

A REPORT ON GOAL SETTING PROGRAM ORGANISED BY ICFAI LAW SCHOOL,
HYDERABAD BY ARPITA SOMA HELD ON 19-07-2018

A session on “**Goal Setting**” was organized on 19th July 2018 at IBS Auditorium by ICFAI Law School during orientation programme (16th – 20th, July 2018) for newly joined students that gives an awareness on inhibitions to students about their career, thinking patterns of aspirant as undergraduate, setting pitch of career by aspirant on his/her own, articulating and drafting of goals and importance of furnishing and update as times move toward career and several other aspects were discussed by resource person Ms. Arpita Soma during the session. In process of transforming the thinking of student She educated them with applicable illustrations too.

The speaker keenly thrown light for budding lawyers to become better professionals in future more than that better citizen of country following ethics, morals and values which are pivot for glowing advocacy they undertake in nearby career. Continuing to this the resource person started the session which really paved minds of aspirants to brainstorm within themselves like the biggest question she wants to ask them with their overall goals is, “what’s your why?” What kind of life do you want? How many hours do you want to work a week? What impact do you want your work to have? Behind all those questions, is your “why”. It’s what gets you up in the morning and propels you through your day. The most successful lawyers are those who set goals and doggedly work at them. We’re not talking about lawyer goals such as “go to law school” or “become an attorney.” Those don’t qualify as goals. Instead, they are steps you take to reach your bigger life goals.

The orator continued to engage saying If you never set goals, how do you find out what you truly want? If you walk through life with vague notions of “success” and “accomplishment”, you might never discover that what others have defined as happiness.

S. Vijayalakshmi

(Deemed-to-be-University establishes under section 3 of UGC Act 1956)

security, and fulfilment aren't at all aligned with what you believe those things to be. By asking ourselves what we really want and constantly re-assessing our lawyer goals, we gain the benefit of introspection and self-reflection. We can figure out what it is we really want in life – and then we can go out and do it. To be successful, you need to set meaningful lawyer goals based on your “why.” You need to know where you want your legal education and law job to take you. You need to have direction. And it all starts with your “why.”

The session when it went to involve more with question and skimming minds it drives to have more clarity to aspirant raising questions like why I need clarity on personal and advocacy career? How to set goals before they start in their school? What goals are reliable to set to have enrich career dream? Dwelling of queries solved with most persistent scope leaded budding professionals to fruitful thoughts arising hope and able to vision their career and capable to set goals basing on priority and interest. Overall the time they understood how to set goals with more SMART (Specific, Measurable, Attainable, Relevant, and Timely) as it is rightly said by prominent International speaker Brian Tracy. Total number of students were participated in the said program is 244.

The session was decorated with the presence of VC sir, Registrar madam, Director ICFAI LAW SCHOOL, Director, Dean Law school, Faculty Fraternity, and administrative staff.

The following are the list of Participants attended for Goal setting program by Arpita Sana held on 19th July, 2018

SNo	Enrolment Number	Title	Student Name
