,
Student, Amity University
79. Siddhant kumar,
Student, ICFAI LAW SCHOOL HYDERBAD
80. Riya Bhardwaj,
Student, National University of Study & Research in Law, Ranchi
81. Meeval Mariam Varghese,
Student, ICFAI Law School
82. Baani Samrat,
Student, Vivekananda institute of professional studies
83. Namita Verma,
Research Scholar , Maharaja Agrasen University Solan Himachal Pradesh
84. Kirti Anand Sharma,
Student, Delhi University Faculty of Law
85. Nagma Parween, Student, Jawaharlal Nehru University

86. Smita S Angadi,
Assistant Professor, DBHPS Law College Koppal
87. Sheeja Baglary,
Student, K.L.E. Society's Law College
88. Himanshu Priyadarshi,
Assistant Professor, School of Law and Legal Affairs, Noida International University
89. Dr. R. Anthony Raj, Asst.Professor, L.N.Govt. College, Ponneri, TN
90. Rashmi Vohra,
Student, IME law institute
91. Samhitha Sharath Reddy,
Student, Tamil Nadu National Law University
92. P. Vasishtan, Student,
Tamil Nadu National Law University
93. Shweta Mishra,
Student, ITM University Raipur Chhattisgarh
94. Anshika Yadav,
Student , Faculty of Law, University of Allahabad
95. Sakshi Sabharwal,
Advocate, Enrolled in Delhi Bar Council
96. Swapnil Vashishtha ,
Advocate, Bar council of Delhi
97. Amit Kumar Pandey,
Student , HNLU Raipur Chhattisgarh
98. A.S.Rouban,
Student, The Central Law College
99. Neeta Mishra,
Doctor, Smriti Clinic Dalli Rajhara Balod
100. Anshita Thakur, BA LLB (Hon.)
Student, University Institute Of Legal Studies ,Shimla
101. Amrita Dubey,
Student, Thakur Ramnarayan College of Law
102. Anshita Thakur, BA LLB(Hon.)
Student, University Institute Of Legal Studies,Shimla
103. Amar Dubey,
Student, Thakur College of Science and Commerce
104. Jaspreet Kaur,
Student , Lovely Professional University, Jalandhar
105. Sanskriti Garg,
Student, Vivekananda institute of professional studies, GGSIPU
106. Susan Baisil, 6th Semester B.A LL.B Student,
Sree Narayana Guru College of Legal Studies, Kollam, Kerala
107. Ganshyam,
Student, Geeta institute of law, Kurukshetra university kurukshetra
108. Nieharika Sharma,
Student, Amity University, Noida
109. Jaspreet Kaur ,
Student , Lovely Professional University
110. Jahan Ara Kulsum,
Advocate, Legal Practice
111. AFTAB AHMAD,
Student, AMU
112. Abid Khan,
LLM Student, RTMNU'S PGTD OF LAW
113. Ms. Jahnavi Pabba,
Advocate and Research Scholor, Department of Law, Osmania University
114. Pankaj Sharma ,
Student , St Francis De Sales
115. Aditi Parakh,

Student, Guru Ghasidas Central University, Bilaspur

116. Al kausar, BA LLB 6th Semester,
Kashmir university
117. Kalpana Bharati Raut ,
Advocate , Dibrugarh Bar Association
118. Naina Jain, Student, Prestige Institute of Management and Research, Department of Law
119. Neelesh Narinder Arora,
Self Employed , St.Rocks Degree College of Law
120. Aditi Saxena,
Associate , Perfexio Legal
121. E Radhika,
Assistant Professor, College of Law for Women Andhra Mahila Sabha
122. Kalpana Bharati Raut ,
Advocate, Dibrugarh Bar Association
123. Kosha Doshi,
Student, Symbiosis Law School Pune
124. Shweta Bhattacharya,
Student , Gujarat National Law University
125. Ramaswamy Subbaraman,
Student, Ramakrishna Mission Vivekananda College - Evening College (AUTONOMOUS)
126. Ganshyam,
Student, Geeta institute of law , Kurukshetra university Kurukshetra
127. Kajal Kumari,
Student, Galgotias University
128. Muskan Kaushik,
Student, Maharishi Dayanand University , ROHTAK
129. R. Vijayakumar,
Assistant Professor , The Central Law College, Salem
130. Vani Tripathi,
Law student, Banasthali Vidyapeeth
131. Harshita Badal,
Dr,Harisingh Gour University Sagar , Work from home
132. Sayani Pachhal,
Final year law student, Calcutta University
133. Mr.Lipane Ramesh Munjabhau, B.A.LL.B 3,
A.B.M.S.Parishad's Yashwantrao Chavan Law College Pune

Report on

International Webinar on "Intellectual Property Prosecution, Filing & Enforcement during Covid-19 Pandemic on 10th July 2020

Speakers: Mr. Ramakrishna Damodharan, Managing Director, Adipven, Malaysia, Mr. Ashok Ram Kumar, Founder, Wordict-IP, Hyderabad

In this webinar the speakers highlighted on the various procedures and practices adopted in prosecuting, filing and enforcement of Intellectual Property Rights during the COVID-19 Pandemic period in Malaysia and in India along with the Court decisions.

He highlighted the importance of Intellectual Property Prosecution and stated that The Government Authorities including Police are bound to execute and enforce the orders of Court, and as such the Courts are empowered to direct any government authority to do or not to do or prevent / compel any person to comply with the orders of the Court. There are effective methods for the enforcement of the orders of the Court, including Contempt of Court proceedings, which provides for a fine as well as imprisonment, in case of non-compliance of the order of the Court. Execution/ compliance of the orders of the court are also done by way of appointment of the Local Commissioner/Receivers by the Court. In India, certain State Governments have formed Special Intellectual Property Cells, which deal with offences relating to infringement of IPR.

In any civil action for enforcement of Intellectual Property Rights, the following reliefs may be claimed in such suit i.e. Permanent Injunction; Interim Injunction; Damages; Accounts and handing over of profits, Anton Pillar Order (Appointment of Local Commissioner by the Court for custody/ sealing of infringing material/accounts), Delivery up of goods/packing material/dies/plates for destruction.

Additionally, in case of infringement of Trademark, infringement of Copyright, Geographical Indication, Plant Variety and Semiconductor Integrated Circuits Layout Design following Criminal action can also be initiated, Registration of First Information Report (FIR); or Filing of a Criminal Complaint before a Competent Magisterial Court with application for issue of search and seizure warrants directing the police to raid of the premises of the accused for seizure of the infringing material and arrest of the infringers.

To enjoy most types of intellectual property (IP) rights in India, you should register them. For patents, individual registrations must be made in India, but for rights other than

industrial designs you can apply under the terms of the Patent Cooperation Treaty, which is usually easier and quicker. For trade-marks, you should register them within India, either through the domestic trade mark system or under the Madrid system. For copyright, no registration is required but registering copyrights with the copyright authorities is advisable. 'Priority rights' under the Paris Convention can help in the local registration of trade marks, designs and patents by allowing rights previously registered elsewhere to become effective in India, if filed within a time limit. Intellectual Property Rights in India Enforcing IP rights in India IP rights can be enforced by bringing actions to the civil courts or through criminal prosecution. India's IP laws set out procedures for both civil and criminal proceedings, as does the Competition Act. Criminal proceedings do not apply to patent and design infringements.

He stated that the disadvantage of civil litigation is that you are unlikely to recover large damages, and punitive damages against an infringer are rare. However, if you have an identified infringer, it may be advisable to launch civil litigation, because if an interim injunction is granted the infringement can be halted pending the outcome of the case. Damages are routinely awarded in cases of copyright piracy and trade mark infringement (which come under criminal litigation); less so in patent cases. Over the years, however, decisions in favour of foreign companies against local infringers have demonstrated the judiciary's impartial approach. As in other countries, the Indian Government brings actions in criminal cases, although in most cases actions follow complaints to magistrates or police authorities by rights owners. Criminal proceedings against infringers carry the prospect of much harsher remedies, including fines and imprisonment. Mediation or negotiation with an infringer can also be effective as an alternative form of dispute resolution. The Civil Procedure Code provides for a formal mediation process.

Student, Punjabi University, Patiala

REPORT ON THE CONDUCT OF AIBE - XVI ON 31ST, October, 2021 AT THE IFHE CAMPUS IN COLLOBARATION WITH M/S. ITES HORIZON PRIVATE LIMITED, NEW DELHI

The objective of The All India Bar Examination (AIBE) is to examine an advocate's capability to practice the profession of law in India. It addresses a candidate's analytical abilities and understanding basic knowledge of law. After passing the examination candidate will be awarded "Certificate of Practice" by the Bar Council of India. The examination is conducted twice a year.

1. All India Bar Exam-XVI (conducted as an open book test in Centre-based offline mode) was scheduled on 31st of October,2021(Sunday) from 10AM to1-00PM at IFHE campus. (The AIBE-XV was also conducted at the IFHE campus on 24th January, 2021.)
2. This time the exam was allowed with bare acts containing short notes and comments instead of text books and reference books.

   Total number of candidates registered in the centre was 2322

   Total number of candidates appeared for the exam was 2225

   Total number of absentees was 97

   Total Number of Candidates having fever/other symptoms for whom separate room was arranged was nil.
3. The exam was conducted offline in 57 rooms in three premises of IFHE campus (IBS, Building, FoL- New and Old Building respectively) with the following strength of staff for a total assigned strength of 2322 candidates.

   Total number of Invigilators was 65

   Total number of Supervisors was 06

   Total number of Support Staff was 18

   Total number of office boys was 13
4. The faculty members/ Invigilators were requested to attend the online briefing session regarding instructions for AIBE invigilation in the conference hall on 29th of October, 2021 at 4PM.

5. The faculty members/ invigilators were instructed to carry employee Id card and wear it around their neck on the IFHE Hyderabad campus during invigilation duty and otherwise throughout the duration of the AIBE without fail.

6. The faculty members/invigilators were requested to reach the campus by 8-30AM sharp and a transport facility was arranged from Panjagutta to the IFHE Campus.

7. The bus started at 7-30 AM from Panjagutta and reached the IFHE campus at the scheduled time.

8. The elaborate security arrangement was made to ensure that only candidates and invigilators enter the premises after verification of their Identity cards and no outsider was allowed at the IFHE campus.

9. Multiple Entry/Exit Points and social distancing was strictly followed at entry/exit of IFHE campus.

10. Arrangement of Thermal Scanner, Sanitisers, disposable masks and hand wash facility at entry points were ensured.

11. Proper signages, symbols, posters etc. were displayed at appropriate place to guide the candidates to their respective exam rooms/ halls

12. The sanitation facility at the IFHE exam Centre is worth appreciating as it has got a very good number of separate washrooms for Ladies & Gents

13. Apart from the RO facility for drinking water, the bottled mineral water was provided to the invigilators and the candidates individually.

14. Sanitizer bottles were arranged at the entry gate, examination rooms, staff/observer room etc. and were replenished regularly

15. Liquid hand wash bottles were kept in rest room, entry gate and whenever and wherever required and were replenished.

16. Separate Room was arranged for candidates having symptoms of fever, cough and cold.

17. The faculty members/invigilators were requested to reach the campus by 8-30AM sharp and assemble at the big conference room at IBS by 8:45 am.

18. The faculty members/invigilators were once again briefed in person regarding the instructions for AIBE invigilation in the conference room and were handed over question papers along with the student's attendance sheets and copy of seating arrangement with the A, B, C & D coding after taking their signature.

19.The faculty members/ invigilators were instructed to collect the question paper packets from the mini conference room near the VC Sir's chamber at IBS and reach the allotted rooms for invigilation by 9-15AM.

20. The faculty members/invigilators moved to their respective assigned examination rooms/halls 45 minutes before the scheduled time.

21. The invigilators delivered Proper instructions to the candidates before the commencement of the examination

22.The Centre superintendent and the supervisors were on the move, continuously monitoring and overseeing the conduct of examination throughout the duration.

23. The answer scripts, attendance sheets and covid-19 declaration forms were collected from each of the invigilators after counting and cross checking the number of absentees.

24. The faculty members/invigilators were provided lunch during the lunch hour on the said date. The bus left the IFHE campus at 3PM after the exam to take back the faculty members / invigilators to their respective destination.

25. The observer Mr. Shakti Kumar was handed over all the answer scripts, attendance sheets and covid 19 declaration forms (room wise) neatly packed, numbered and sealed after thorough counting and cross verification. The observer was totally satisfied with the overall arrangements made on the IFHE campus and the way the exam was conducted smoothly without any untoward event whatsoever.

On behalf of Icfai Law School, ICFAI Foundation for Higher Education, Hyderabad, and under the auspices of Center for Excellence in Cyber Law and Data Protection Law in joint collaboration with Indian Cyber Security Solutions an online National Webinar on "Building Cyber Immunity" was organised on 11th September, 2021.

Director, Prof A.V. Narsimha Rao Sir, delivered the opening remarks discussing various issues pertaining to the Cyber law and Cybercrimes and suggesting various measures for the precautions to be taken to remain safe than sorry.

Dr. Md Akbar Khan, Associate Professor, the coordinator of the Excellence Centre gave the welcome note and vote of thanks was rendered by Mr.Rakesh Suryadevara, Assistant Professor, co-coordinator.

Mr. Abhinandan guest speaker spoke on the various issues relating to Ransomware, Data Privacy, OTP Bypassing and Dark Web.

Professionals from legal and technical organizations, academics, colleagues and students attended the webinar on virtual platform.

Few expressions and impressions

It has been observed that people are now being discriminated in the context of digital divide. The computer literate and the computer illiterate. The inevitability and incontrovertibility of Information Technology cannot be refuted or denied. It has impacted all walks of life.

The inevitability test can well be illustrated and vetted in our own academics and administrative context, right from online admissions, online uploading of question papers, online conduct of examinations, online evaluation to online declaration of results.

It has become an integral part of academics and administration that cannot be done away with. In order to pre-empt and ward off the associated harms we need to know the nitty gritty of technology and prophylactic measures to be adopted in the fields of Ransomware, Data Privacy, OTP Bypassing and Dark Web.

A recent global study by security firm Sophos Labs put India at the top of the charts, with a whopping 68% of respondents reporting being hit by ransomware last year. Around 67% of Indian organisations admitted to paying a ransom to get their data back, double the global average of 32%.

UHBVN Ransomware Attack

Uttar Haryana Bijli Vitran Nigam was hit by a ransomware attack where the hackers gained access to the computer systems of the power company and stole the billing data of customers. The attackers demanded Rs.1 crore or $10 million in return for giving back the data.

WannaCry

India was the third worst-hit nation by WannaCry ransomware, affecting more than 2 lakh computer systems. During the first wave of attacks, this ransomware attack had hit banks in India including few enterprises in Tamil Nadu and Gujarat. The ransomware majorly affected the US healthcare system and a well-known French car manufacturing firm.

Mirai Botnet Malware Attack

This botnet malware took over the internet, targeting home routers and IoT devices. This malware affected 2.5 million IoT devices including a large number of computer systems in India. This self-propagating malware was capable of using exploitable unpatched vulnerabilities to access networks and systems.

Petya

India was one of the top 10 countries to be hit by Petya ransomware. This ransomware attack halted work at one of the terminals of India's largest seaport causing computer lockdown and serious consequences for the country's exports.

Data Protection

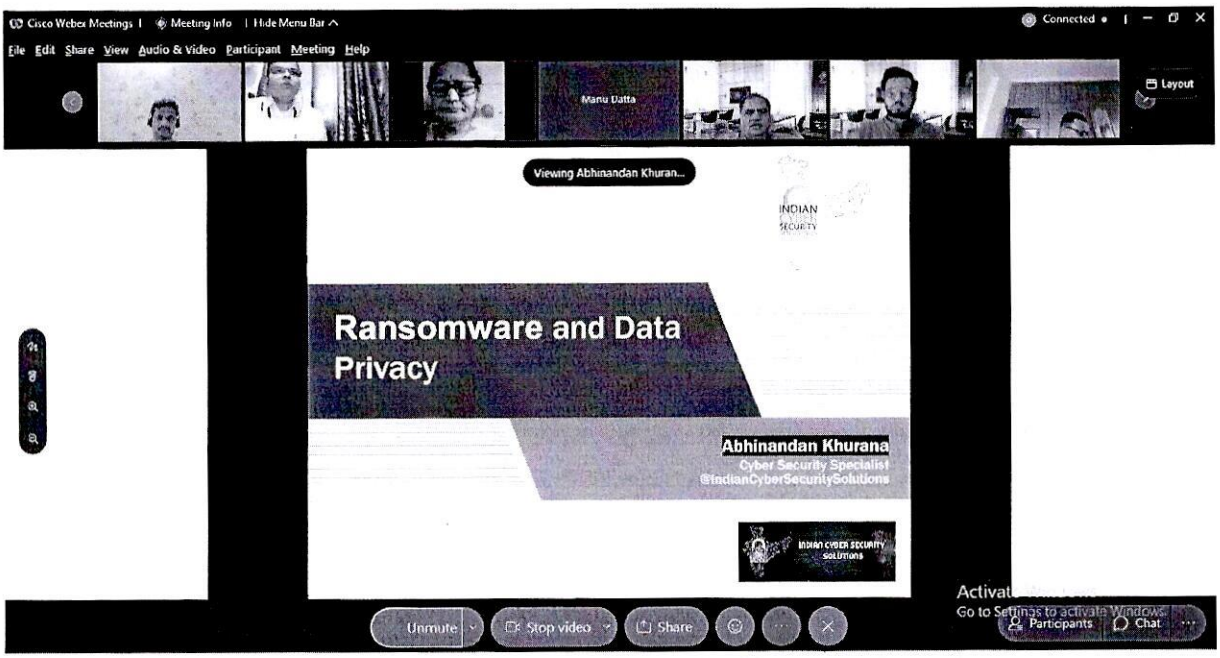

The action taken by different countries suggest that there is a need to activate a strong Data Privacy Act in India to safeguard the information of their citizens and protect their data privacy.

