Future course of action

It was decided by the Soft Skills teaching group that

- SLP-2 should be introduced in the semester-2 of MBA program and "Chapter wise" tests have to be conducted for improving English.
- Fill in the blanks should be introduced in place of MCQs (Multiple Choice Questions)
- YouTube videos on English, utilization of the app "Grammarly" should be done
- Written assignments should be given to the students and they should be encouraged to find out their respective "FOG INDEX". Fog Index is a test that will focus on the 'Readability' aspect of a text and whether it is easy or difficult to read. The formula for calculating the Fog Index' is

  Average number of words in sentences+ Percentage of words in text with more than three syllables X 0.4. The Fog Index indicates the "number of years of education a reader has to have to understand a particular text. A higher fog index indicates that the text has many complex sentences and difficult to understand or grasp and vice versa.

- Group discussions can also be included to improve their speaking skills without any grammar mistakes.
