Energy Audit Certificate

The External Quality Assurance Cell has conducted Energy Audit of ICFAI Foundation for Higher Education, Hyderabad for the Academic Year 2020-21.

The purpose of the audit was to ensure that the practices followed in the campus are in accordance with the Academic policies adopted by the institution. With this in mind, the specific objectives of the audit were to conduct a simple Walk-Through audit or observation of the energy consumption of electrical appliances; review and analyze energy usage history to create a baseline for which savings can be measured; determine what can be done to reduce energy consumption throughout the campus and what options are available for system improvements if funding is available & identify and evaluate measures that could improve the environmental performance of the campus and provide recommendations.

During the initial planning of the audit, an analysis was conducted in order to identify, evaluate and prioritize the quality parameters in line with the global accreditation standards. The analysis was based upon an examination of the policies, manuals and standards that govern the energy quality and sustainability, on data analysis, and on the results of preliminary interviews with personnel considered key in the energy management in the campus. The criteria and methods used in the audit were based on the identified risks.

The methodology used included physical inspection, review of the relevant documentation, and interviews. Reliance was placed on the third-party data provided by the institution.

Statement of Assurance

This audit has been conducted in accordance with the *International Standards for the Professional Practice of Internal Auditing*.

In our professional judgement, sufficient and appropriate audit procedures were completed, and evidence gathered to support the accuracy of the conclusions reached and contained in this report. The conclusions are based on a comparison of the situations as they existed at the time of the audit with the established Criteria.