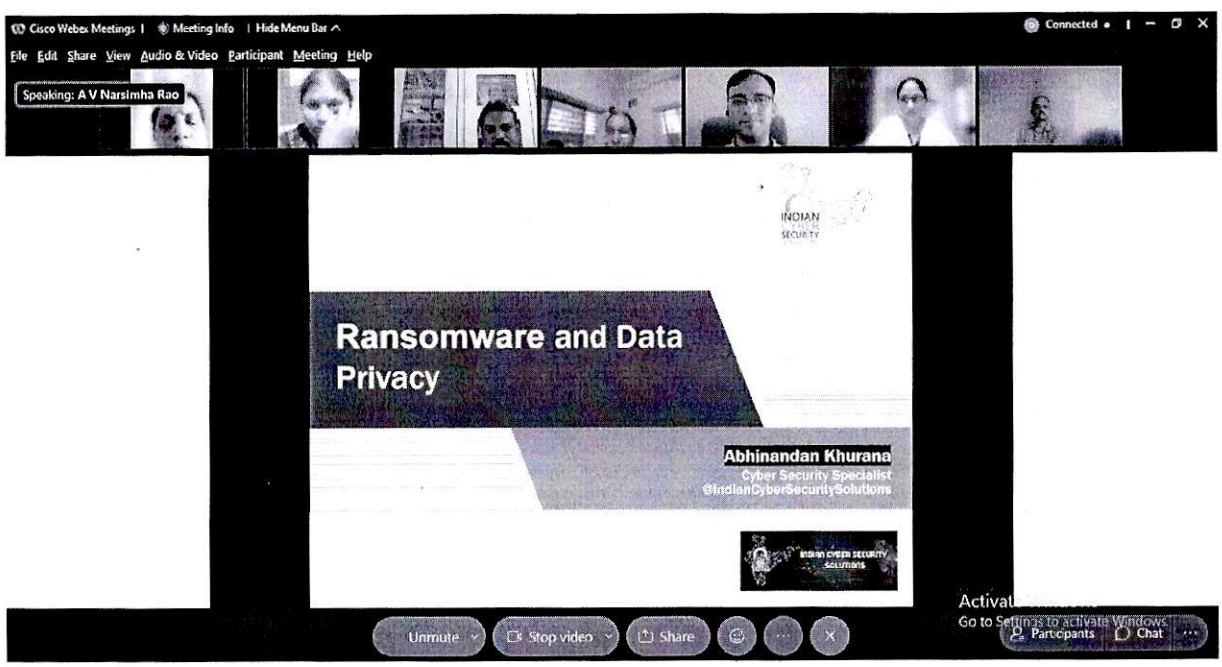

The Personal Data Protection Bill, 2019 ("PDPB") was introduced in Lok Sabha by the Minister of Electronics and Information Technology – to provide protection of privacy of individuals relating to their Personal Data, and to establish a Data Protection Authority of India for the said purposes and the matters concerning the personal data of an individual. The bill was clearly a step in the right direction. However due to insufficient information, the bill is still pending.

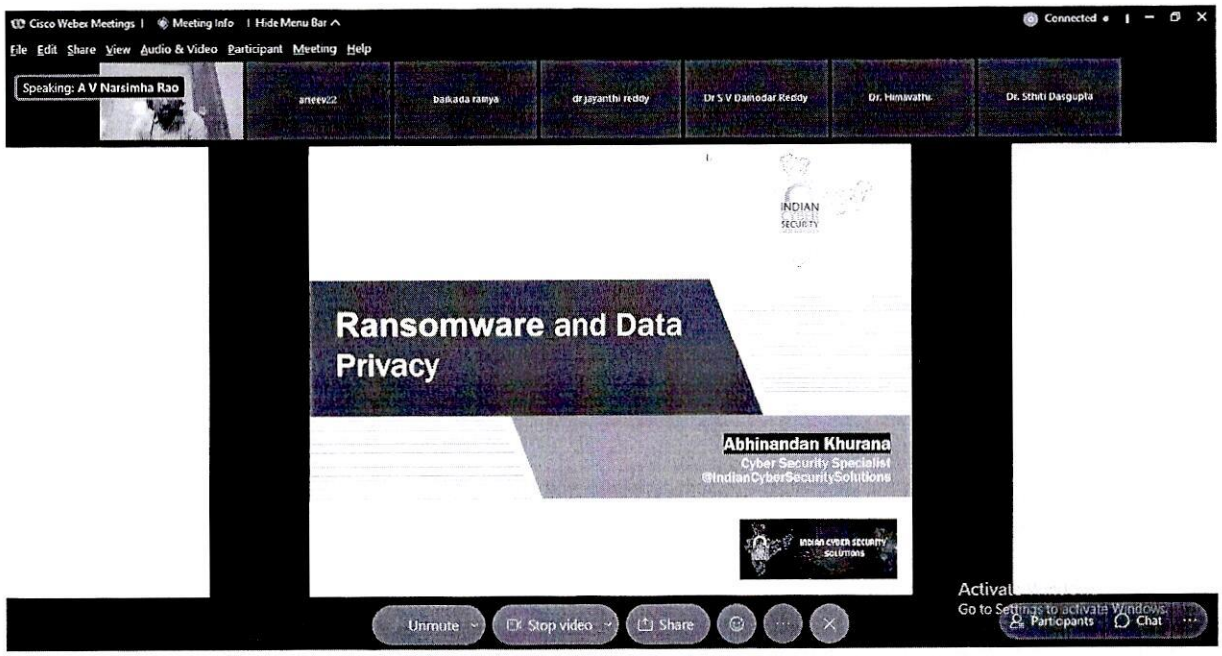

Dark Web

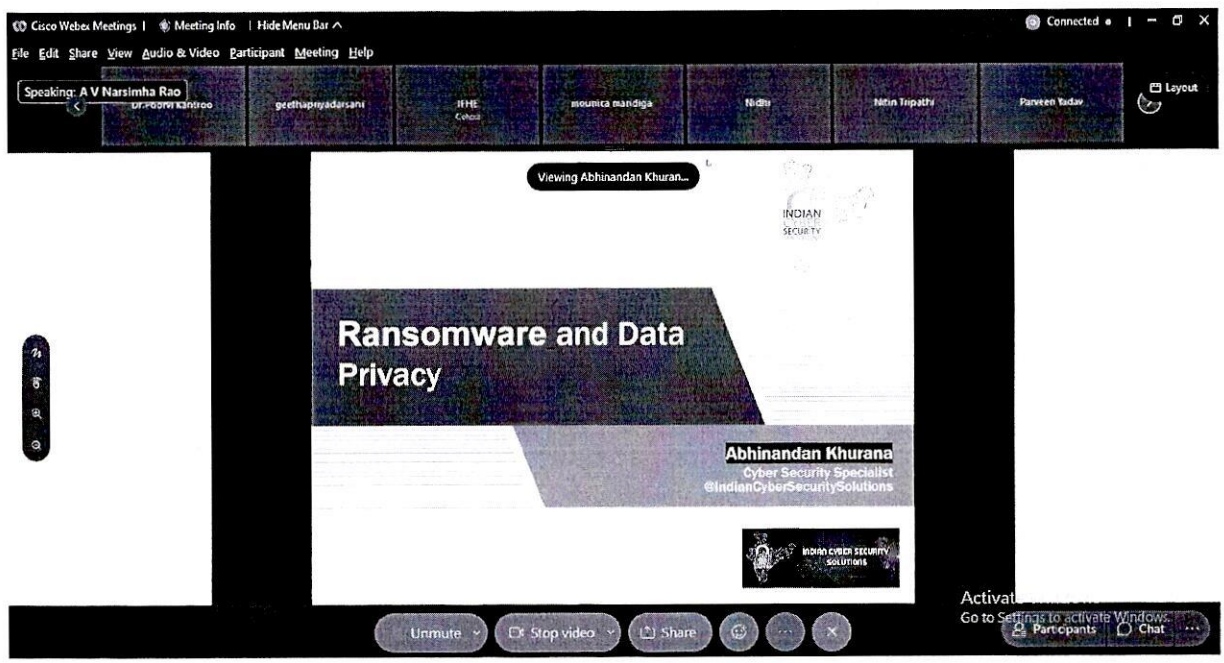

The dark web is the hidden collective of internet sites only accessible by a specialized web browser. It is used for keeping internet activity anonymous and private, which can be helpful in both legal and illegal applications. While some use it to evade government censorship, it has also been known to be utilized for highly illegal activity.

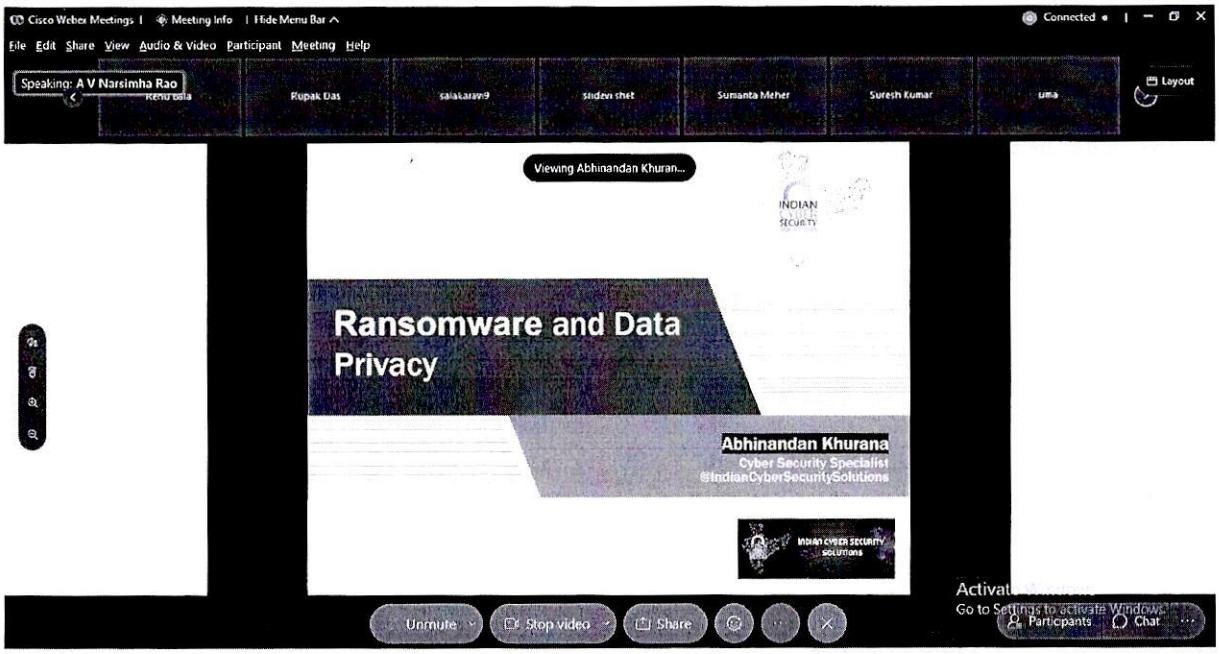

The OTP bypassing was practically shown by the speaker Mr. Abhinandan Khurana and also various measures and precautions to be taken to pre empt such efforts from the hackers.

Dear Sir/Madam

Greetings from the ICFAI Law School, Hyderabad !

It gives us immense pleasure to inform you that the Centre for Excellence in Cyber Law and Data Protection, in association with CYBEROPS Infosec LLP, is organizing a Webinar on **"Data Privacy and Cyber Security" by Mr. Shouvik Dutta, Information Security Analyst & Researcher** , on 13th December 2021 , at 4.00 PM. Please find attached the webinar brochure for your reference.

You are requested to please join the webinar by clicking the Register button in the attached brochure.

Please forward among your friends and colleagues as well.

With warm regards,

Rajasekhar Reddy K

Two Page Report-

Online Webinar on "Data Privacy and Cyber Security", 13-12-2021

The online webinar on "Data Privacy and Cyber Security", on behalf of Icfai Law School, ICFAI Foundation for Higher Education, Hyderabad, and under the auspices of Center for Excellence in Cyber Law and Data Protection Law in joint collaboration with Cyberops Infosec was conducted on 13th of December,2021.

Director, Prof A.V. Narsimha Rao Sir, Prof.Hemalatha Mam Prof.Pratap Reddy, Icfai Law School, ICFAI Foundation for Higher Education, Hyderabad, Mr. Ayush, and today's guest speaker Mr. Shouvik Dutta, Information Security Analyst & Researcher, Cyberops Infosec graced the session.

The professionals from legal and technical organizations, academics, colleagues and students attended the webinar on virtual platform.

Few expressions and impressions from Coordinator of the Center for Excellence in Cyber Law and Data Protection Law, Dr. Md Akbar Khan.

Cyber security is the practice of defending computers, servers, mobile devices, electronic systems, networks, and data from malicious attacks. It's also known as information technology security or electronic information security. The term applies in a variety of contexts, from business to mobile computing, and can be divided into a few common categories.

The global cyber threat continues to evolve at a rapid pace, with a rising number of data breaches each year. A report by RiskBased Security revealed that a shocking 7.9 billion records have been exposed by data breaches in the first nine months of 2019 alone. This figure is more than double (112%) the number of records exposed in the same period in 2018.

Medical services, retailers and public entities experienced the most breaches, with malicious criminals responsible for most incidents. Some of these sectors are more appealing to cybercriminals because they collect financial and medical data, but all businesses that use networks can be targeted for customer data, corporate espionage, or customer attacks.

With the scale of the cyber threat set to continue to rise, the International Data Corporation predicts that worldwide spending on cyber-security solutions will reach a massive $133.7 billion by 2022. Governments across the globe have responded to the rising cyber threat with guidance to help organizations implement effective cyber-security practices.

In the U.S., the National Institute of Standards and Technology (NIST) has created a cyber-security framework. To combat the proliferation of malicious code and aid in early detection, the framework recommends continuous, real-time monitoring of all electronic resources.

The sensitive issues concerning data privacy that involves the right to privacy as a fundamental right recognised by the Hon'ble Supreme Court in Justice K. S. Puttaswamy (Retd.) vs Union of India,2017 is a landmark decision of the Supreme Court of India, which holds that the right to privacy is protected as a fundamental right under Articles 14, 19 and 21 of the Constitution of India.

Both data protection and cybersecurity deal with protecting sensitive data from various digital threats. That's why they have become interconnected. Rather than having them respond to a breach of data separately, it makes sense to have one integrated approach.

The endeavour of the centre is to keep abreast with the practical knowhow and growth in technology to cope with the challenges, to combat unknown and unforeseen cyber-attacks for the protection of our own privacy. The purpose is to synchronise legal framework with technological advancements, as law always trails behind technology.

Mr. Shouvik Dutta explained the methods in detail to be adopted for protection of one's data with many live examples so as to bring about awareness among people of different strata of society with regard to the vulnerability and breach of data resulting in violation of right to privacy.

He practically demonstrated how email accounts and mobile phones are hacked into by unethical hackers and the good role or pivotal role played by the good hackers or pen tester in safeguarding the interest of the organisations in order to protect the sensitive personal data of customers.

He also cited the example of Indian Prime Minister Narendra Modi's personal Twitter account being very briefly compromised, as was conveyed by the prime minister's office on 12th of December,2021, he said.

A swiftly deleted tweet from his main @narendramodi handle declared India had adopted Bitcoin as legal tender and was distributing the cryptocurrency to citizens. The matter was escalated to Twitter and the account has been immediately secured.

Later on question answer session continued for another few minutes followed by formal vote of thanks extended by Mr. Rakesh Suryadevara, co-coordinator, Center for Excellence in Cyber Law and Data Protection Law.

Report on the webinar on "Women and Law" held on 09-01-2022.

The webinar on "Women and Law", was organised on behalf of ICFAI Law School, ICFAI Foundation for Higher Education, Hyderabad, and under the auspices of Center for Excellence in Cyber Law and Data Protection Law in association with Dr. B.R. Ambedkar National Law University.

Director, Prof A.V. Narsimha Rao Sir,Prof.HemalathaMam, Prof.Pratap Reddy sir, and guest speakerProf.Viney Kapoor Mehra, Vice-Chancellor, Dr. B.R. Ambedkar National Law University, Rai, Sonipat graced the ocasion.

We extended a warm welcome and heartfelt thanks to our guest speaker,Prof.Viney Kapoor Mehra, Vice-Chancellor, for accepting our invitation.

The professionals from legal fraternity, academics,colleagues and students attended the webinar on virtual platform.

Few expressions and impressions regarding rights and respect for women.

Women in our Hindu culture are worshipped and treated as goddesses

Paradise is at the feet of mother" "Who most deserves (my) reverence? Prophet said: 'Your mother' and he repeated it for three times, then fourth time Prophet said, "Your father.

That means, if medals are to be given, then mother gets all the three Gold, Silver, Bronze and Father has to satisfy himself with copper medal if any,or the consolation prize.

From this, one could clearly observe that mother is more favored thanfather in our culture.

But today's situation is quite distorted and deteriorated in terms of rights and respect for women and it is not the legislation alone that would bring about a change in society but it is the mind-set of the people in society that has to change.

The offences unleashed against women including cyber stalking and bulli Bai app on Gitupare such loathsome and reprehensible activities carried out by the perpetrators and they do not appear to be serious about the consequences of law.

We are inundated with laws but are they going to be the saviour for women or just an addition of one more law to the existing number.

Director,Prof A.V. Narsimha Rao Sirrendered opening remarks and concluding remarks on the theme of webinar in which he said that woman is the enemy of another woman. There should be mutual understanding between Mother in – law and daughter –in –law, so as bring harmonious relationship in family.

A woman plays the role of a mother, sister, daughter, wife, so on and so forth and mother is the first teacher to her children and she is the one who lays the strong foundation for the growth of her children and impacts their lives.

The guest speaker delivered her lecture briefly explaining the need for the awareness of women's rights and highlighting briefly the significance of Commission and various Acts like

National Commission for Women

The Immoral Traffic (Prevention) Act, 1956

The Dowry Prohibition Act, 1961 (28 of 1961) (Amended in 1986)

Protection of Women from Domestic Violence Act, 2005

The Sexual Harassment of Women at Workplace (PREVENTION, PROHIBITION and REDRESSAL) Act, 2013

The Criminal Law (Amendment) Act, 2013

The Indecent Representation of Women (Prohibition) Act, 1986

Muslim Women (Protection of Rights on Divorce) Act, 1986

The Indian Penal Code,1860

The Indian Evidence Act,1872

The session was followed by question answer session and later concluded with formal vote of thanks delivered by Dr.Jayanthi Reddy.

ICFAI Tech

Date : 11-03-2019

Note for Approval

As a part of the ongoing Ph.D program in Sciences of the University, three full time Research Scholars are assigned experimental research work in the Dept. of Chemistry at FST. As an integral part of their thesis work, physico-chemical analyses of samples have to be carried out at different premier research Laboratories of India on payment basis.

As many as 18 different novel nano-material samples have been synthesized whose characterization has to be done adopting sophisticated techniques. Different analyses to be done for each sample along with the tariff for individual analysis are given in the annexure-1. Analysis tariff calculated here is the subsidized cost chargeable from students from any educational institution.

An amount of Rs 1, 79, 028/-(Rupees one lakh seventy-nine thousand twenty eight only) for the aforementioned purpose may kindly be sanctioned.

Approved budget in support of the resource requirement for the Ph.D program in sciences is attached for the necessary perusal. An amount of Rs 61.0 lakhs have been sanctioned in the first phase of budget allocation, out of which Rs 1, 98, 023/- (Rupees one lakh ninety eight thousand twenty three only) has been utilized till date.

Note is put up for approval.

Sub : Request for online fund transfer towards the Physio-chemical analyses of novel materials synthesized at IcfaiTech, IFHE

Dear Sir,

Mr Rudrarapu Aravind & Mr Akash Kumar Sahu, Research Scholars in Chemistry, Icfai Tech, IFHE have synthesized some nano-scale materials, which they need to characterize and interpret the structure. These analyses are pertaining to the Ph.D. thesis work being carried out by Mr Rudrarapu Aravind & Akash Kumar Sahu. The Physico-chemical analyses of samples have to be carried out in National Laboratory viz. IICT Hyderabad and University of Cochin. The cost of analyses has to be paid in advance through online fund transfer.

Necessary approval has already been taken regarding this from the University. An amount of Rs.1,76, 484/- (Rupees one lakh seventy six thousand four hundred eighty four) may kindly be transferred online in favor of the Institutions, IICT Hyderabad and Cochin University.

Bank details for the online fund transfer are given below. Necessary details pertaining to the nature of analyses and cost to be incurred thereof are also given below.

Bank Details of IICT Hyderabad

As a part of the ongoing Ph.D program in Sciences of the University, **Three** (03) full time Research Scholars are assigned experimental research work in the Dept. of Chemistry at FST. Physio-chemical analyses are to be carried out at different premier research Laboratories of India on payment basis.

Few novel nano-material samples have been synthesized whose characterization has to be done adopting sophisticated techniques. Different analyses to be done for each sample along with the tariff for individual analysis are given in the annexure. Analysis tariff calculated here is the subsidized cost chargeable from students from any educational institution.

An amount of Rs **1, 77,785/-** (Rupees one lakh seventy-seven thousand seven hundred eighty five only) for the aforementioned purpose may kindly be sanctioned.

Approved budget in support of the resource requirement for the Ph.D. program in sciences is attached for the necessary perusal. An amount of 61.0 lakhs have been sanctioned in the first phase of budget allocation, out of which 4, 11,399/-(Rupees four lakh eleven thousand three ninety nine only) has been utilized since March 2018, to till date.

Note is put up for approval.

EDITOR AGREEMENT

made and entered into this **23rd** day of **October, 2019**, by and between

Taylor & Francis Group, LLC, a State of Delaware limited liability company, having its principal place of business at 6000 Broken Sound Parkway NW, Suite 300, Boca Raton, Florida 33487, U.S.A. (hereinafter referred to as the "Publisher")

and

Sandeep Kumar Panda, Ahmed A. Elngar, Valentina Emilia Balas, and Mohammed Kayed

(hereinafter referred to, whether one or more, as the "Editor")

The Publisher and the Editor hereby agree as follows:

1. **PREPARATION AND DELIVERY OF MANUSCRIPT**

(a) The Editor shall facilitate the preparation by the Contributors of individual Contributions, which combined create the textual material (hereinafter referred to as the "Manuscript"), and supply to the Publisher within a reasonable time, but no later than **February 28, 2020**, a work consisting of approximately **three hundred (300)** Manuscript pages, including approximately **fifty (50)** Illustrations, and the subject index (hereinafter referred to as the "Index") (hereinafter jointly referred to as the "Work") with the title:

Bitcoin and Blockchain: History and Current Applications

Part of the Internet of Everything (IoE): Security and Privacy Paradigm Series – Series Editors: Vijender Kumar Solanki, Raghvendra Kumar, and Le Hoang Son

or such other title as may be determined by the Publisher in consultation with the Editor.

The Editor shall submit the Manuscript in a suitable electronic format specified by the Publisher. The Publisher's *Production Standards and Software Guidelines for Editors* will be provided to assist the Editor.

The Illustrations submitted to the Publisher must include original electronic art files suitable for placement or reproduction, in the format specified by the Publisher. As deemed necessary, the Publisher agrees to touch up, redraw, or otherwise convert line drawings into an acceptable electronic format for reproduction, the reasonable cost of which will be applied against the Editor's Royalty Account. In the event the Editor does not deliver the Index in form and content acceptable to the Publisher, within the time period established by the Publisher in consultation with the Editor, the Publisher shall apply a reasonable charge to the Editor's Royalty Account for expenses incurred by the Publisher to compile the Index.

(b) The Editor shall make every reasonable effort to ensure that the Contributors obtain original material for their Contributions. The Editor will ask the Contributors to provide the Publisher with written permissions necessary for the use of material which is not original or he/she does not own, and all fees and expenses for the use of such material will be borne by the Contributors. The Publisher shall make available to the Editor and Contributors Permission Verification Forms that have been approved by the Publisher for the Editor and Contributors to list copyrighted material for which permission has been obtained. If permissions are not obtained within two (2) weeks after the Work is delivered and the Editor is unable to obtain these permissions, the Publisher has the right (but not the obligation) to take such action as shall be required to obtain the necessary

DocuSign Envelope ID: 4004385A-C042-4253-B49E-3F564503F3E5

permissions. Any permission charges or other expenses incurred by Publisher in securing such permissions (including reasonable legal fees), shall be charged to the Royalty Account.

(c) The Editor is responsible for providing a chapter abstract for each chapter (approximately 150-200 words each) at the time of delivery of the Work to the Publisher. These abstracts will become part of the book's metadata but will not be printed in the book, and should not be listed in the Table of Contents.

(d) The Editor shall ensure that each Contributor signs a Contributor Agreement supplied by the Publisher to grant the Publisher the right to publish each Contribution, and shall send the signed Contributor Agreements to the Publisher prior to the submission of the Manuscript.

2. **MANUSCRIPT EDITING**

The Publisher may edit the Work in accordance with the Publisher's style of capitalization, punctuation, spelling, and usage.

3. **EDITOR'S CORRECTIONS**

The Editor agrees to read, correct, and promptly return to the Publisher within thirty (30) days, all proofs of the Work in accordance with the Publisher's specified schedule. The lead Contributor for every chapter will receive a copy of the proofs of his/her Contribution to read, correct, and promptly return within thirty (30) days. Editor and/or Contributor alteration costs in excess of ten percent (10%) of the cost of the original composition, and any expenses incurred by the Publisher in the making of Illustrations replacing those originally submitted with the Work, shall be charged to the Royalty Account. In the event that correction of proofs is not returned within thirty (30) days, the Publisher shall have the right to publish the Work without the approval of the Editor and/or Contributor.

4. **PRODUCTION AND SALE**

(a) The Publisher will, subject to the terms and conditions of this Agreement, publish the Work in a format and style that it deems appropriate, and

(i) except as provided in Paragraph 3 above, assume all costs of the Publisher's editing, proofreading, typesetting, lithography, engraving, printing, binding, packaging, and all other manufacturing processes, and

(ii) pay all costs of promoting, advertising, and selling the Work, the extent of which shall be determined by the Publisher. The Publisher shall have the sole right to determine the price at which the Work will be sold and the manner in which it will be promoted, advertised, and marketed.

5. **COPYRIGHT**

(a) The Editor hereby expressly grants, transfers, and assigns to the Publisher full and exclusive rights to the Work, including, without limitation, the copyright in the Work, all revisions thereof, and the right to prepare translations and other derivative works based upon the Work in all forms and languages for the full term of copyright, and all renewals and extensions thereof, throughout the World. The Publisher's exclusive rights include, without limitation, the right to reproduce, publish, sell, and distribute copies of the Work, selections therefrom, and translations and other derivative Works based upon the Work, in print, audiovisual, electronic, or by any and all media now or hereafter known or devised, and the right to license or authorize others to do any or all of the foregoing throughout the World.

(b) The Publisher will register copyright in the Work in the name of the Publisher in compliance with the United States Copyright Law.

6. **ROYALTIES**

(a) The Publisher agrees to pay the Editor (or someone designated by the Editor), and the Editor shall accept as payment in full for writing and delivering the Manuscript, Illustrations, and Index for the performance of all of the obligations of the Editor hereunder, and for all the rights granted to the Publisher pursuant to this Agreement, the following amounts:

(i) For copies of the English language editions of the Work in print or eBook format sold by the Publisher throughout the World, **ten percent (10%)** of the Publisher's net receipts (as defined in Paragraph 6(d) below).

(ii) On translations, licensing sales, electronic database sales, excerpts, abridgments, deep discount sales (sales at a discount of fifty percent (50%) or greater of the Publisher's established list price of the Work), the Publisher shall pay royalties at one-half (½) the rate set forth in Paragraph 6(a)(i) above in respect of the Publisher's net receipts. In the event the Work is included in an electronic database with other works, or is otherwise exploited in combination with other works, royalties shall be apportioned by Publisher in its sole discretion, exercised in good faith.

DocuSign Envelope ID: 4004385A-C042-4253-B49E-3F564503F3E5

(b) In the event the Publisher exercises any of the rights of the Publisher pursuant to Paragraph 5 above and a royalty is not specifically provided for, the royalty which shall be payable to the Editor shall be one-half (½) of the rate set forth in Paragraph 6(a)(i) above in respect of the Publisher's net receipts.

(c) Notwithstanding the above, no royalty will be paid on copies of the Work furnished gratis for review, advertising, promotion, bonus, sample, or like purposes, or on copies of the Work sold at less than Publisher's cost, or on any copies returned to Publisher for any reason, or on copies of the Work sold to the Editor. Free use of the rights granted herein may be made by the Publisher to promote the sale of copies of the Work and the rights therein.

(d) For purposes of this Agreement, the Publisher's "net receipts" from sales shall mean monies received by the Publisher from such sales less adjustments for discounts, credits, and returns. Royalties will not be paid on prepaid transportation, postage, insurance, and taxes. The Publisher's "net receipts" from licensing or assignment shall mean monies received by the Publisher less any specified costs of such licensing or assignment.

(e) All payments made under the terms of this Agreement will be subject to Federal income tax withholding, as required by the United States Internal Revenue Code.

(f) All royalties and other income accruing to the Editor under this Agreement shall be credited to an account maintained on the records of the Publisher (the "Royalty Account"), which Royalty Account will be charged for all amounts paid or payable to Editor, including any advance payments, and for all amounts Editor is charged, or obligated to pay, pursuant to this Agreement.

(g) If there are several Editors to this Agreement, the royalty due is to be apportioned as indicated. **Divided evenly between all Editors, unless instructed in writing by each of them.**

7. ACCOUNTS

(a) The Publisher will render to the Editor statements of sales made (hereinafter referred to as the "Statement"), the Publisher's net receipts, fees, and other monies received from licensing, if any. These Statements will be rendered semi-annually in August of each year for the six (6) months ending as of the preceding June 30th, and in February of each year for the six (6) months ending as of the preceding December 31st (hereinafter referred to as the "Accounting Period"). Subject to the provisions of this Agreement, the Statement will be accompanied by a check (or funds electronically deposited into an Editor's bank account) for any monies shown to be due by such Statement. If less than fifty dollars ($50.00) (one-hundred dollars ($100.00) for an electronic payment) is shown to be due in any Accounting Period, the Publisher may defer payment thereof until the next period in which fifty dollars ($50.00) (or one-hundred dollars ($100.00) if an electronic payment) or more is shown to be due. No Statement will be sent to an Editor if no payment is due.

(b) If any person comprising the Editor has received an overpayment of money from the Publisher or has an outstanding monetary obligation to the Publisher, whether arising out of this Agreement or any other agreement(s) with the Publisher, the Publisher may deduct the amount of such overpayment or outstanding obligation from the Royalty Account or any sums due to such person under this Agreement.

8. FREE AND DISCOUNT COPIES

(a) Upon first publication of the Work in book form, each Editor named herein shall be entitled to receive from the Publisher, without charge, **four (4) copies** of the Work. The Editor shall also be entitled to purchase additional copies of the Work for the Editor's personal use at a discount of twenty-five percent (25%) off the suggested retail price of the Work, plus the cost of shipping and handling, while the Work remains in print. No royalties shall be paid on copies of the Work purchased by the Editor.

(b) Each Contributor, **not to exceed twenty (20) Contributors**, will receive one (1) free e-book copy upon publication. This excludes any chapters where the Editor is also a Contributor. The Contributor copies are provided per Contributor and not per contribution. This means in cases where a Contributor has contributed more than one chapter, that Contributor is still only entitled to receive one (1) free e-book copy upon publication. The Contributors will not receive a free hardcopy of the book.

9. EDITOR'S WARRANTIES

(a) The Editor represents and warrants to the best of his/her knowledge and belief that:

(i) he/she has the full right and authority to enter into this Agreement and to grant the rights granted to the Publisher;

(ii) he/she has not previously assigned, transferred, or otherwise encumbered such rights;

(iii) the Work shall be original by the Editor;

DocuSign Envelope ID: 4004385A-C042-4253-B49E-3F564503F3E5

(iv) the Work will not infringe upon any statutory or common law copyright or violate any law or government regulation;

(v) the Work will not contain any matter which will be libelous or otherwise injurious or in violation of any right of privacy or any other personal or proprietary right of any third party; and

(vi) the Work contains no material which is inaccurate, nor contains any statement, instruction, material, or formula that involves the foreseeable risk of injury to readers or users of the Work.

(b) Should any material be submitted for publication in the Work which, in the opinion of the Publisher, may result in a breach of any of the foregoing warranties, or should the Editor commit any act which brings or is likely to bring the Publisher into disrepute, or which, in the Publisher's reasonable opinion, is prejudicial to its interests, the Publisher shall have the right to publish the Work without such material or not publish the Work at all. Nothing contained herein shall be deemed to impose upon the Publisher any duty of independent investigation, nor shall any independent investigation by the Publisher relieve the Editor of the Editor's obligations hereunder.

(c) The Editor represents and warrants that, except as previously disclosed to the Publisher in writing, the Editor has not aided in the preparation of, and is not under any obligation to any other publisher or person, to prepare any publication directly competitive with the Work, or which could interfere with his/her performance of this Agreement, or interfere with or impair the sale of the Work.

(d) The Editor and Publisher shall each promptly inform the other of any claim, demand, or suit made against it in connection with the Work. The Editor shall fully indemnify and hold the Publisher harmless against any loss, damage, cost, or expense (including reasonable counsel fees) which may be sustained or incurred by the Publisher by reason of any claim, demand, investigation, suit, or recovery arising out of the breach or alleged breach of any of the foregoing warranties.

(e) The Publisher shall have the right to defend any such suit through counsel of its own choice and the right to settle any such suit on such terms as the Publisher shall deem advisable; provided, however, that the Editor shall not be responsible for indemnifying the Publisher for any settlement made without the Editor's consent, which consent shall not be unreasonably withheld or delayed.

(f) In the event of a claim or suit against the Publisher which, if sustained, would constitute a breach of any of the Editor's warranties, the Publisher shall have the right to withdraw the Work from distribution and withhold royalties which become due to the Editor, pursuant to this Agreement, pending a final determination of such claim or suit. The Publisher shall have the right to apply any such withheld royalties to the reduction of any of the obligations of the Editor to the Publisher contained in this Paragraph 9.

(g) Editor's representations, warranties, and indemnities as stated herein may be extended by Publisher to third party licensees and grantees, and Editor shall be liable thereon as if such representations, warranties, and indemnities were originally made by Editor to them.

The provisions of this Paragraph 9 shall survive the termination of this Agreement.

10. OTHER PUBLICATIONS

The Editor agrees, so long as the Work remains in print, to refrain from editing and/or preparing for another publisher any work that shall directly compete with the sale of the Work. The Editor may, however, draw on and refer to material contained in the Work in preparing articles for publication in professional journals, for teaching purposes, and for delivery at professional meetings and symposia, provided appropriate credit is given to the Publisher and the Work.

11. DESIGNATION AS EDITOR

The Publisher shall have the right to designate the Editor as the Editor of the Work, and, if the Editor be more than one, in such manner and order as the Publisher may determine, in its reasonable judgment, fairly reflects the Editors' relative contributions to the Work, and to use the Editor's name and likeness in advertising and promoting the Work and derivative works based on the Work, and other commercial use in connection with the Work. Where there is more than one Editor, a single Editor shall be designated Lead Editor for the purpose of dealing with the Publisher.

12. IMPRINT

The Work will be published initially under the imprint of Chapman & Hall/CRC, or such other imprint as the Publisher deems suitable for the Work.

13. REVISIONS OR NEW EDITIONS

(a) Subject to the terms and conditions hereof, if the Publisher determines that a revision or new edition of the Work is desirable, it shall request each person comprising the

DocuSign Envelope ID: 4004385A-C042-4253-B49E-3F564503F3E5

Editor to participate in the preparation of the revision or new edition pursuant to a schedule established by the Publisher in consultation with the Editor. Each person so requested to participate shall advise the Publisher in writing within ninety (90) days whether he/she will participate in the preparation of such revision or new edition.

(b) The Publisher may select a successor to any person comprising the Editor to participate in the preparation of a revision or new edition, or may designate the remaining persons comprising the Editor to complete such revision or new edition, under the following circumstances:

(i) the death, incapacity, or inability of any person comprising the Editor to effectively participate in a timely manner pursuant to Publisher's schedule in the preparation of such revision or new edition;

(ii) the failure of any person comprising the Editor to advise the Publisher in writing within the specified ninety (90) day period that he/she will not participate; or

(iii) the failure or inability of any person comprising the Editor to prepare the revision or new edition, or collaborate in its preparation, in a timely manner pursuant to the Publisher's schedule.

(c) If the failure to revise the Work is due to the Editor's death, the Editor's estate shall be entitled to one-half (½) the sums which would have accrued to the Editor for the revised edition if he/she had participated in its publication. On the following edition, the deceased Editor's estate will be entitled to one-quarter (¼) of the paid royalty. Thereafter, the Editor's estate shall have no proprietary interest in the Work and no further rights to the accrued royalty.

(d) Any royalties or other compensation payable to any successor of a person comprising the Editor in respect of any revision or new edition of the Work shall be deducted from any royalties or other compensation which may be or become due to the person or persons comprising the Editor who is or are succeeded. In the event any person comprising the Editor does not participate in a revision or new edition of the Work, the Publisher shall have no obligation to request such person to participate in any subsequent revision or new edition of the Work. If the nonparticipating Editor's contribution to the Work in the new edition is substantial, he/she shall be entitled to a royalty negotiated to the satisfaction of all parties.

(e) When publishing revisions or new editions, and in the promotion thereof, the Publisher may give credit to the Editor and any successor of a person comprising the Editor, in such order and manner which, in the judgment of the Publisher, fairly reflects their relative contributions to such revision or new edition, and, if appropriate, in the reasonable judgment of the Publisher, omit the name or names of the person or persons comprising the Editor who do not participate or collaborate in such revision or new edition.

(f) All terms and conditions of this Agreement applicable to the first edition of the Work, excluding any grants and advance payments, shall apply to each revision or new edition thereof, unless otherwise provided herein.

14. **OUT-OF-PRINT PROVISIONS**

(a) If at any time the Publisher determines that the demand for the Work is insufficient to warrant its continued publication, the Publisher may declare the Work out-of-print. In such event, the Editor shall have the right to purchase the Publisher's stock of the Work, if any, at one-quarter (¼) of the Publisher's established list price, but not below cost. The Work will not be deemed out-of-print if it is on sale by the Publisher in any form permitted hereunder, or if it is under option, or if any license granted by the Publisher is outstanding.

(b) If the Publisher declares the Work out-of-print, then, upon the Editor's written demand, the print (but not the eBook or any electronic product) rights granted by the Editor under this Agreement will revert to the Editor and this Agreement will terminate, subject to any outstanding licenses, and except for Paragraph 9. If there are multiple Editors under this Agreement, they will take individual ownership, in proportion to their respective shares of the royalties under this Agreement, of all rights jointly owned by them at the time of termination. The termination of this Agreement will not affect the Publisher's continuing right to sell all remaining bound copies and sheets of the Work and derivative works on hand at the time of termination.

15. **NON-DELIVERY OF THE WORK**

If the Editor for any reason fails to deliver to the Publisher any of the materials as set forth in Paragraph 1 of this Agreement in form and content satisfactory to the Publisher by agreed upon dates, the Publisher shall have the right, upon thirty (30) days written notice to the Editor, to terminate this Agreement without any further obligation or liability to the Editor. In the event that this Agreement is terminated by the Publisher pursuant to this Paragraph 15, the Editor shall return to the Publisher all payments, if any, theretofore made to the Editor hereunder within one-hundred and twenty (120) days of the date of termination of this Agreement, and the Publisher shall return all unpublished materials to the Editor.

16. **GENERAL PROVISIONS**

DocuSign Envelope ID: 4004385A-C042-4253-B49E-3F564503F3E5

(a) This Agreement is the entire agreement between the parties relating to the Work. It supersedes all previous oral and/or written representations or agreements relating to the Work and may not be modified or amended, nor may any of its terms or provisions be waived, except by a written instrument executed by the parties affected by such modification, amendment, or waiver.

(b) All obligations, liabilities, warranties, and covenants of the Editor pursuant to this Agreement shall be joint and several, so that each person comprising the Editor shall be obligated with respect to the performance of the Editor as if he/she were the sole Editor.

(c) This Agreement shall be binding upon and inure to the benefit of the parties hereto and their respective successors, heirs, personal representatives, and assigns, except that the Editor's obligations may not be assigned without the Publisher's prior written consent, and any assignment without such consent shall be null and void.

(d) It is agreed that the Editor is for all purposes of this Agreement an independent contractor, and the Editor is in no respect an agent, employee, or joint venture of Publisher.

(e) Neither the Editor nor the Publisher shall be liable, nor shall the Work be deemed out-of-print, because of any delay caused by acts of God, restrictions imposed by law or government regulation, shortages in supply of material or labor necessary for the preparation or production of the Work, or other similar or dissimilar acts beyond their reasonable control. In no event shall either the Editor or the Publisher be liable for special, incidental, or consequential damages.

(f) This Agreement, regardless of the place of its physical execution, shall in all respects be governed by and construed in accordance with the internal law, and not the law pertaining to conflicts or choice of law, of the State of Florida. Each of the parties to this Agreement hereby expressly and irrevocably agrees and consents that any suit, action, or proceeding arising out of or relating to this Agreement shall be instituted exclusively and only on a state or federal court sitting in Miami, Florida, and, by execution of this Agreement, each of the parties hereto expressly waives an objection that it may have now or hereafter to the laying of venue or to the jurisdiction of any such suit, action, or proceeding in Miami, Florida, and each of the parties to this Agreement further irrevocably, exclusively, and unconditionally submits to the personal jurisdiction of any state or federal court sitting in Miami, Florida in connection with any such suit, action, or proceeding.

17. **SPECIAL PROVISIONS**

(a) As stated in the agreement, the Editors are responsible for creating the Index for the Work.

(c) The Editors shall ensure that each Contributor signs a Contributor Agreement supplied by the Publisher to grant the Publisher the right to publish each Contribution. The Editor shall send the signed Contributor Agreements to the Publisher with the submission of the manuscript.

Foreign Institutional Investors: Fair-Weather Friends or Smart Traders?

Hari Venkatesh[1] · Jyoti Kumari[2] · Gourishankar S. Hiremath[1] · Hiranmoy Roy[3]

Accepted: 22 February 2021 / Published online: 3 April 2021

Abstract
We examine a theoretically robust but previously undocumented issue of what drives foreign portfolio investments into emerging markets. Foreign institutional investors (FIIs) are often blamed as fair-weather friends who pull out their investment at the first sign of trouble. Using a bottom-up approach, we explore this possibility. We demonstrate the influence of the firm-specific factors such as size, book to market ratio, the riskiness of the stocks, stock prices, dividend yield, liquidity, leverage, and earnings on the FII ownership. We find no evidence to show foreign investors as fair-weather friends. Instead, they are smart traders who follow a diligent investment strategy. We suggest reforms in corporate governance and improvement in financial fundamentals of the companies to attract FII ownership.

Introduction

Foreign direct investment (FDI) and foreign portfolio investment (FPI) are the most important channels of capital flows into emerging and developing economies (EDEs). The higher returns and international portfolio diversification are primary drivers of FPI in the emerging stock markets (ESMs) (Solnik 1974). The remarkable increase in the FPI in ESMs and the consequences of integration of these economies

✉ Gourishankar S. Hiremath
gshiremath@hss.iitkgp.ac.in

[1] Department of Humanities and Social Sciences, Indian Institute of Technology Kharagpur, Kharagpur, India

[2] IBS Hyderabad (ICFAI Foundation for Higher Education), Hyderabad, India

[3] Department of Economics & International Business, University of Petroleum and Energy Studies, Dehradun, India

with the developed markets has prompted passionate debate in the international finance literature and policy circles. The FPI flows help bridge the gap between investment requirements and domestic savings in ESMs. However, the reversal of capital flows aggravates crises in the host markets (see Furman et al. 1998). Therefore, academics and policymakers alike raise concerns about the behavior of FPI flows. The foreign institutional investors (FII)[1] are often accused as fair-weather friends who pull out investment at the first sign of trouble.

International finance literature predominantly focuses on the costs and benefits of investment in emerging markets to international investors. A strand of literature attempts to understand the relationship between FPI flows and host market returns (e.g., Froot et al. 2001; Richards 2005). Nonetheless, the research on what determines the business of foreign investors in EDEs is not probed before. The available research on determinants of portfolio investment emphasizes global factors (e.g., Taylor and Sarno 1997). Gupta and Gordon (2003) argue that FIIs follow a top-down approach relying more on macroeconomic and political factors to choose ESMs.

In contrast, FPI flows are more appropriately belong to the 'theory of the firm' than the global macro environment (Kang and Stulz 1997; Dahlquist and Robertsson 2001). These investors follow a bottom-up method to choose top quality firms and hardly be concerned about the macroeconomic factors (Sharma 2002). Kang and Stulz (1997) are the first to show the relevance of company-specific factors in investment decisions of foreign equity investors than the national portfolio investors. Lin and Shiu (2003) and Batten and Vo (2015) emphasize characteristics of the firms as drivers of foreign ownership of stocks in emerging markets. A smart investment strategy comprises top-down and bottom-up approaches, and global investors are no exception to this bottom line. A company analysis to pick stocks is as essential as selecting an emerging market based on the macroeconomic environment for portfolio diversification.

The financials of the company are the primary factors in investment decisions. Of late, corporate governance moved to the heart of investment decisions, especially among investors from developed markets (McKinsey 2002). Moreover, the financial performance of firms is positively associated with corporate governance (Mohanty 2003; Bebchuk et al. 2009). The growing literature in corporate governance indicates the reluctance of foreign investors to invest in stocks of companies with poor corporate governance (Mangena and Tauringana 2007). Hence, the investigation of the firm-level factors influencing the investment decisions of FPI is indispensable.

In this light, we employ a bottom-up approach to understand the determinants of foreign ownership of domestic stocks in EDEs such as India. We draw the sample from India, the second-fastest growing economy, for the empirical investigation. One of the critical features of the Indian stock market has been the rapid increase in the level of stock ownership by foreign investors as non-promoters from 3.25 percent to 29.02 percent in 2016 ("Recent trends in FPI ownership and stylized facts" section).

[1] We denote FII as the foreign institutional investment and foreign institutional investors interchangeably as the context demands.

Similarly, India is one of the few countries that witnessed FPI inflows during the post-global finance crisis (GFC). We hypothesize that foreign investors follow the principle of investment analysis, and thus firm-level factors are vital for their choice of stocks. Further, we also test our proposition that foreign investors emphasize corporate governance in their decision to invest in host markets.

The previous work on emerging markets mainly perceives these markets as homogenous. Such a homogeneity bias (Hiremath 2017) hides the unique characteristics of the market and leads to incorrect inferences and policy prescriptions. Moreover, inferences from cross-country analysis are inapplicable to India due to its heterogeneity among the emerging markets. We use a comprehensive framework to include the information on the firm-level financials and corporate governance indicators to gain essential insights into the determinants of FPI flows. This holistic approach dispels the speculative views on foreign investors and offers practical and pragmatic implications for international investment. In this context, this study assumes significance.

We contribute to the literature in many folds. *First*, we present a set of new facts and trend analyses of FPI flow at the aggregate level and FII ownership of individual stocks. Our research helps understand the motives of foreign investors and business strategies in EDEs. *Second*, we incorporate both the firm-specific financial and corporate governance determinants of foreign ownership of Indian stocks. Previous researchers focused on macroeconomic factors. These studies especially suggest that the global environment alone influences the decisions of foreign investors to invest in ESMs. *Third*, we also add new firm-level factors such as a firm's visibility and protection of minority shareholders. The inclusion of essential variables expands the scope of our work and provides robustness to the results. *Fifth,* unlike previous empirical studies, we use the panel data framework to investigate the significant factors determining foreign ownership in Indian stocks. These empirical analyses offer a better understanding of investors' choices (Baltagi and Kao 2001; Hsiao 2007). Besides, we use alternative models to ensure the robustness and general applicability of the results.

We find that firm-specific factors are the primary drivers of the FII ownership in India. We also show that corporate governance practices influence global investors' decisions to invest in a particular stock. The rest of the paper is organized as follows: we present recent trends in FPI ownership of Indian stocks and stylized facts related to such flows in "Recent trends in FPI ownership and stylized facts" section. We discuss the empirical results in "Determinants of foreign ownership of domestic stocks" section and conclude our study with implication for policy and equity analysis in the last section.

Recent Trends in FPI Ownership and Stylized Facts

Aggregate FPI Flows to India

India has witnessed a surge of private capital flows during the post-liberalization period (Fig. 1). The flows increased from $244 million in 1992–93 and reached $40,922 million in 2014–15 (accounting for 168 times during 20 years). Nevertheless, FPI flows were volatile and reversed due to the East Asian currency crisis

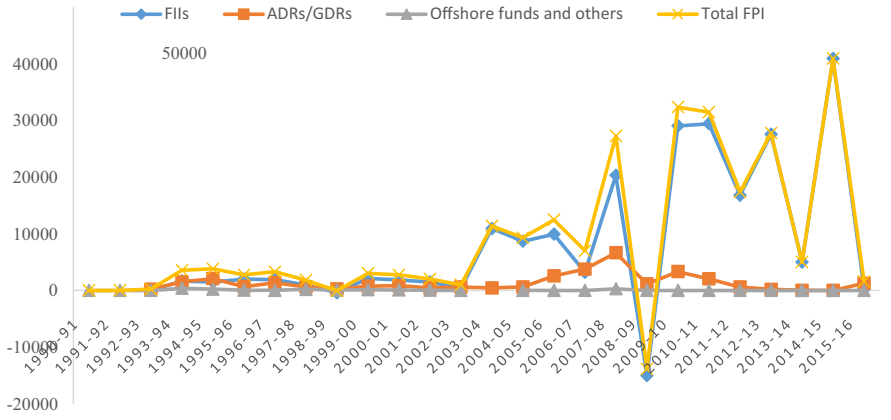

Fig. 1 Components of FPI flows to India. The figure shows the aggregate FPI flows to India and its component, namely FIIs, ADR/GDR, Offshore funds. The vertical axis is measures flows of US $ in millions

(1997) and the dot-com bubble burst (2000–2002). The unprecedented outflows to the tune of $15,017 million in 2008–09 due to GFC caused anxiety in the Indian stock market, and total portfolio investment flows to India were plunged further. After the intermediate slowdown, the FPI continued to flow into the Indian capital market in the post-crisis period. The FPI trends replicate all anecdotes of the business cycle with booms and busts.

Indian government allowed firms to raise capital by issuing depositary receipts such as American depositary receipts (ADRs) and Global depository receipts (GDRs) in 1992. Nevertheless, FII constitutes a significant portion of the FPI flows, whereas the share of ADRs and GDRs is meager. The 8735 FII firms registered with the Securities and Exchange Board of India (SEBI) are mainly from the United States (34.53%), followed by Luxembourg (11.51%), Canada (7.49%), Mauritius (6.87%), Ireland (5.80%) and the UK (5.47%) (Fig. 2). FII flows into India are mainly from developed countries, whereas sizeable portfolio investment comes from developing markets. FII from Mauritius, Cayman Island, Bahamas, Brunei, Bermuda, Liechtenstein, Republic of Slovenia, Guernsey, and Jersey also hold notable ownership of Indian stocks because of the tax advantages.[2]

FII Ownership in India Stocks

FII ownership in India's equity shares considerably increased during the study period and accounted for one-fourth of the total market value. The FIIs hold a significant share in non-promoter shareholdings. As per the shareholding data, FIIs held ownership in 4281 firms between 2001 and 2016 (Table 1). The distribution of FIIs shareholding is less than one percent in 2663 firms, whereas such holding between

[2] These countries are considered as tax havens.

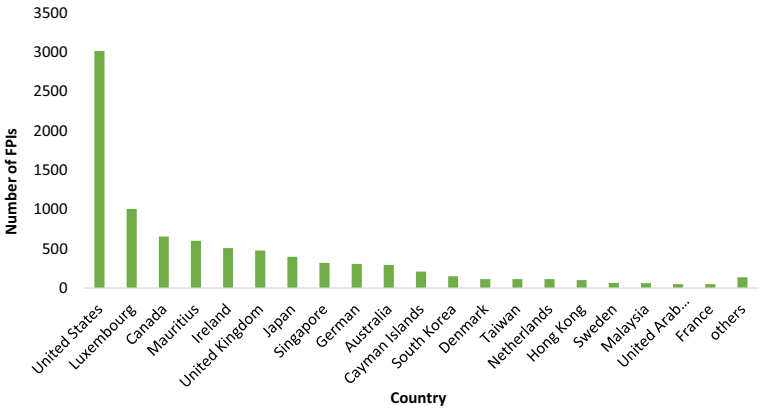

Fig. 2 Country-wise distribution of registered FPI firms in India. This figure presents the country-wise registered FPI firms in India. The total registered FPI firms are 8735 as of September 2017

Table 1 Percentage distribution of FII ownership of firms

Percentage of FII ownership (%)	Number of firms	Percent of total firms
Less than one	2698	63.02
1–10	1164	27.19
10–20	327	07.64
20–30	69	01.61
More than 30	23	00.54
Total	4281	100.00

This table presents the distribution of FII ownership in the non-promoter shareholding of the firm's total equity

20 and 30 percent is concentered in 63 firms. The HDFC Ltd., India Bulls Housing Finance Ltd., IDFC Ltd., Geodesic Ltd., ICICI Bank Ltd. are among the top 10 companies in which FII have substantial shareholdings as a non-promotor (Table 2).

The sectoral composition of FII ownership of equity reveals a more significant share of FII holding in the financial sector than that of the non-financial and irrigation sectors (Fig. 3). The stocks in the financial sector attract foreign investors because of higher returns when the market is bullish. The growing trend of FII ownership was steady until 2007–08 but began to plunge due to the recession in 2008. From 2009 to 2016, the FII ownership in India's equity has become stable. On the other hand, the average FII ownership in the irrigation sector is negligible (less than one percent). Foreign investors primarily invest in the manufacturing sector than other non-financial sector firms such as mining, electricity, services, and construction and real estate (Fig. 4).

Nonetheless, between 2003 and 2008, electricity firms are the primary recipients of the FII investment, and the construction and real sector dominated their portfolios between 2008 and 2010. The loss of returns on the financial sector as many stocks

The table reports the trends in the percentage of FII ownership in total equity of the top ten firms. These firms are ranked based on FII ownership

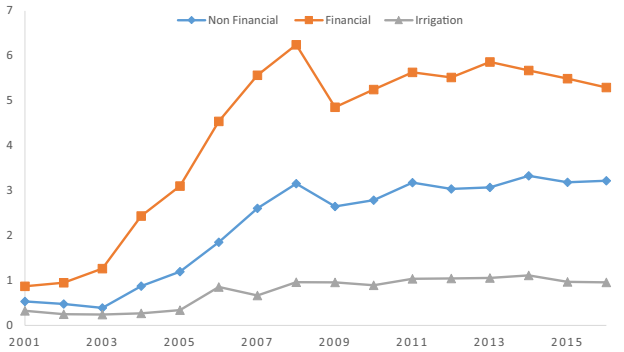

Fig. 3 Sector-wise classification of FII ownership. This figure shows the distribution of FII ownership sector-wise. The average FII ownership as a non-promoter share in total shares (%) is measured on the vertical axis

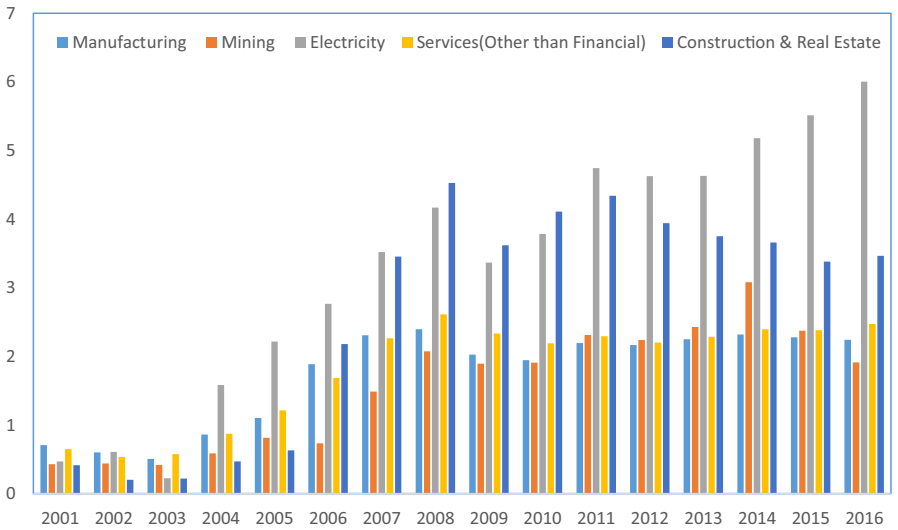

Fig. 4 FII Ownership in the non-financial sector. This figure presents the distribution of FII ownership in the non-financial sector, such as manufacturing, mining, electricity, services, and construction and real estate. The average FII ownership as a non-promoter share in total shares (%) is measured on the vertical axis

crashed during the period explains the change. Foreign investors also prefer financial service firms. The FII ownership in the banking sector comprises 85 percent of the total investment in the financial sector (Fig. 5).

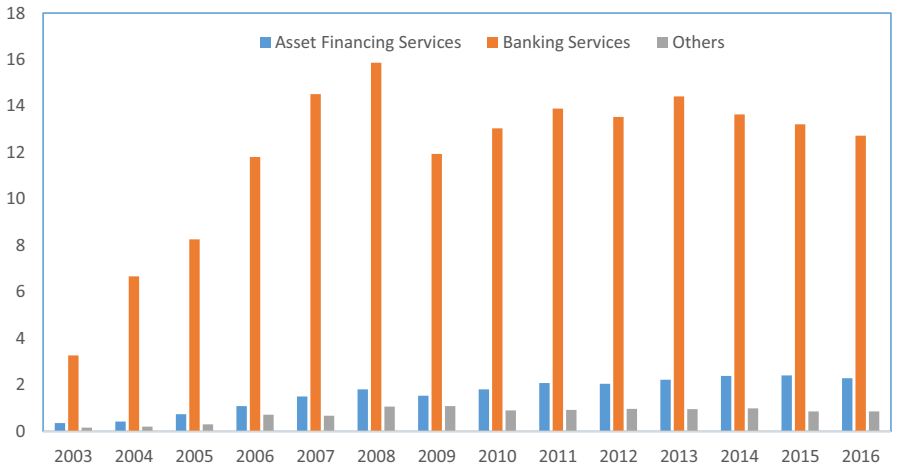

Fig. 5 FII ownership in the financial service sector. This figure represents the FII holdings of 721 financial service sector firms as a non-promoter investment. The average FII ownership as a non-promoter share in total shares (%) is measured on the vertical axis

Determinants of Foreign Ownership of Domestic Stocks

The foreign investors ownstocks of 4281 firms as non-promoters in India. However, the FII ownership of a majority of the firms was limited to a couple of years. Many firms do not hold FII ownership all the years. Thus, the sample is largely unbalanced due to missing information or FIIs not investing in stock for more than a year. Therefore, we selected all those firms in which foreign ownership is for a minimum of 9 years to avoid the weakly unbalanced data for the panel regression.[3] The selection of firms is based on the availability of the data and a chosen statistical design. The analysis of FII sample data suggests a diversity of data in terms of sectors, size, and percentage of ownership (Figs. 2, 3, 4, 5). The descriptive statistics of the sample also suggest cross-sectional variability of the data (Tables 1 and 4). The purpose of current research is defeated if the value of the dependent variable is missing. Centre for Monitoring Indian Economy Private Limited (CMIE) Prowess and Bloomberg collate the balance sheets of the companies. The data on FII ownership of stocks is not available for all the years, and several values are missing. The reason for missing value–value missing due to technical error or FII does not own the stocks for a particular year is not available in the databases. The present case is more of a randomly missing values problem than the selection bias. Addressing the missing values by imputing a related time series or basing the entire estimation on bootstrapped samples with accept/reject criteria is not advisable to the current research question. Moreover, such exercises entail some assumptions and lead to severe bias.

[3] The criteria of a minimum of nine years provide sufficient information on FII ownership in Indian stocks and overcome the problem of weak unbalance panel.

When the reason for non-response is ignorable, standard panel methods can be applied for consistent estimations. In the present case, the data on FII is missing due to non-response. Hence, we can estimate the standard panel regression. As illustrated by Verbeek and Nijman (1996), our conditioning does not affect the distribution of interest, and the selection rule is ignorable. In such a case, the selection process is ignorable when making inferences without affecting the consistency or efficiency of the standard estimators (Verbeek and Nijman 1996).

The percentage distribution of the FII ownership in firms shows that the sample is not skewed, and descriptive statistics confirm the diversity (Tables 1 and 4). The alternative statistical designs are susceptible to biases. For instance, a probit model leads to misleading inferences in the absence of information on missing value (see Wooldridge 2010; Baltagi 2021).[4] Moreover, such an analysis is less meaningful in the absence of no information on whether the value is missing or FIIs do not own stocks for a particular year. Our sample selection method is consistent with Kang and Stulz's (1997).

However, sample selection bias may still be present in the sense of Renders et al. (2006). Hence, the results of the present study need to be understood in light of such biases. The study covers the period from 2001 to 2016, and the final sample comprises 1078 firms. The availability of data dedicates the study period and choice of the sample. We obtained firm-level data from the CMIE Prowess database.

Firm-Specific Factors

We examine the firm-specific factors that determine the FII investment in a particular company. The examination of the issue necessitates time-series and cross-sectional dimensions. Accordingly, panel data econometric modeling appropriately gives attention to these two dimensions of the data. The use of panel data provides the flexibility of econometric modeling and the ability to control for unobserved heterogeneity (Verbeek 2021). The motivation for using panel data is to solve the omitted variables problem (Wooldridge 2010). The panel regression mitigates omitted variable bias when information on variables correlated with both the regressors and regressand if these variables are constant in the time dimension or across entities (Baltagi 2021). The panel data on firms can minimize estimation biases arising from aggregating groups into a single time series (Sul 2019). Panel data contains more information, more variability, and more efficiency than pure time-series data or cross-sectional data (Hsiao 2014). Panel data framework includes both cross-section and time series. Thus the number of observations is greater than cross-section and time-series alone. Firm-level FII determinants enjoy more significant heterogeneity as panel framework varies across a cross-section and over time. Such greater heterogeneity increases efficiency, lowers the collinearity among the explanatory

[4] CMIE and Bloomberg collate the balance sheets and financial statements of the firms. CMIE Prowess does not provide any information on whether the missing value is due to no investment or random missing information. The final sample, therefore, is subject to the availability of data and missing values are random.

variables, and increases the degrees of freedom and consistency (Wooldridge 2010). The panel regression, therefore, is the most appropriate method to understand the firm-level determinants of the FII ownership of stocks. We estimate the following panel regression equation to examine firm-level determinants:

$$FII_{i,t} = \alpha_i + \beta_1 Size_{i,t} + \beta_2 BM_{i,t} + \beta_3 Risk_{i,t} + \beta_4 DY_{i,t} + \beta_5 CP_{i,t} + \beta_6 CR_{i,t} + \beta_7 DE_{i,t} + \beta_8 EXPS_{i,t} + \beta_9 EPS_{i,t} + \beta_{10} ROA_{i,t} + \beta_{11} FV_{i,t} + \beta_{12} FDI_{i,t} + \beta_{13} Age_{i,t} + \varepsilon_{i,t}. \quad (1)$$

In Eq. (1), the dependent variable FII_{it} denotes the FII ownership of firm i at time t. The right-hand side variables are firm-specific factors selected based on their theoretical relevance and availability of data (Table 3). The theoretical framework for the empirical analysis of firm-specific factors is based on home bias, asymmetric information, and agency problem models.[5] The firm-level factors help foreign investors to overcome the problem of asymmetric information. FII also benefits from the corporate governance of companies to factor the agency costs in investment decisions.

a. Firm's size (*Size*): Modigliani–Miller (1958) theorem presumes a perfect capital market in which the internal and external capital are the perfect substitutes for the firms. The theorem imperatively argues that the larger the firm, the higher the investments. Smaller firms suffer from asymmetric information problems, which raises the cost of capital. The agency cost is also more for smaller firms (Devereux and Schiantarelli 1990; Kadapakkam et al. 1998). Firm size, therefore, is expected to be positively related to FII ownership.
b. Book-to-market ratio (*BM*): *BM* is the ratio of book value per share to an adjusted closing price of the firm. The theoretical relationship between *BM* and investment decision is ambiguous. A high *BM* indicates low earnings on the firm's assets, whereas a low *BM* suggests higher earnings (Fama and French 1992). When investors prioritize the persistence in earnings, *BM* is inversely related to the FII ownership. However, a positive relationship is expected between *BM* and average returns when relative profitability is the source of a common risk factor in returns (Fama and French 1995a, b).
c. Market risk (*Risk*): Market risk of a particular stock or security (Firm's beta value) measures the volatility. Theoretically, systematic risk and investment decisions are positive and linearly related (Sharpe 1964; Lintner 1965). These studies show that higher systematic risk suggests higher expected returns of stock and worthy of owning it. Solnik (1974) argued that risk is comparatively low in the internationally diversified portfolio than in domestic portfolios.
d. Dividend yield (*DV*): *DY* is the financial ratio that measures the cash dividends paid to shareholders relative to the market value per share. The theoretical works of Miller and Modigliani (1961) imply the negative relationship between *DY* and returns. The high and low *DY* ratios signal a fall and rise in stock returns suggesting a negative association between *DY* and FII ownership. However, the dividend puzzle continued to be a conundrum (Brealey et al. 2017).

[5] For an excellent and concise review, see Khanna et al. (2005).

Table 3 Description of firm-specific variables

Acronym	Variable	Sign	Description
FII	FII ownership	NA	Non-promoter FIIs in total shares held at the firm (%)
Size	Firm's size	(+)	Log of the market capitalization of the firm (in million ₹)
BM	Book-to-market ratio	(±)	The ratio of book value per share to an adjusted closing price of the firm
Risk	Systematic risk of the stock (Beta)	(−)	The market risk of a particular stock or security of the firm (Firm beta value) measures the volatility of the stock price
DY	Dividend yield	(−)	Ratio of dividend income to the adjusted closing price of the firm
CP	Closing price	(−)	Log of the closing price of the stock
CR	Liquidity ratio	(+)	Ratio of current assets to current liabilities of the firm
DE	Leverage ratio	(−)	Ratio of total debt to total equity of the firm
EXPS	Foreign exposure	(+)	Ratio of total exports to total net sales of the firm (%)
EPS	Earnings per share	(+)	Ratio of net income available to the shareholders to average outstanding shares of the firm
ROA	Firm's performance	(+)	Percentage of profits in terms of total assets of the firm. Ratio of net income to total assets (%)
FV	Firm visibility	(+)	Natural log of total advertisement expenditure cost of the firm (in million ₹)
FDI	FDI dummy	(+)	Foreign promoter shares held in total equity is 1, otherwise 0
Age	Firm age	(+)	Log of the present year minus incorporation year of the firm
BS	Board size	(+)	Natural log of board size of the firm
ID	Independent directors	(+)	Natural log of independent directors of the firm
Non-Exe	Non-executive	(+)	Natural log of the number of non-executive directors

This table reports the description of firm-specific factors. The data is collected from the CMIE prowess database. The corporate governance indicators (*BS*, *ID*, and *Non-Exe*) were collected from the Bloomberg terminal. For the 1078 sample firms, the CGI data available for 343 firms from 2006 to 2016 period. We match the firms between the Prowess database and Bloomberg using a matching indicator. NA denotes not applicable

Table 4 Descriptive statistics of firm-specific factors

Non-Exe	2324	1.75	1.95	0.60	0.00	2.83	−1.80	6.07

Variables as defined in Table 3. St.Dev denotes standard deviation

e. Closing price (*CP*): Theoretically, the closing price is an important determinant of FII flows as investors prefer a stock with potentially higher returns. The models of Froot et al. (2001) and Richards (2005) suggest a positive relationship between FII flows and closing prices of the stock. Dhamija (2008) empirically shows such a positive relationship in the case of India.
f. Liquidity ratio (*CR*): Finance theory suggests an influence of stock liquidity on corporate investment decisions. Amihud and Mendelson (1986) postulate a direct relationship between stock liquidity and a firm's value. As assets are discounted at the lower cost of capital, the liquidity of the firm improves. Brennan and Subrahmanyam (1996) and Easley and O'Hara (2004) support the liquidity premiums in stock returns. The liquidity ratio is thus expected to be directly related to the FII ownership.
g. Leverage ratio (*DE*): The ratio of total debt to the firm's total equity indicates a firm's leverage. According to the pecking order theory, leverage adversely affects the firm's performance. A leverage firm risks the investment of shareholders who are residual claimants. Further, Batten and Vo (2015) assert a negative relationship between leverage and foreign ownership; foreign investors prefer to invest in low leverage firms.
h. Foreign exposure (*EXPS*). The ratio of exports to total sales (*EXPS*) is an important measure of the firm's international exposure. Investors prefer stocks of those companies which they know better (Merton 1987a, b). Global investors are expected to be more familiar with export-oriented firms than non-export firms

(French and Poterba 1991). Hence, foreign exposure to the firm is expected to attract FII inflows.

i. Earnings per share (*EPS*): *EPS* is the ratio of net income minus dividends on preferred stock to an average of outstanding shares of a firm. *EPS* is an indicator of the financial health of the firm. We expect a positive relationship between EPS and FII ownership. Such a proposition relies on implied cost equity models (see Claus and Thomas 2001; Fama and French 2002).
j. Firm's performance (*ROA*): Return on assets (*ROA*) is the percentage of net income to total assets. *ROA* shows how efficiently a firm utilizes its resources to earn profits (see Galo 2016). It overcomes the drawback of size and returns on equity indicators of a firm's performance. Investors, including foreign investors, prefer to invest in stocks with higher *ROA*.
k. Firm visibility (*FV*): We measure a firm's visibility based on advertisement expenditure, news coverage, and product usage. The increased expenditure on advisement and news coverage leads to more publicity and visibility, attracting the FIIs. Merton's (1987a, b) model illustrates how investors prefer stocks they are aware of and familiar with. The home bias and information asymmetry are stylized facts of foreign investment, and news coverage and publicity familiarize these investors about the company in the sense of Merton (1987a, b). We expect a positive relationship between a firm's visibility and FII ownership. This priori is consistent with the theory of asymmetric information.
l. Foreign promoter ownership (*FDI*): FDI promoter ownership leads to greater integration in international capital markets and notable international exposure of a firm. Hence, FIIs prefer to invest in the firms where FDI investors have promoter ownership. Kaminsky et al. (2001) illustrate that the FII ownership is primarily driven by herd behavior and similarity. Edison and Warnock (2003) show that the FII investors follow peers and prefer the markets in which already direct investment is made primarily to overcome asymmetric information in emerging markets. The behavioral aspects such as herd behavior and group identity induce the FIIs to invest in those companies in which FDI ownership exists (Coval and Moskowitz 1999). We employ a dummy variable to denote the presence of foreign promoter ownership. When a firm holds more than 25 percent of the *FDI* in total equity, the dummy takes the value of one and zero otherwise. We expect a higher level of *FDI* ownership in a firm induces FIIs to own its stock.
m. Age (*Age*): This factor is crucial in investors' equity investment decisions, mainly when the market is characterized by asymmetric information. Theoretical literature, especially evolutionary economics, suggests that financial performance is positively related to the firm's *age*. The *age* of company influences performance through routinization, accumulated reputation, and organizational rigidity (Coad et al. 2018). Hence, *age* is expected to influence FII ownership directly.

The descriptive statistics in Table 4 show that the average value of FII ownership is 7.30 percent of the firm's total equity, while the maximum is 79.65 percent over the period; the FII ownership widely differs across the sample firms. FII ownership has high cross-sectional variability ranging from 0 to 79.65, with a median

value of 3.29. Several explanatory variables have mean values that deviate from the medians. The skewness statistics suggest that all variables are positively skewed, whereas the book-to-market, return on asset, and age are negatively skewed. Kurtosis statistics show that all variables have peaks and are non-normally distributed. The Jarque–Bera test statistic further confirms the non-normal distribution of the data series (Table 4).[6]

We find all explanatory variables significantly correlated with FII ownership except the *CR* and *FDI* (Table 5). The low pairwise correlations among the explanatory variables suggest independence among these variables. Further, the variance inflator factor (VIF) statistics suggest no multicollinearity among the regressors.[7] The Fisher type augmented Dicky-Fuller (ADF), and the Phillips-Perron (PP) panel unit root statistics confirm the stationarity of the variables (Table 6). We estimate the fixed and random-effect models to understand the firm-level determinants of FII ownership. The intercept of the fixed-effect model is time-invariant but varies across the firms. However, the random-effect model considers both individual and time effects. The Hausman (1978) and Sargan (1958)–Hansen (1982) test statistics suggest the relevance of the fixed-effect models for the firm-level analysis. The residuals are normally distributed.

In Table 7, we report the main results of the determinants of firm-specific factors. The size of the firm reflects the aggregate valuation of the firm. The coefficient of *size* is positive and statistically significant, indicating that large firms attract greater FII ownership. The result is in line with the theoretical proposition that foreign investors favor large firms over smaller firms because the former firms suffer less from asymmetric information than the latter (Merton 1987a, b; Huberman 2001). Large size firms allow better diversification and efficiently use the resources. The economies of scale achieved by large firms result in higher sales (Gompers and Metrick 2001; Dahlquist and Robertsson 2001). Besides, large size firms are internationally well recognized than that of small firms. Kang and Stulz's (1997) model illustrates the strong bias of foreign investors against smaller firms. Our findings on the *size* as the vital determinant corroborate the finding of Dahlquist and Robertsson (2001), Lin and Shiu (2003), and Batten and Vo (2015).

We use the book-to-market ratio (*BM*) to proxy the profitability and growth of the firm (Fama and French 1995a, b). We find the positive and statistically significant influence of *BM* on FII ownership; the high value of the *BM* suggests the stock's undervaluation and, thus, potentially a growth stock. Such growth stocks attract investors. Liljeblom and Löflund (2005) and Batten and Vo (2015) also document similar results for Finnish and Vietnamese stock markets, respectively. Nevertheless, our results contradict the findings of Lin and Shiu (2003), who argue that institutional investors hold ownership in firms with low *BM* (overvaluation) because of asymmetric information. According to these authors, low *BM* firms have high earnings than high *BM* firms, and therefore, foreign investors prefer to hold stocks of

[6] We have transformed the data into a required form such as log, Z-core (standardization), and Box-Cox transformation as per the panel estimation prerequisite.

these firms. In India, foreign investors identify the undervalued stocks that offer better returns in the future. Thus, they push the price towards fundamental value in the market by incorporating the information.

Further, we find an inverse relationship between risk and FII ownership. This result reflects how the high riskiness of the firms discourages foreign investors. This evidence contradicts some previous research and conventional theoretical models of Sharpe (1964) and Lintner (1965) but supports the view that foreign investors prefer large firms than the high-risk small firms despite expected higher returns. Our evidence on risk is consistent with the empirical works of Kang and Stulz (1997) and Liljeblom and Löflund (2005). The inference also draws support from the finding on the *size* and FII relationship.

In the case of dividend yield, we find a negative relationship indicating the preference of foreign investors for the low dividend paid stocks over the high dividend yield stocks. Such choice is due to the higher future growth of low dividend stocks and tax advantage accrued to these stocks. Moreover, the institutional investors are concerned about the holding ownership rather than the dividend of a particular stock. The evidence consists of theoretical predictions (Miller and Modigliani 1961; and Brealey et al. 2017). Such a relationship is also documented for Swedish and Finnish markets (Dahlquist and Robertsson 2001; Liljeblom and Löflund 2005).

We find an inverse relationship between the closing price of the stock and FII ownership. This result suggests that FII investors choose stocks with low prices as they consider them as undervalued, which offer better returns in the future. In other

words, the foreign investment is a "smart investment," Thus, investors are required to identify those stocks that outperform stocks with higher expected returns forecasted by other investors (Gompers and Metrick 2001). The coefficient of liquidity ratio (*CR*) is positive, suggesting that the foreign investors look for the firms' ability to meet the short-term obligation from the current assets. The result confirms the theoretical predictions (Amihud and Mendelson 1986) and recent evidence (Easley and O'Hara 2004). This result shows that foreign investors demand highly liquid stocks and do not like to be exposed to highly leveraged firms with potential returns. For instance, the FII investors hold more stocks in the firms with a higher working capital stock.

We find an inverse relationship between leverage (ratio of debt to equity) and foreign ownership of domestic stocks in India, and results are statistically significant in all the specifications. The increase in the debt to equity ratio of the firm implies that the firm is highly leveraged. Such performance would be uncertain, which in turn increases the idiosyncratic volatility (Black 1976). The inverse relationship between *leverage* and FII validates the pecking order theory. Kang and Stulz (1997) and Batten and Vo (2015) report a negative relationship and suggest that foreign investors prefer to invest in low leverage firms.

Further, we use earning per share (*EPS*) and return on assets (*ROA*) as a measure of the firm's performance, and our findings show that an increase in the firm's performance encourages more foreign investors to own such stocks. The coefficient of *EPS* is positive and significant as expected by the implied cost equity models of Claus and Thomas (2001) and Fama and French (2002). The relationship is consistent with the mainstream theoretical prediction and the previous finding of Phung and Mishra (2016) on the Vietnamese stock market. In other words, FIIs are attracted to profitable firms. The coefficient of *ROA* is consistent with the argument that institutional investors invest in higher *ROA* firms as they utilize assets efficiently to squeeze profit (Model 2, Table 7). Nevertheless, the result is statistically insignificant and contrasts the evidence on the Vietnamese market (Phung and Mishra 2016).

To test the role of a firm's visibility (*FV*) in the decision of FII to invest in a stock, we use advertisement expenditure as a proxy to the visibility. The firm's visibility is measured based on advertisement expenditure, news coverage, and product usage. We hypothesize a positive relationship between FII ownership and the *FV*. The increasing expenditure on advertisement leads to more publicity and visibility and induce FII ownership. The coefficient of *FV* is positive and significant (Model 3 and 5, Table 7) and validate Merton's (1987a, b) model. The foreign promoter ownership (*FDI*) is another variable close to the visibility variable and argument of Merton (1987a, b). We employ a dummy variable to represent the presence of *FDI* in a firm. If the firm holds the foreign promoter ownership in the form of *FDI* in total equity, we consider dummy as one and zero otherwise. We expect more *FDI* ownership to induce a significant share of FII in the firm's total equity. The results suggest a direct relationship between the FII ownership of domestic stocks and the presence of *FDI* as a promoter (Model 4–5, Table 7). Our evidence supports the argument of Edison and Warnock (2003) that the FII investors prefer to invest in those companies in which the peers have FDI ownership overcome the asymmetric information. The herd behavior (Kaminsky et al. 2001) and group identity (Coval and Moskowitz

1999) hypotheses also draws further support from the present empirical evidence. However, we find *EXP*—another variable that indicates perceptibility statistically insignificant to influence FII ownership.

Age is a crucial factor in the equity investment decision of investors, especially in the presence of asymmetric information. The review of literature on age shows that financial performance is positively related to the firm's age (Coad et al. 2018). Consistent with the theory, we find a direct relationship between *age* and foreign ownership of stocks indicating preference of the global investors to the older firms over the newer firms (Model 5, Table 7). Our evidence is consistent with the argument that foreign investors choose the stocks of the established companies to overcome asymmetric information in emerging markets, and they prefer stable returns (Kang and Stulz 1997). This finding contrasts previous evidence of Patnaik and Shah (2008). The preference for older firms indicates FII's buy-side bias (see Grosyberg et al. 2013).

We carry out a sub-sample analysis to check the robustness and general applicability of the results. We estimate Eq. (1) for pre and post-GFC periods, and results are presented in Tables 8 and 9 of Appendix A. We find results consistent with the baseline results (Table 7) and conform to our inferences. We do not find a significant impact of the GFC on the relationship between FII ownership and firm-specific variables. Nonetheless, the coefficient values for post-GFC period are lower than those of the pre-GFC period, but the statistical difference between coefficients is not significant.

Jensen and Meckling (1976) and Shleifer and Vishny (1986) postulate a theoretical relationship between ownership structure and firm performance. The empirical evidence on foreign ownership and performance of the firms is mixed. However, such documented evidence is plausible when the ownership is large and long-term (Douma et al. 2006). The buying and selling by FIIs who are portfolio investors hardly influence firm-specific factors (Chhibber and Majumdar 1999; Gedajlovic et al. 2005). Due to restrictions, FIIs in India hold a fragmented stake in the firms (Tables 1 and 4). With such a lower proportion and dispersed ownership, FIIs play a reluctant role in monitoring and are thus less likely to influence the firms (Khanna and Palepu 2000; Shrivastav and Kalsie 2017). Hence, the results of this study are not affected by endogeneity and causality.

Nonetheless, in some instances, FII ownership itself may affect the firms' visibility with the presumption that the presence of FIIs leads to an increase in the firm's recognition, which positively influences the performance. We examine this possibility by estimating a panel vector autoregression (VAR) model. Moreover, panel VAR has the merit of allowing the cross-sectional dimension, which also controls for heterogeneity across the subjects and reinforces the robustness of the estimation. Panel VAR models are selected based on stability and information criteria. The information criteria such as modified Bayesian information criteria (MBIC), modified Akaike information criteria (MAIC), and modified Hannan–Quinn information criteria (HQIC) suggest lag of one (Table 10 of Appendix B). Eigenvalues confirm the stability of the panel VAR model (Table 11 and Fig. 6 of Appendix B). In a panel VAR, all variables are treated as endogenous, and explanatory variables assume lagged value to capture causality. The generalized moment estimation

(GMM) method is used to estimate the panel VAR model. The estimators are consistent and asymptotically efficient. We impose Cholesky's orthogonal decomposition to estimate impulse-response functions (Figs. 7 and 8 of Appendix B).[8]

The panel VAR estimates confirm the inference drawn from the panel regression estimates of firm-specific determinants of the FII ownership of stocks in India. In other words, FII ownership is sensitive to a unit shock in firm-level variables (Fig. 7 of Appendix B). On the other hand, we find that firm's visibility and returns on assets are the only variables sensitive to the shock in FII ownership. The result suggests that while the firm's visibility attracts global investors, investment by the FIIs in a firm itself boosts the firm's visibility.[9] The significant impact of the FII ownership on return on asset indicates that the firms utilize the assets better with the increased presence of global investors. Our evidence on the return on asset and foreign ownership is consistent with the view of Khanna and Palepu (2000) that the increased presence of global investors brings monitoring benefits, which leads to better utilization of assets. Overall, the empirical analysis shows that FII ownership primarily belongs to the theory of the firm and equity research.

Corporate Governance and Foreign Ownership

The growing body of literature on corporate governance shows the increasing influence of corporate governance on investment decisions (Gompers and Metrick 2001; Mohanty 2003; Gibson 2003; Morey et al. 2009; Mukherjee 2015). Bhagat and Black (1999) find an uncertain relationship between governance and performance of the firms. Brown and Caylor (2006) show the relevance of a few governance indicators to the firm's valuation. Similarly, Renders et al. (2010) empirically find decreasing marginal effect of governance on the valuation of European firms.

The best corporate governance mechanism protects the wealth of minority shareholders from agency problems (La Porta et al. 1999; Bokpin and Isshaq 2009 and Klapper and Love 2004). Hence, corporate governance indicators (CGIs) are expected to directly relate to the FII ownership because of their positive influence on performance of firms. Mangena and Tauringana (2007) show a positive association between disclosure, independent non-executive directors and audit committee, and foreign ownership of the stocks. However, Panicker et al. (2016) find no such relationship except the board's size in the IT industry.

In this light, we probe the influence of CGIs on the investment decision of FII to own stocks of Indian companies. The research on corporate governance is scarce, especially with panel framework, due to a lack of quality data on indicators (Börsch-Supan and Köke 2003; Sjöstrand 2016). The problem is more severe in emerging markets such as India. The data on several CGIs is not available at a firm-level for a meaningful estimation. We choose CGIs, such as board size (*BS*), independent directors (*ID*), and non-executive directors (*Non-exe*) for the analysis dedicated by

[8] The supplementary statistics are available from the authors upon request.

[9] We have estimated the Eq. (1) with and without *ROA* and visibility in models from 1 to 6 (Table 7).

Variables as defined in Table 3. This table presents the panel fixed effect regression results of CGI indicators. In model 1, we include CGI variables, whereas, in model 2, these variables are added to the regressors (financial variables) of the baseline model of Table 6. We further estimate these models with the GFC dummy in model 3 and model 4, respectively. The corporate governance indicators (*BS*, *ID*, and *Non-Exe*) are collected from Bloomberg. For the 1078 total sample firms, the CGI data was available for 343 firms from 2006 to 2016

the availability of data. We estimate panel regression between FII ownership and these corporate governance variables (Model 1, Table 8). To ensure robustness, we also estimate a baseline regression (Eq. 1) with governance variables (Model 2, Table 8).[10]

The theoretical relationship between board size and foreign ownership of stocks is direct. The larger boards indicate the independence of the board (Muth and Donaldson 1998). CEOs need to build a consensus on a large size board and cannot dominate it. Some studies also report a negative relationship (Yermack 1996; Fich and Shivdasani 2005) owing to free rider and monitoring issues. Independent directors and non-executive directors reduce the likelihood of fraud and misuse of power (Dechow et al. 1996; Hillman and Dalziel 2003; Raheja 2005). The foreign investors perceive these directors as competent in monitoring the firm and ensuring the protection of investors. The non-executive directors are also expected to reduce agency

[10] . Corporate governance may influence the financial performance of the firms. Nonetheless, the correlation matrix and VIF statistics do not show such possibilities. The regression estimate with and without financials in the CGI models further confirms it.

costs and improve the monitoring and accountability of the boards (Zattoni et al. 2009). The empirical evidence on the issue is mixed.

The proxies of corporate governance are negatively skewed and non-normally distrusted (Table 4). These CGIs are not correlated with financial performance proxies and follow the stationary process (Tables 5 and 6). We find coefficients of *ID & Non-Exe* positive and statistically significant. The result implies that foreign investors choose to invest in stocks of those companies with more independent directors and non-executive numbers. These results are consistent with previous works such as Mangena and Tauringana (2007) and Desender et al. (2013) but contradict Panicker et al. (2016). The empirical evidence is consistent with the theoretical works, which illustrate that the composition and independence of the board lead to effective monitoring and accountability and eventually ensure the protection of the investors, especially the minority shareholders (Fama and Jensen 1983; Yermack 1996; Dechow et al. 1996; Fich and Shivdasani 2005; Raheja 2005; Zattoni et al. 2009). Our estimates indicate a negative relationship between board size and FII ownership, but the coefficient is statistically insignificant. The negative sign of the coefficient is consistent with some of the theoretical predictions that coordination, communication, and cohesiveness problems arise in large boards (Jensen 1993; Lipton and Lorsch 1992). The increase in board size also leads to a free-rider problem and lower corporate performance (Lipton and Lorsch 1992). Our finding on board size is consistent with Mangena and Tauringana's (2007) study but contrasts evidence of Panicker et al. (2016) for IT firms. To further check the robustness, we examine the impact of CGIs on FII ownership by re-estimating models 1 and 2 of Table 8 with the GFC dummy and present the estimates (Model 3 and 4) in the same table.[11] We do not find a significant difference between these estimates and full sample analysis. The estimates thus presented in Table 8 with various specifications show that the overall inference drawn on the relationship between CGIs and FII ownership is not sensitive to any chosen sample or events.

Conclusion

We investigate the determinants of foreign ownership of domestic stocks in the fastest-growing emerging markets such as India. The present research employs firm-level data to investigate the significant determinants of foreign ownership in Indian stocks. We find firm-specific factors such as size, the book to market ratio, the volatility of the stock, stock price, dividend yield, liquidity, leverage, and earnings as primary determinants of foreign ownership. FIIs also factor in the corporate governance of the firms in their investment decisions. We find no evidence to show foreign investors as fair-weather friends. Instead, our empirical analysis shows that FIIs are smart investors who look for potential returns and follow a smart investment strategy consisting of top-down and bottom-up approaches of equity analysis. The findings

[11] We cannot divide the sample into pre- and post-GFC due to lack of data for the pre-GFC period. The estimates for the post-GFC period are available upon request from the authors.

call for reforms in corporate governance and a further improvement in companies' financial fundamentals to attract the FII.

Cc: Madhabananda Das <mndas_prof@kiit.ac.in>, sarojkumarnanda1979@gmail.com

Dear Dr Panda

It gives me immense pleasure to inform you that your application for inclusion as Co-Supervisor for the PhD candidate Sarojkumar Nanda, 1581077 is approved.

You shall now be the official co-guide of the candidate and shall be equally responsible to mentor the candidate along with his Main Guide.

As per the guidelines You are also the member of RSC committee of the candidate.

We are confident that Your valuable support to the candidate shall be a great motivation for him.

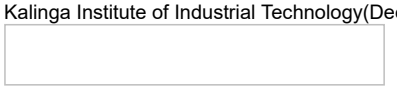

Thanks

Regards

Conference on Latest Advances in Computational and Applied Mathematics

December 15-17, 2016

Mahindra École Centrale
COLLEGE OF ENGINEERING

Department of Natural Science
Mahindra Ecole Centrale,
Hyderabad-500043

Certificate

This is to certify that

Dr. Anjanna Matta,

IFHE University, Hyderabad

delivered a Contributed Talk on

"Double-diffusive Hadley-Prats flow in a horizontal porous layer with a concentration based internal heat source"

in the Conference on

"Latest Advances in Computational and Applied Mathematics"

held during December 15-17, 2016

at the *Department of Natural Science,*

Mahindra Ecole Centrale, Hyderabad.

Organizer LACAM-2016

(Prof. NAGAIAH CHAMAKURI)

Dr. Nagaiah Chamakuri ,Associate Professor,Mahindra-Ecole-Centrale (MEC),
Tech Mahindra Technology Centre, Survey No: 62/1A, Bahadurpally, Jeedimetla,
Hyderabad, Telangana, 500 043, India.

About the College

Narsimha Reddy Engineering College has been established during the academic year 2007-08. This institute is built up on the spacious campus, aesthetically & articulately designed with lush green gardens & landscape. Our institution has an objective to impart Engineering Education to its students to become great future engineers with professional skills to address and solve the problems of modern Hi-tech industry. It offers B.Tech programmes in CSE, ECE, EEE, MECH and CIVIL and PG Programmes in CSE, MECH, EEE & MBA

About the Department

The Department of Computer Science and Engineering was started in the year 2007. The student intake is 180 in B.Tech and 18 in M.Tech. The Department is NBA Accredited. The department has well qualified and experienced faculty and well equipped labs. The student chapters periodically organize Workshops, Guest Lectures, National Level Technical Events like Paper Presentations, Group Discussions, Projects Exhibition, Programming Contest to showcase the skills of students and teaching community

Objectives of FDP

- To develop skills on Machine Learning using R and Python programming to solve the problems
- To identify which Machine Learning model is suitable for each type of problem
- To apply Machine Learning to Create strong value to business & personal purpose
- To gain experience to do independent research in the field of Machine Learning

Major Course Contents

- Introduction to Machine Learning, Issues and Case studies
- Linear regression, logistic regression and Multivariate regression
- Decision Tree Algorithms and Clustering
- Bayesian Learn
- Introduction to Python and R programming
- Applying the Machine learning algorithms on large data sets
- Natural Language processing
- Deep Learning
- Advanced Analytics Tools
- Programming Tools

Resource Person

- Dr.S. VAIRACHILAI
  Professor, ICFAI Tech Campus
- Mr.M.ARUNPRAKASH
  Director & CEO
  GUVI GEEK NETWORK PVT LTD
- Mr.SUBBAREDDY OOTA
  Scientist, Teradata

Registration Fee

Rs. 1000 /- to all

For Online Transfer

SBI Account Number: 35655271115

IFSC code: SBIN0011082

Important Dates

Last date for Application Submission: **28.06.2019**

Intimation of selection : **30.06.2019**

Confirmation of Participation : **02.07.2019**

Venue

Seminar Hall

First Floor, Mother Teresa Block

Narsimha Reddy Engineering College

Kompally, On Medchal Road
Secunderabad -500 100.

Diamond Jubilee Celebrations of NIT Warangal

National Conference on

COMPUTATIONAL MODELING OF FLUID DYNAMICS PROBLEMS

CMFDP - 2019

18th - 20th January, 2019

In memory of Late Prof. T.K.V. Iyengar on the eve of his birth anniversary

Certificate of Appreciation

This is to certify that Dr. Anjanna Matta.

of ICFAI Foundation for Higher Education

has Chaired a Session on 19.01.2019

in the National Conference on "**COMPUTATIONAL MODELING OF FLUID DYNAMICS PROBLEMS (CMFDP-2019)**" organized by the Department of Mathematics, National Institute of Technology, Warangal held from 18th - 20th January, 2019.

Dr. Ch. Ramreddy	Prof. D. Srinivasacharya	Prof. N. V. Ramana Rao
Conference Coordinator	Conference Chair & Head of the Department	Director

Organized by

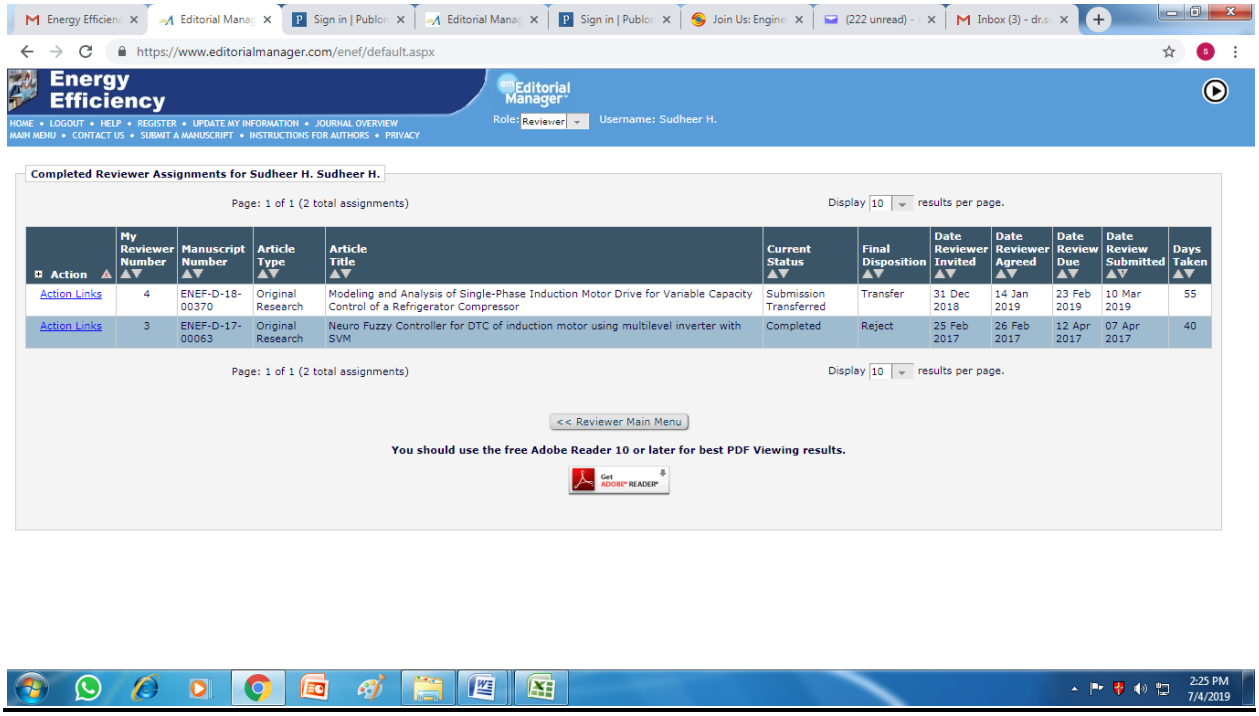

Department of Mathematics

National Institute of Technology

Warangal - 506 004, Telangana State, INDIA.

Paper Reviewed in Referred journals

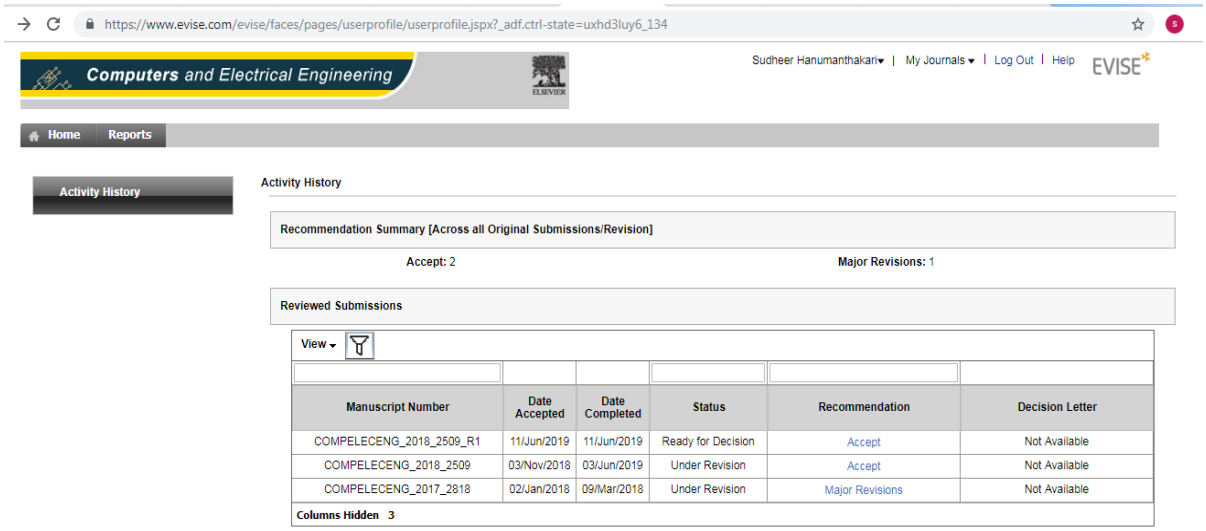

1) Energy Efficiency Spinger journal ENEF-D-18-00370
"Modeling and Analysis of Single-Phase Induction Motor Drive for Variable Capacity Control of a Refrigerator Compressor" reviewed on 10 March 2019.
2) Energy Efficiency Spinger journal ENEF-D-17-00063
"Neuro Fuzzy Controller for DTC of induction motor using multilevel inverter with SVM" reviewed on 7th April 2017.

Acted as a reviewer for The 8th IEEE India International Conference on Power Electronics (IICPE 2018) 2018 at MNIT Malaviya National Institute of Technology, Jaipur

1) Reviewed a paper "A Dual Inverter fed BLDC Motor Drive with Open-end Stator Windings" for IICPE 2018 at MNIT, Jaipur on 11th OCT 2018.

2) Reviewed a paper "Reduced Flux based Direct Torque Control of Synchronous Reluctance Machine for Electric Vehicle applications" for IICPE 2018 at MNIT, Jaipur on 11th OCT 2018.

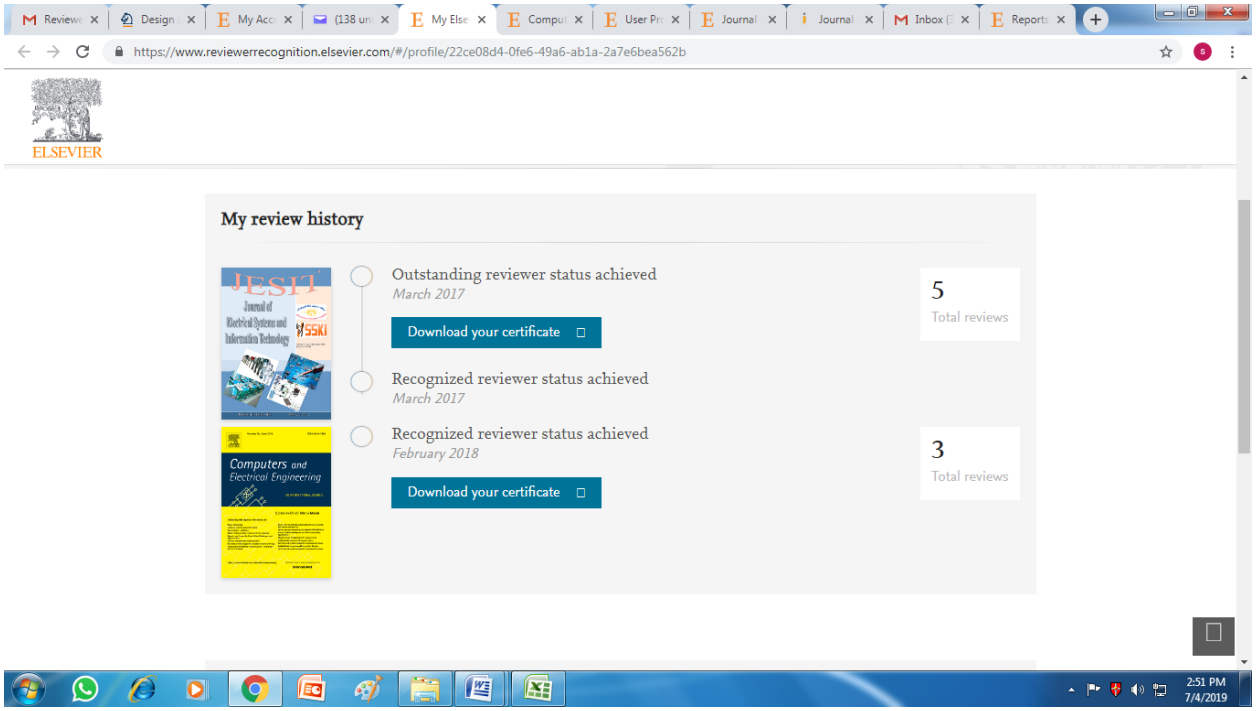

---

1) An International Journal on Computers & Electrical Engineering "COMPELECENG-2018_2509_R1"

" Calculation and Analysis for Optimal Design of Coupling Coil in Electric Vehicle Wireless Power Transfer System Based on Dual LCCL **" reviewed on 11 June 2019.**

2) An International Journal on Computers & Electrical Engineering "COMPELECENG_2017_2818" "

Title: A Modified DTC with Capability of Regenerative Braking Energy in BLDC driven Electric Vehicles Using Adaptive Control Theory**" reviewed on 09 Mar 2018.**

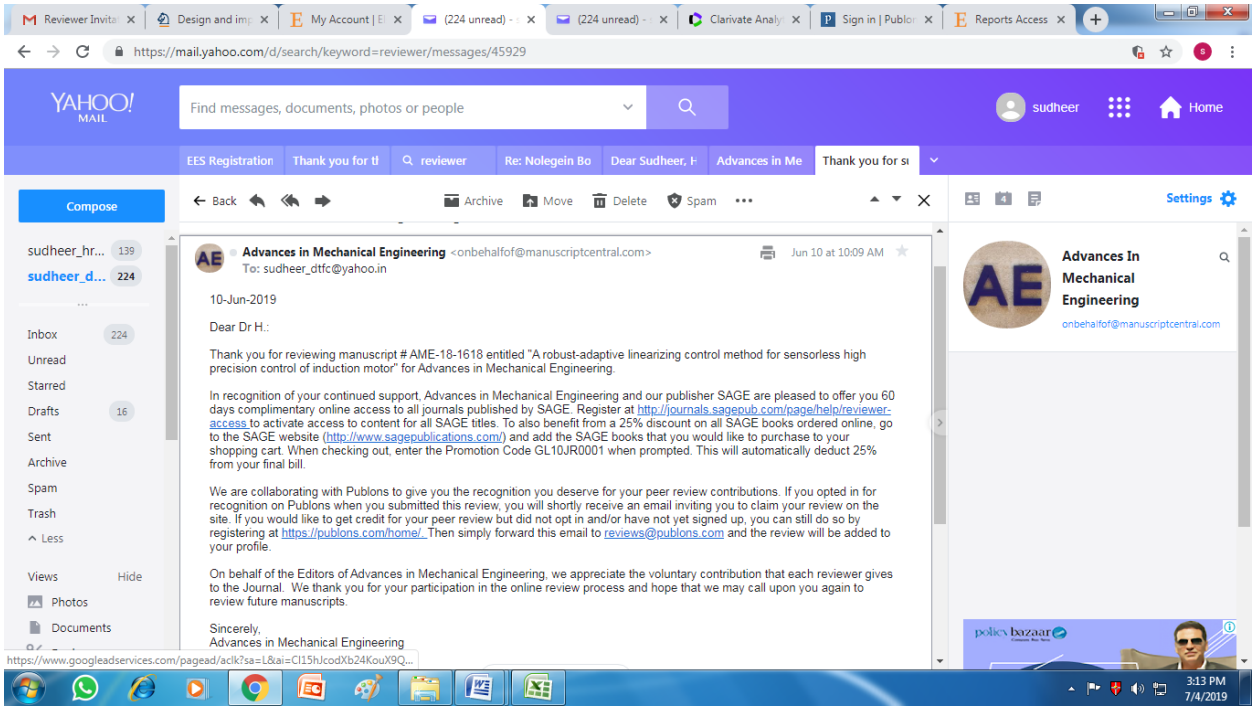

1) Journal of Electrical Systems and Information Technology **"**JESIT-D-17-00020**"**
" Congestion management in Indian Power Transmission System **" reviewed on 19th July 2017.**

2) Journal of Electrical Systems and Information Technology **"**JESIT-D-17-00047**"**
" Comparative Performance Analysis of PMSM Drive using Artificial Intelligence Technique**" reviewed on 15th Jun 2017.**

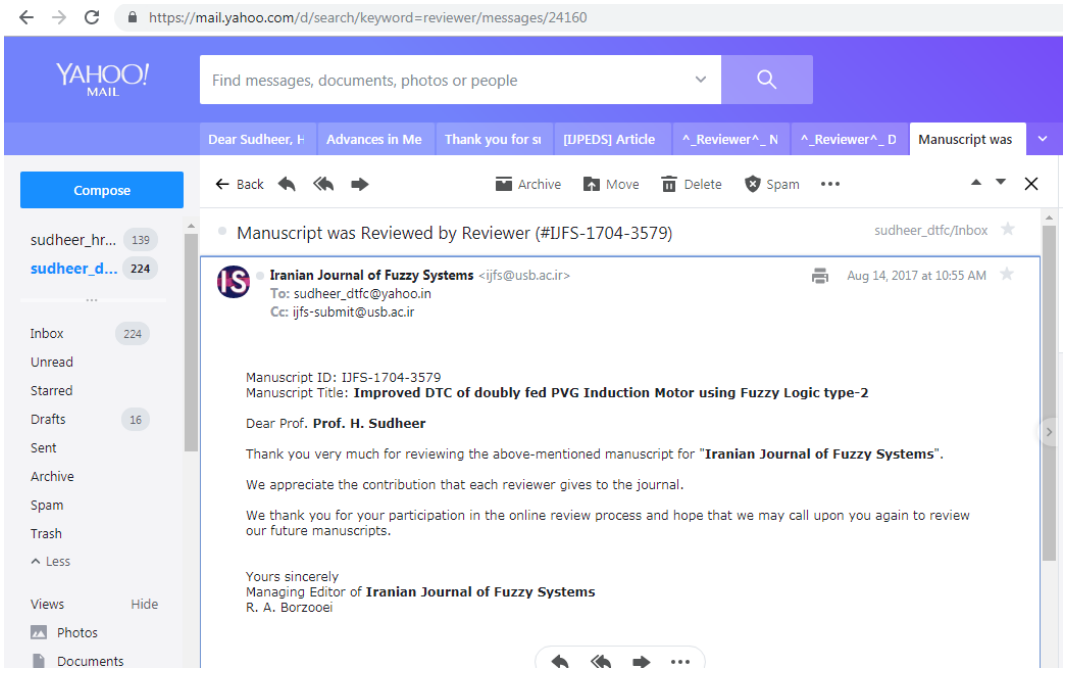

3) Journal of Electrical Systems and Information Technology **"** JESIT-D-16-00149**"**
" A Hybrid Application of Soft Computing Methods with Wavelet SVM and Neural Network to Electric Power Load Forecasting**" reviewed on 15th March 2017.**

4) Journal of Electrical Systems and Information Technology **"** JESIT-D-16-00128**"**
" Title: Improved Real Coded Genetic Algorithm for Dynamic Economic Dispatch**" reviewed on 07th Jan 2017.**
5) Journal of Electrical Systems and Information Technology **"** JESIT-D-15-00053**"**
" Evolutionary computation technique with Super Magnetic Energy Storage unit for Automatic Generation Control of an interconnected multi-area reheat thermal power systems**" reviewed on 09th Nov 2016.**

6) Journal of Electrical Systems and Information Technology **"** JESIT-D-16-00041**"**
" A novel modified DE optimized fuzzy PID controller for load frequency control with TCSC**" reviewed on 16th Aug 2016**

1) Sage Publications Advances in Mechanical Engineering“ AME-18-1618**” "** A robust-adaptive linearizing control method for sensorless high precision control of induction motor**"**
reviewed on 10th Jun 2019

1) Iranian Journal of Fuzzy Systems “ IJFS-1704-3579**” " Improved DTC of doubly fed PVG Induction Motor using Fuzzy Logic type-2 " reviewed on 14th Aug 2017.**

The users of Scimago Journal & Country Rank have the possibility to dialogue through comments linked to a specific journal. The purpose is to have a forum in which general doubts about the processes of publication in the journal, experiences and other issues derived from the publication of papers are resolved. For topics on particular articles, maintain the dialogue through the usual channels with your editor.

managingeditor@sae.org

SCOPE

The SAE International Journal of Engines is a scholarly, peer-reviewed research Journal dedicated to internal combustion engine science and engineering. The Journal spotlights innovative and archival technical reports on all aspects of internal combustion engine development, including research, design, analysis, control, and emissions. Aiming to be the internationally recognized definitive source for researchers and engineers in the area of engine research and development, the Journal publishes only those technical articles that are deemed to have significant and long-term impact on engine development and design. Studies published in the Journal include, but are not limited to, the following subjects: engine combustion and emissions engine design and analysis engine durability and wear engine efficiency engine noise, vibration, and harshness.

How to publish in this journal

managingeditor@sae.org

SCOPE

The SAE International Journal of Commercial Vehicles is to showcase state-of-the-art engineering research by promoting high-quality theoretical and applied investigations. The Journal achieves this goal by publishing only those peer-reviewed scientific articles on the design, modeling, controlling, and testing of commercial vehicles that bring strong empirical and theoretical contributions to the current and future body of knowledge.

How to publish in this journal

managingeditor@sae.org

SCOPE

The SAE International Journal of Materials and Manufacturing publishes peer-reviewed, authoritative, and in-depth research in the areas of materials, design, and manufacturing. In addition to analytical findings, the Journal addresses integration and implementation of scientific and engineering practices that advance the state of the art and benefit society. The Journal is assembled to present and promote wide-ranging research of the following areas: -materials—such as materials development, analysis, modeling, and testing (including ferrous/non-ferrous materials, composites, nano-technologies and coatings) -design—such as design analysis, modeling, simulations, and optimization (including robust design, durability, reliability, quality, uncertainty, and sustainability) -manufacturing—such as manufacturing practices, process, simulations, and methodologies (including forming, joining, assembling, lean manufacturing, and supply chain)

ABOUT SHADAN COLLEGE OF ENGINEERING & TECHNOLOGY

The dawn of globalization, liberalization and privatization in India gave impetus not just to the much needed economy but also to technical education. India can now boast of having the third largest pool of scientific and technical manpower in the world. The network of technical institutions which now span the country came into being in the 1990's. At present India is a leading force to reckon with in the fields of Software industry, Space science, Biotechnology, Nuclear science.

Shadan College of Engineering and Technology (SCET) we keep that light of the nation ablaze. The institution, ever since its foundation in 1995 is in the constant pursuit of keeping high the self imposed standards of excellence. Quality, Modernity And High Degree Of Scientific Temperament pervade every facet of the institution , be it technical education, laboratories or infrastructure facilities. The campus is the abode of discipline, harmony and intellectual pursuit and abuzz with intense academic activity.

Highly qualified fraternity, sprawling campus, state-of-the-art laboratories, well equipped library, spacious playground and above all ever enthusiastic management make Shadan College Of Engineering And Technology (SCET)

ABOUT THE COMPUTER SCIENCE AND ENGINEERING DEPARTMENT

The department has been rated very high in academic circles. The graduates from this department include many renowned technocrats, researchers and academicians working all over the world. The department provides a platform for the faculty and students of engineering colleges in the country to pursue their interest in basic and applied research. The department conducts various conferences, seminars and workshops on frontier areas of research in technical institution in India

Mr, N Srinu-N Srinu, Asst. Professor, Dept. of. IT

:

ONE WEEK

ONLINE FACULTY DEVELOPMENT PROGRAM (FDP)

On

Machine Learning and Data Science for Engineering Applications

(For all Engineering faculty & Research Scholars)
(5th June 2020 - 10th June 2020)
(10:30AM to 12:00PM)

Organized by
Department of
Computer Science and Engineering
&
Information Technology

Shadan College of Engineering & Technology
An ISO 9000-2015 certified Institution
(Affiliated to JNTUH & Approved by AICTE, New Delhi)
Peerancheru, Himayath Sagar Road,
Hyderabad, -08, Telangana, India.

WhatsApp Link to Join FDP
https://chat.whatsapp.com/KD5PksOcJZp27Vxex4MO8F

PROGRAM OBJECTIVE

.

- Provide insights about the roles of a Data Scientist.
- Make you figure out suitable Machine Learning algorithms.
- Learn Techniques and Tools for transformation of Data
- Learn data visualization and optimization.
- Make you understand Data Mining & Familiarize you with different formats.
- To gain experience of doing independent study and research.

MAJOR COURSE CONTENTS

- Supervised Learning Algorithm Introduction
- Regression Analysis
- Test of Hypothesis
- Two sample Test
- Paired T-TEST
- Independent T-TEST
- Machine learning & Classification.
- B Unsupervised Learning Algorithm
- Data Analysis & Intelligence.
- Significance tests for predictor variables
- Residual analysis,
- Auto Correlation

RESOURCE PERSON

- Dr. S. Vairachilai, Professor - IFHE Campus, Donthanapally, Shankarapalli Road, Hyderabad.
- Dr. S. Anu Velavan Professor, BIT Campus, Anna University, Chennai .
- Mr. M. Manikandakumar, Thiagarajar College of Engineering, Anna University, Chennai.
- Dr. D. Senthil Kumar, Professor, BIT Campus, Anna University, Chennai.

.

IMPORTANT DATES

Last date for submission of online application: 04/06/2020
Duration of Program: 05th June 2020– 10th June 2020 at 10.30 AM to 12.00 PM.

WHO CAN ATTEND?

The FDP is open to the Faculties of engineering Colleges, MCA colleges and other allied disciplines and also for Research Scholars/PG Students in Telangana, Andhra Pradesh and other states from India. Industry personnel working in the concerned/allied discipline are also welcome.

REGISTER ONLINE USING THIS LINK:

https://forms.gle/pCi1kqVk53EGKth4A

JOIN WHATSAPP GROUP USING THIS LINK:

https://chat.whatsapp.com/KD5PksOcJZp27Vxex4MO8F

NOTE:

Registration Charges: **Free**

Link to Join FDP will be shared through WhatsApp Group one day earlier on 04-06-2020.

- E-Certificates will be provided upon submitting the Feedback at the end of the Programme. Participation is must on all the days to obtain the E-Certificate.
- Link for submitting Feedback will be shared on the Last day of the programme.

ONLINE APPLICATION FORM FOR FACULTY DEVELOPMENT PROGRAM ON

Machine Learning and Data Science for Engineering Applications

(For all Engineering Faculty & Research Scholars)

(5 th June 2020 - 10th June 2020)

(10:30AM to 12:00PM)

REGISTRATION DETAILS REQUIRED:

Name :

Designation :

Name of the Institute:

Address :

Mobile No :

Phone :

E-mail ID :

Gender (M / F) :

Qualification :

Specialization :

Signature of the Applicant

Signature of the Principal/HOD

Registration:

Corporate Participants	**Rs. 2000**
Academicians	**Rs. 1200**
Full-Time Research Scholars	**Rs. 1000**
Students	**Rs. 500**

Payment Procedure:

Registration fees can be paid through DD in favour of **T.John College** payable at **Bangalore** or NEFT bank transfer to Union Bank Account, the details of which are given below;

A/C Name	**T.John College**	Branch	**KALKERE, BANGALORE**
A/C No.	**435301010030001**	IFSC Code	**UBIN0543535**

[In case of NEFT payment, Please bring the transaction receipt along]

Venue:

CTL Seminar Hall, 'A' Block, T.John College, Bangalore.

COMMITTEE

Chair Person
Prof. Dr. C. Karthikeyan

HOD
Dr. Sonia Singh

Program Coordinator
Prof. Pious Thomas
Dr. Trupti Dandekar

Contact Details

Prof. Pious Thomas : +91 9980795902
Dr. Trupti Dandekar : +91 7276321396

T.John College
No. 88/1, Gottigere, Bannerghatta Road, Bangalore- 560 083,Karnataka, India.
Phone: +91 80 49030555, 40250555, FAX: +91 80 28429228.

T. JOHN COLLEGE

NAAC Accredited with 'A' Grade
(Approved by AICTE &
Affiliated to Bangalore University)

Two-day Faculty Development Program On

"ADVANCED RESEARCH TOOLS AND ITS APPLICATIONS IN CURRENT MANAGEMENT PRACTICES"

24th & 25th May, 2019
Friday & Saturday

Organised by

DEPARTMENT OF MANAGEMENT STUDIES,
T.JOHN CENTRE FOR ADVANCED SOCIAL SCIENCES RESEARCH (TJCASSR)
&
INTERNAL QUALITY ASSURANCE CELL (IQAC)

About T.John College and Dept. of Management Studies

T.John College was established in the year 1993. The college provides an ideal ambience for study and research. The mission of the College is to create and nurture learning and knowledge based environment that is conducive to the pursuit of quality education. It aims to transform its students into a socially responsive generation that acts on their professional values and beliefs. The College is accredited by National Assessment and Accreditation Council (NAAC) with 'A' Grade.

The Department of Management Studies of T John College offers a two years full time MBA and M.Com program under Bangalore University. The courses combine practice and theory and help students recognize and adapt to the changing trends in business and society. With a pool of highly qualified Faculty members having diverse experience both in industry and academics, the department, continuously thrives towards quality, excellence and industry relevant academic delivery.

Resource Person:

Dr. S. Vairachilai (Assistant Professor - Department of CSE, ICFAI Foundation for Higher Education (IFHE), Hyderabad, Telangana) Ph. D in Computer Science and Engineering, Anna University, Chennai, Tamilnadu - Expert in the field of Data Science, Data modelling, predictive modelling and data mining algorithms - Expert in the use of Python/R and SPSS for predictive analysis

Dr. R. K. Prema (Faculty, Dayananda College of Engineering, Bangalore) – Ph.D in Management Studies, HR, Anna University Chennai - Headed Entrepreneur Development Cell (EDC), Coordinator for Corporate MBA - Active Member of National Human Resource Development (NHRD) Network & National Society for Entrepreneurship Development (NSED), Hosur Chapter - Experienced in SPSS, AMOS, PLS and a basic knowledge in R programming.

LOKESH N S (Associate Professor and HOD in Department of CSE at Raja Rajeshwari College of Engineering , Raja Rajeshwari Group of Institutions, Bangalore) - Ph.D. in Computer Science Engineering from Dept. of Computer Science, Cornell University, Ithaca, NY , USA in 2006-2010

Dr. Zameer Gulzar – Assistant Professor, Department of Computer Applications, BSA Crescent Institute of Science and Technology, Chennai-68, Tamilnadu.

Topics to Be Covered:

DAY	Session	Topic	Resource Person
24th May	9.30 AM - 10.00 AM	Registration	
24th May	10.00 AM - 10.30 AM	Inauguration	
24th May	10.30 AM - 1.00 PM	SPSS - Statistical Package for Social Science AMOS -Analysis of Moment of Structure	Dr. R. K. Prema
24th May	2.00 PM - 4.30 PM	Basics of R Studio, R Environment, creating Vector, Matrices, Data Frames.	Dr. Lokesh N. S.
25th May	9.00 AM - 12.00 PM	Parametric Test – Interpretation Test of Hypothesis Analysis of Variance [ANOVA]	Dr. S. Vairachillai
25th May	1.00 PM - 3.00 PM	1. Confusion Matrix 2. Twitter Analysis	Dr. Zameer Gulzar
25th May	3.00 PM - 4.00 PM	Discussion on working paper – Title, Objectives, Hypothesis, Testing and Analysis.	Dr. C. Karthikeyan Dr. S. Vairachillai Dr. Zameer Gulzar
25th May	4.00 PM - 4.30 PM	Valedictory Program and Certificate Distribution	

***Bring your Abstract/Working Papers for Discussion and get an opportunity to publish your work completed during FDP in special issue of UGC Approved Journal JETIR (Journal of Emerging Technologies and Innovative Research)**
